

ABELIA 'GOLDEN ANNIVERSARY'

Plant in:

Sun Part Sun

Abelia

Gold with White Flowers

Height: 2 - 3'

Width: 3 - 4'

Flower

Months: 6 - 8

Zone: 6

Golden margins surround dark glossy green centers making this shrub a real show - stopper. While the foliage is striking, the blooms won't fail to impress. Small, white, lightly fragrant flowers start opening in June and continue throughout the summer. This shrub loves full sun or partial shade and is perfect for small spaces due to its compact size.

ABELIA `SILVER ANNIVERSARY`

Plant in:

Sun Part Sun

Abelia

Silver

Height: 2 - 3'

Width: 3 - 4'

Flower

Months: 6 - 8

Zone: 6

Clear silver to cream colored leaf margins make this shrub shimmer even in full sun. The new foliage emerges with a flush of pinkish - red which only adds to the show. While the foliage is striking, the blooms won't fail to impress either. Small, white, lightly fragrant flowers form in June and open throughout the summer. This compact, slow growing, mounding shrub is perfect for groupings or small spaces in sun or partial shade.

Weeping Japanese Maple

Red

Height: 8 - 10'

Width: 10 - 12'

Flower

Months:

Zone: 5

This selection is one of the more vigorous growing dissected leaf types and one of the most hardy. Lacy, deeply cut foliage can be up to 6" long and wide with striking purple - red color providing great landscape texture on a rounded, flowing plant that turns a crimson red in the fall.

ACER PAL. DIS. `TAMUKEYAMA`

Plant in:

Sun Part Sun

Weeping Japanese Maple

Purple

Height: 6 - 8'

Width: 8 - 9'

Flower

Months:

Zone: 5

Great texture and great leaf color combine to make this one of the most desired threadleaf Japanese Maples. With a low, spreading form this plant's highly cut foliage holds its deep purple color all season and makes a perfect specimen for any landscape.

ACER PAL. DIS. `WATERFALL`

Plant in:

Sun Part Sun

Weeping Japanese Maple

Green

Height: 6 - 8'

Width: 8 - 10'

Flower

Months:

Zone: 5

This bright green leaved selection of weeping maple creates a flowing landscape form with layers of pendulous branches covered with deeply lobed, threadlike leaves producing superb texture. This plant is stunning when used near a water garden and in the fall when its leaves turn a bright yellow.

ACER PALMATUM `BLOODGOOD`

Plant in:

Part Sun

Upright Japanese Maple

Burgundy

Height: 15 - 20'

Width: 15 - 20'

Flower

Months:

Zone: 5

Bloodgood' remains a tried and true landscape favorite. It is a hardy, vigorous problem - free tree with symmetrical, round branching. A multi - stemmed small tree that shows off its silvery bark, crimson stems, and burgundy star shaped leaves. For best performance provide afternoon shade and keep its roots cool.

ACER PALMATUM `FIREGLOW`

Plant in:

Part Sun

Upright Japanese Maple

Burgundy

Height: 15 - 20'

Width: 15 - 20'

Flower

Months:

Zone: 5

This dwarf, upright designer selection will dazzle you with its flamboyant summer coloration, compact, bushy form, and shocking pink spring coloring. 'Fireglow' produces leaves that mature to a deep wine red color and turn a blazing crimson red in the fall.

ACER PALMATUM DISSECTUM `GARNET`

Plant in:

Part Sun

Weeping Japanese Maple

Red

Height: 6 - 7'

Width: 8 - 10'

Flower

Months:

Zone: 5

With a dense, spreading, cascading form, this plant will become a staple in your landscape. Its large, broadly dissected threadlike foliage begs to be touched. The foliage emerges in early spring bright red then matures to a stunning purple - garnet red c

ANDROMEDA POL. `BLUE ICE`

Plant in:

Sun Part Sun

Bog Rosemary

Silver Leaf with Pink Flower

Height: 1 - 2'

Width: 1 - 2'

Flower

Months: 4 - 5

Zone: 4

You'll get a great spring show from this cute little evergreen shrub. The foliage is the first thing you'll notice since it's almost needle - like and has a superb powder of steel blue color that really stands out. Its flowers appear from late April to early May as small, pink - tinged, bell - shaped flowers. Make sure they stay moist and don't dry out.

Bearberry

Green with Pink Flowers and Red Berries

Height: 6 - 12"

Width: 4 - 12'

Flower

Months: 4 - 5

Zone: 3

A reliable groundcover, particularly in seashore conditions. Does best in poor, sandy soil. No more than 12" high, the dark green foliage turns reddish-bronze in autumn for year-round effect. The persistent red berries add winter interest.

Red Chokeberry

Green with White flowers and red berries

Height: 6 - 10'

Width: 3 - 5'

Flower

Months: 5

Zone: 3

An upright growing native with shiny dark green leaves has a ton of landscape attributes. White 1 to 1.5" diameter flowers in May attract butterflies and pollinators. These are followed by bright red, persistent bunches of berries in the fall which provide food for local birds. That along with its tolerance of wet soil make this a winner.

AZALEA `ARCTIC ROSE`

Plant in:
Part Sun Shade

Azalea

Variegated foliage, hot pink flowers

Height: 3 - 4'

Width: 4 - 5'

Flower
Months: 5

Zone: 5

The deep green foliage edged in white color add a crispness throughout the growing season, forming a dense, round, spreading shape in the landscape that is at home in any wind - shielded partly shady spot. In May rose red flowers open by the hundreds keeping the foliage in the background for up to 3 weeks at a time.

AZALEA `GIRARD`S CRIMSON`

Plant in:
Part Sun Shade

Azalea

Green with Red Flowers

Height: 2 - 3'

Width: 3 - 4'

Flower
Months: 5

Zone: 5

Dense and spreading, the selection is very hardy and one of the most dependable bloomers of any of the azaleas grown. Shiny, deep green foliage keeps well through the winter and serves as a backdrop for big, 2.5" crimson - red flower in early May.

AZALEA `GIRARD`S FUCHSIA`

Plant in:

Part Sun Shade

Azalea

Green with Fuchsia Flowers

Height: 2 - 3'

Width: 3 - 4'

Flower
Months: 5

Zone: 5

Exceptional reddish - purple flowers in early to mid - May, along with dark glossy foliage really make this selection stand out! Very hardy with excellent winter leaf retention.

AZALEA `GIRARD`S HOT SHOT`

Plant in:

Part Sun Shade

Azalea

Green with Orange Flowers

Height: 3'

Width: 4'

Flower

Months: 6 - 8

Zone: 5

A standout for your landscape covered in 2.5 - 3" orange - red flowers. Dense growing with beautiful dark green foliage that turns a showy orange - red in fall. Very hardy!

AZALEA `GIRARD`S PLEASANT WHITE`

Plant in:

Part Sun Shade

Azalea

Green with White flowers

Height: 3'

Width: 4.5'

Flower
Months:5

Zone: 5

The single, rounded white flowers which appear in late May are up to 3" across on this Girard hybrid Azalea. It's large, spreading habit makes it a great landscape Azalea. The green foliage is lighter than most other Girard types.

AZALEA `KAREN`

Plant in:

Part Sun Shade

Azalea

Green with Lavender - Purple Flowers

Height: 4'

Width: 5'

Flower
Months: 5

Zone: 4

This selection is a northern wonder bringing the joy and showiness of an azalea in bloom to our area's coldest regions. Extremely hardy and amazingly colorful with lavender flowers that bloom in mid - May, this is the azalea to try if your winters prove too tough on other varieties.

AZALEA 'LEMON DROP'

Plant in:

Part Sun Shade

Azalea

Green with Pale Yellow Flowers

Height: 5 - 7'

Width: 6 - 8'

Flower
Months: 7

Zone: 4

A summer flowering deciduous Azalea. Soft peach buds open to slightly lemony - fragrant, yellow blossoms in July. Upright branches hold glossy blue - green mildew resistant leaves which turn a dark, wine - red color in fall.

AZALEA `LEMON LIGHTS`

Plant in:
Part Sun Shade

Azalea

Green with Lemon Yellow Flowers

Height: 4 - 5'

Width: 3 - 4'

Flower
Months: 5

Zone: 4

Lemon Lights Azalea is smothered in stunning clusters of lightly - scented lemon yellow trumpet - shaped flowers with a yellow blotch at the ends of the branches in mid spring before the leaves. It has green foliage throughout the season. The narrow leaves turn an outstanding purple in the fall.

AZALEA `LOLLIPOP`

Plant in:

Part Sun Shade

Azalea

Green with Pink Flowers

Height: 4'

Width: 4'

Flower
Months:6

Zone: 4

A dreamy vanilla scent graces this July bloomer along with an abundance of color in the form of rounded heads of clear pink flowers. Vigorous rowing with deep green foliage that turns orange in the fall.

AZALEA `ORCHID LIGHTS`

Plant in:
Part Sun Shade

Azalea

Green with Lilac Flowers

Height: 2 - 3'

Width: 2 - 3'

Flower
Months:5

Zone: 4

This more compact azalea has 1.5 - 2" pale lilac flowers which occur in early May before the leaves emerge. The flower shape of this plant is unusual in that it actually resembles an orchid.

AZALEA `ROSY LIGHTS`

Plant in:
Part Sun Shade

Azalea

Green with Pink Flowers

Height: 4 - 5'

Width: 5 - 6'

Flower
Months: 5

Zone: 4

This deciduous shrub is a very fragrant bloomer that opens in early May with deep pink flowers and rose-red shading. Super landscape color!

BERBERIS THUNBERGII 'BOGOZAM'

Plant in:

Sun Part Sun

Barberry

Golden

Height: 1 - 2'

Width: 2'

Flower
Months: 5

Zone: 4

This dwarf cultivar produces gracefully arching branches of bright - gold foliage. Often used for informal hedges, Japanese barberry produces inconspicuous yellow flowers in spring and berries that persist throughout the winter. It prefers sun, but the color won't change with a lack of sunshine. Perfect for small spaces.

Plant in: Sun Part Sun
CRIMSON PYGMY *ATROPURPUREA* 'CRIMSON PYGMY' **Sun Part Sun**

Barberry

Burgundy

Height: 24 - 30"

Width: 30 - 36"

Flower
Months: 5

Zone: 4

'Crimson Pygmy' has a deep crimson colored foliage all season and the new growth is bright red in color but this plant does best in full sun to produce its color. Beadlike, bright, red berries stud branches in the fall through winter. This plant does well as a hedge or border planting. In fall it turns yellow to red and is deer resistant.

Barberry

Burgundy

Height: 5 - 6'

Width: 5 - 6'

Flower
Months: 5

Zone: 4

This barberry is a vigorous cultivar and is a showy garden plant with its variegated leaves of purple with light pink splotches. It should be planted in full sun to part shade. Full sun will produce the best foliage color. 'Rosy Glow' needs a well drained area and can tolerate some drought. Yellow flowers will appear in April and they may last until May.

BUDDLEIA `LO & BEHOLD BLUE CHIP`

Plant in:

Sun

Butterfly Bush

Green with Purple Flowers

Height: 2 - 3'

Width: 2 - 3'

Flower

Months: 5 - 9

Zone: 5

This buddleia is in fact a much more compact version of the giant woody plant that took over your garden in the past. This is an all new variety of buddleia with all the fragrance and butterfly appeal of traditional varieties in a small, easy to maintain package. It has 2 - 3" long deep purplish - blue flower cones from mid summer to frost.

BUDDLEIA DAVIDII 'BLUE CHIP'

Plant in:

Sun

Butterfly Bush

Green with Lavender Flowers

Height: 4 - 6'

Width: 4 - 6'

Flower

Months: 5 - 8

Zone: 5

Fragrant flowers attract butterflies throughout the summer. Enjoy continuous lavender blooms on this easy - keeper from mid - summer through frost. Cut back hard in the early spring to keep its height down.

BUXUS `NORTH STAR`

Plant in:

Sun Part Sun Shade

Boxwood

Green

Height: 2 - 3'

Width: 2 - 3'

Flower

Months:N/A

Zone: 4

This low - maintenance shrub forms a dense globe in the landscape that requires no pruning to retain its tight, almost formal presence. The extremely hardy plant retains its lustrous, deep green foliage better than other boxwoods year round. Use it as a low hedge or specimen. Deer resistant.

BUXUS SEMPERVIRENS

Plant in:

Sun Part Sun Shade

Cone Boxwood

Green

Height:

Width:

Flower

Months:N/A

Zone: 4

Buxus cones require little attention and therefore are ideal for a low maintenance, garden, patio or balcony. Boxwood plants will grow 4 - 6 inches a year and can be trimmed during the growing season (June to the end of August) to retain shape.

BUXUS SEMPERVIRENS `SUFFRUTICOSA`

Plant in:

Sun Part Sun Shade

Boxwood

Green

Height: 2 - 3'

Width: 2 - 3'

Flower

Months:N/A

Zone: 4

A superb form of boxwood, this variety is extremely slow growing with a very dense round form. Easy to prune and formalize, it's used extensively in formal and herb gardens and would certainly be a welcome addition to any small space.

BUXUS X SEMP. 'GREEN MOUNTAIN'

Plant in:

Sun Part Sun Shade

Boxwood

Green

Height: 6 - 7'

Width: 4 - 5'

Flower

Months:N/A

Zone: 4

Distinctly upright and conical with a broad base, this cultivar has a large range of landscape uses from specimen to hedging. Great green color has year - round staying power.

BUXUS X SEMP. 'GREEN VELVET'

Plant in:

Sun Part Sun Shade

Boxwood

Green

Height: 2 - 3'

Width: 2 - 3'

Flower

Months:N/A

Zone: 4

The foliage on this low, rounded evergreen will stay luxuriously green whether in the blazing sun or in winters up to - 20F. This is the plant for you if you want a low - maintenance evergreen easy - keeper to shape or let grow naturally.

CALAMAGROSTIS ACUT. 'KARL FOERSTER'

Plant in:

Sun Part Sun

Feather Reed Grass

Green with Tawny Heads

Height: 4 - 6'

Width: 24 - 36"

Flower

Months: 6 - 10

Zone: 4

The only grass to ever have been voted Perennial Plant of the Year. This outstanding grass adds a wonderful vertical element to the garden. One of the first ornamental grasses to flower, its June blooms fade to a tawny brown and are attractive throughout the winter.

ALAMAGROSTIS ACUTIFLORA 'AVALANCHE'

Plant in:

Sun Part Sun

Variegated Feather Reed Grass

Variegated foliage with Tawny Heads

Height: 4 - 5'

Width: 24 - 36"

Flower

Months: 6 - 10

Zone: 4

'Avalanche' has the same narrow upright habit as 'Karl Foerster' but has an added bonus - variegated foliage! Deep green foliage carries a wide band of white down the middle of the blade bringing even more interest to an already superb grass. Plant it in full to part sun.

CALLUNA VULGARIS `MAIRES`

Plant in:

Sun

Summer Heather

White flowers

Height: 12 - 24"

Width: 18 - 30"

Flower

Months: 8 - 9

Zone: 4

An increasingly popular group of plants for good reason! Low, dense growing, and spreading, these plants offer fine texture and long lasting summer bloom. Great for use in rock gardens or as a groundcover, Heathers prefer a sandy, acid soil with lower fertility.

Summer Heather

orange/red foliage with mauve flowers

Height: 12 - 24"

Width: 18 - 30"

Flower

Months: 8 - 9

Zone: 4

Calluna 'Robert Chapman' has some of the brightest foliage around. In spring, the foliage colors up to golden yellows then turn orange in the fall. For the grand finale in winter, the foliage turns bright red. Lavender urn - shaped flowers appear in August. Prune lightly once in the spring.

CALLUNA VULGARIS `TIB`

Plant in:

Sun

Summer Heather

double mauve - pink flowers

Height: 12 - 24"

Width: 18 - 30"

Flower

Months: 7 - 10

Zone: 4

One of the earliest double flowered varieties to bloom! Spikes of double, mauve - pink flowers appear from July to October over deep green foliage that forms an open wide habit. Great for rock gardens or as a groundcover.

CHAENOMELES JAP. 'CRIMSON & GOLD'

Plant in:

Sun Part Sun

Flowering Quince

Green with Crimson Flowers

Height: 3 - 4'

Width: 4 - 6'

Flower
Months: 5

Zone: 5

The large, velvety, crimson red flowers that light up in the center with a bright golden stamen and the consistent, profuse blooming add to the improved dense, spreading habit. This fast - growing, dwarf flowering Quince does it all.

CHAMAECYPARIS NOOTKATENSIS 'PENDULA'

Plant in:

Sun Part Sun

Weeping Alaskan Cedar

Green

Height: 15 - 20'

Width: 15 - 20'

Flower

Months:N/A

Zone: 5

Deep green - blue foliage and a stately, cascading, weeping form make this plant an ideal specimen in the landscape. Rapid growth and low maintenance make this adaptable tree and increasingly popular selection.

CHAMAECYPARIS OBTUSA 'CRIPPSII'

Plant in:

Sun Part Sun

Hinoki, False Cypress

Golden

Height: 10 - 15'

Width: 8 - 10'

Flower

Months:N/A

Zone: 5

Distinctive bright golden yellow fern - like foliage all year grace this small tree. Wide growing when young, it becomes conical when older. Best in combination with darker foliaged evergreens. Requires full sun for brightest color.

CHAMAECYPARIS OBTUSA 'FILICOIDES'

Plant in:

Sun Part Sun

Hinoki, False Cypress

Green

Height: 15'

Width: 6'

Flower

Months:N/A

Zone: 5

A wonderful specimen with moss green, almost stringy, strikingly different foliage gets a bronzed cast in winter. Slightly curved orange - stemmed branches form an almost contorted figure as it grows. Moderately growing, in upright, semi conical shape.

CHAMAECYPARIS OBTUSA 'GRACILIS'

Plant in:

Sun Part Sun

Compact Hinoki Cypress

Green

Height: 12 - 15'

Width: 6 - 8'

Flower

Months:N/A

Zone: 5

Deep green, fan - shaped foliage and winning pyramidal form make this dependable evergreen a perfect plant for a small specimen or grouping to form a border hedge. Textured foliage gives a touchable look and this selection is easy to grow and tolerant of most part to full sun locations.

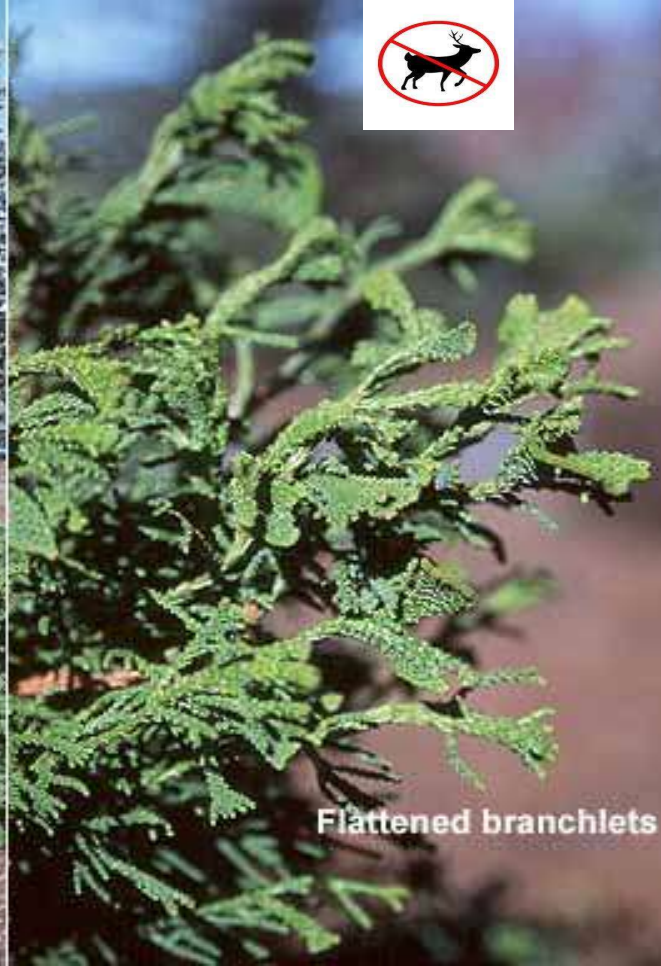

CHAMAECYPARIS OBTUSA 'TORULOSA'

Plant in:

Sun Part Sun

Twisted False Cypress

Green

Flattened branchlets

Height: 8 - 10'

Width: 5 - 6'

Flower

Months:N/A

Zone: 5

This pyramidal, upright tree distinguishes itself from the pack with its deep green, fanlike foliage that twists and turns to give it a signature look that is hard to match. Adding to the texture even more are the little cockscombs of foliage that form on new growth. 'Torulosa' is easy to grow in any sunny to partly sunny location.

CHAMAECYPARIS PISIFERA `SOFT SERVE`

Plant in:

Sun Part Sun

False Cypress

Green

Height: 4 - 6'

Width: 3 - 6'

Flower

Months:N/A

Zone: 5

You'll want to reach out and touch this compact, conical, slow growing evergreen with its dense yet graceful foliage and soft, fernlike branching. The foliage is bright green on top and flecked with silver - blue on the underside. It requires little pruning and thrives in full sun to partial shade. It prefers moist well - drained soil and some protection from winter winds to look its best.

HAMAECYPARIS PISIFERA 'FILIFERA AUREA'

Plant in:

Sun Part Sun

Gold Mop Cypress

Golden Yellow

Height: 3 - 4'

Width: 4 - 5'

Flower

Months:N/A

Zone: 5

This variety of this popular plant is stunning with year-round yellow color that stands up to the summer sun without scalding. Combine this with its slow growth and tight habit, and it's obvious why this plant is in such demand.

CHAMAECYPARIS PISIFERA 'VINTAGE GOLD'

Plant in:

Sun Part Sun

Vintage Gold Cypress

Golden Yellow

Height: 3 - 5'

Width: 3 - 5'

Flower

Months:N/A

Zone: 5

You'll be dazzled by both the amazing golden color of this plant and its fabulous form. It has a dense rounded form that is easy to use in any half to full sun area. It will brighten up any area with its striking gold fernlike foliage that keeps its blazing color throughout the summer.

CHAMAECYPARIS THYOIDES 'TOP POINT'

Plant in:

Sun Part Sun

Dwarf White Cedar

Green

Height: 4 - 5'

Width: 2 - 3'

Flower

Months:N/A

Zone: 5

A superior compact selection with interesting texture and a narrow habit, this upright conifer displays two types of foliage, both needle - like and scale - like. Muted green in summer, the versatile tree takes on a rich purple blush in winter. It's an easy keeper that tolerates winds, partial shade, and moist to wet soils on top of being a Native.

CLETHRA ALNIFOLIA `HUMMINGBIRD`

Plant in:

Sun Part Sun

Summersweet

Green with White flowers

Height: 3 - 4'

Width: 3 - 4'

Flower

Months: 7 - 8

Zone: 4

This dense, compact selection has lustrous, deep, dark green foliage and a profusion of long, extremely fragrant bottlebrush - like flower spikes that will really add spice to any early to mid - summer landscape. This species tolerates shade and moist soils and changes to a fabulous bright yellow in fall.

CLETHRA ALNIFOLIA `RUBY SPICE`

Plant in:

Sun Part Sun

Summersweet

Green with Pink Flowers

Height: 5 - 6'

Width: 5 - 6'

Flower

Months: 7 - 8

Zone: 4

Summersweet is a carefree shrub with glossy, deep - green leaves that turn vibrant yellow in fall. 'Ruby Spice' has bottlebrush - like clusters of tiny, fragrant, bell - shaped, reddish - pink flowers that appear in late summer, making this shade - loving native shrub a must have.

CLETHRA ALNIFOLIA `VANILLA SPICE`

Plant in:

Sun Part Sun

Summersweet

Green with White flowers

Height: 3 - 6'

Width: 3 - 6'

Flower

Months: 7 - 8

Zone: 4

A delightful deer resistant native plant that attracts butterflies and hummingbirds. The attractive, glossy dark green leaves set off the pure white summer flowers. Selected for its extra large flowers - individual florets can be 4 - 6" long - they will open in early July and draw you in with their sweet, spicy fragrance. Plant in a shady location for a shot of late season color.

CORNUS ALBA `IVORY HALO`

Plant in:

Sun Part Sun

Red - twig, Redosier, or Tatarian Dogwood

Variegated foliage with Red Stems in Winter

Height: 5 - 6'

Width: 6 - 8'

Flower

Months: 5 - 6

Zone: 3

A more compact form of shrubby dogwood, this selection has beautiful cream - edged variegated foliage and bright red erect unbranched stems that really enhance the winter landscape. Flowers give way to clusters of blue - white drupes in summer. Fruit is quite attractive to birds. Prune in spring for best stem color.

CORNUS KOUSA `MILKY WAY`

Plant in:

Sun Part Sun

Chinese, Kousa Dogwood

Green with White flowers

Height: 20 - 25'

Width: 20 - 25'

Flower

Months: 5 - 6

Zone: 5

When 'Milky Way's' flowers begin to open in late spring, this selection looks like a dogwood on steroids with a dizzying array of flowers that lighten up any spot in your garden. Laden with a massive show of bright red fruit in late summer which the birds find irresistible. Purple fall foliage only adds to the show.

CORNUS KOUSA `SATOMI`

Plant in:

Sun Part Sun

Chinese, Kousa Dogwood

Green with Pink Flowers

Height: 20 - 25'

Width: 20 - 25'

Flower

Months:6

Zone: 4

Dense and full with showy, red emerging foliage that fades to a lustrous green, 'Satomi's' true gift is its profuse, long bloom time stretching from early June to early July and it's light pink flowers. Very disease and pest resistant, this variety produces red fruit for the birds and purple fall foliage for you!

CORNUS SERICEA `BAILEYI`

Plant in:

Sun Part Sun

Red - twig, Redosier, or Tatarian Dogwood

Green with Red Stems in Winter

Height: 6 - 8'

Width: 9 - 10'

Flower

Months: 5 - 6

Zone: 2

A beacon in the winter landscape with its bright red stems, this selection is easy to grow and tolerant of poor soils, wet areas and the coldest climates. Great for massing, this selection has good red - purple fall color, and should be trimmed yearly for the best winter color.

CORNUS STOLONIFERA `ARCTIC FIRE`

Plant in:

Sun Part Sun

Red - twig, Redosier, or Tatarian Dogwood

Green with Red Stems in Winter

Height: 3 - 4'

Width: 3 - 4'

Flower

Months: 5 - 6

Zone: 3

More compact and dense than 'Baileyi', this Dogwood will find a home in the smaller landscape. This selection gives up about half of 'Baileyi's' size but none of the fantastic, bright fiery red winter stem color. This plant is perfect for smaller spaces.

COTINUS COGG. `ROYAL PURPLE`

Plant in:

Sun Part Sun

Smokebush

Burgundy with Mauve Flowers

Height: 10 - 15'

Width: 10 - 15'

Flower

Months: 6 - 8

Zone: 5

Prized for its showy 6 to 8" plumes that change from grayish to pink from June into August, these flowers take on a fuzzy "smokey" affect. This selection also has a super maroon to purplish red foliage that really makes it stand out, especially in full sun where the color is richer. The foliage will turn scarlet in the fall.

Creeping Cotoneaster

Green with White flowers and red berries

Height: 10 - 12"

Width: 4 - 6'

Flower
Months:6

Zone: 5

Creeping cotoneaster is among the finest of woody groundcovers, with its small, uniform, dark green leaves and contrasting, autumnal red berries. This deciduous, sprawling and spreading low shrub will be evergreen in protected areas. The rigid, irregular branches look great trailing over a rock wall.

CYTISUS `MADAME BUTTERFLY`

Plant in:

Sun

Scotchbroom

Green with Yellow Flowers

Height: 5 - 8'

Width: 5 - 8'

Flower

Months: 5

Zone: 5

A bounty of beautiful, scented yellow flowers with red throats grace this billowing, mounding broom in mid - May, causing a color sensation in any landscape. The flowers really catch the eye and are backed by those unique, angled, green stems. This plant does best in sandy, well - drained soils.

CYTISUS SCOPARIUS `BURKWOODII`

Plant in:

Sun

Scotchbroom

Green with Red Flowers

Height: 5 - 8'

Width: 5 - 8'

Flower
Months:5

Zone: 5

A plant that stands out in the landscape due to its unique angled crayon green stems and its tremendous display of garnet - red flowers in mid - May. The blooms of 'Burkwoodii' begin bright red and then darken to maroon and purple - burgundy. Prune after flowering for best flowering results next year.

CYTISUS SCOPARIUS `LENA`

Plant in:

Sun

Scotchbroom

Green with Yellow Flowers

Height: 3 - 4'

Width: 5 - 6'

Flower

Months: 5

Zone: 5

The maroon buds of 'Lena' open to dazzling lemony - yellow to orange flowers in late May to June over wispy, grass - like foliage. This variety is slightly more compact than its counterparts, but still has the same unique angled stems and a need for well drained soil.

CYTISUS SCOPARIUS `MOONLIGHT`

Plant in:

Sun

Scotchbroom

Green with White flowers

Height: 5 - 8'

Width: 4 - 5'

Flower

Months: 5

Zone: 5

Shimmering moonlight yellow flowers engulf this plant in mid - May making it the showiest plant in the landscape at that point. An upright grower that will work both as an individual accent or in a border grouping,, this plant demands well drained soil and will tolerate very poor soil.

Daphne

Variegated foliage with Pink Flowers

Height: 2 - 3'

Width: 3 - 4'

Flower
Months: 5

Zone: 4

A true garden gem with year round beauty that's outstanding. Dense growing and mound forming this variety sports beautiful cream edged evergreen foliage and starts blooming prolifically in early May with long lasting extremely fragrant pink flowers. Extremely hardy and tolerant of poor, sandy soil. Not tolerant of being moved once it's established, so make find them a spot to be an anchor in your garden.

DEUTZIA GRAC. 'CHARDONNAY PEARLS'

Plant in:

Sun Part Sun

Deutzia

Golden with White Flowers

Height: 3 - 4'

Width: 3 - 5'

Flower

Months: 5 - 6

Zone: 5

A wonderful small scale shrub, the numerous pearl-like buds of this variety burst into clouds of star-shaped white flowers from mid - May to mid - June. After the flowers have faded, 'Chardonnay Pearls' continues to shine with its bright yellow foliage that maintains its color even in full sun.

DEUTZIA GRACILIS `NIKKO`

Plant in:

Sun Part Sun

Deutzia

Green with White flowers

Height: 1 - 2'

Width: 3 - 4'

Flower

Months: 5

Zone: 5

This Deutzia is more compact than the species with even more show stopping blooms! Low and spreading, this shrub has an explosion of blooms starting early to mid - May and lasting up to 2 weeks that almost completely obscure the small, green foliage. Plant in full sun, well drained soil and give it a good pruning after blooming.

EUONYMUS ALATUS 'COMPACTUS'

Plant in:

Sun Part Sun

Dwarf Burning Bush

Green turning Scarlet in Fall

Height: 6 - 8'

Width: 8 - 10'

Flower

Months: 5 - 6

Zone: 4

This shrub is one of the great beauties of the autumn season. It is distinguished by vibrant scarlet foliage and small red - orange fruit in the fall as well as unusual corky "wings" which can flare out along its branches. A versatile, hardy shrub that makes an excellent shrub or hedge.

EUONYMUS FORTUNEI `BLONDY`

Plant in:

Sun Part Sun

Wintercreeper

Variegated foliage

Height: 1 - 2'

Width: 4 - 5'

Flower

Months:N/A

Zone: 5

'Blondy' will no doubt leave an impression on you as it shows off its outstanding variegated foliage with each leaf centered in bright yellow surrounded by a distinct, dark green leaf edge. This is by far the most colorful Euonymus on the market. 'Blondy' loves full sun and will fit into a tight spot.

EUONYMUS FORTUNEI `GOLD SPLASH`

Plant in:

Sun Part Sun

Wintercreeper

Variegated foliage

Height: 2 - 3'

Width: 3 - 4'

Flower

Months:N/A

Zone: 5

A real improvement in Euonymus! The big, round leaves of this selection have bright, bold variegation. It has far more impact in the landscape than other, older varieties. The variegation is very consistent, and the plant has excellent disease resistance.

UONYMUS FORTUNEI 'EMERALD SURPRISE'

Plant in:

Sun Part Sun

Wintercreeper

Variegated foliage

Height: 2 - 3'

Width: 4 - 5'

Flower

Months:N/A

Zone: 5

Upright branched shrub with unusual foliage mix of green, gold, and creamy white creates a fast growing mat - forming groundcover. Tolerant of most soil conditions except overly moist, they grow in sun or shade and can be sheared or left to grow naturally.

EUONYMUS FORTUNEI 'MOONSHADOW'

Plant in:

Sun Part Sun

Wintercreeper

Variegated foliage

Height: 2 - 3'

Width: 3 - 5'

Flower

Months:N/A

Zone: 5

A slow growing cultivar that spreads as it grows and forms a low mound as it matures. Distinctive for its wavy, medium size yellow leaves with narrow dark green margins. Stems turn red, and foliage becomes pink - toned in winter. Tolerant of most soil conditions and light.

FARGESIA 'JIUZHAIGOU'

Plant in:

Sun Part Sun

Clumping Bamboo

Green with Red Stems Maturing Yellow

Height: 12 - 14'

Width: 8 - 10'

Flower

Months:N/A

Zone: 4

Once you bring this non - invasive bamboo home you'll be rewarded by the spectacular show of color in the intense red of the young culm shoots which fade to a soothing mellow yellow. Due to the small leaves, the stems won't get weighed down making this a more upright bamboo. Plant it where it will get enough sun (morning is best) to get the best red color.

FARGESIA DENUDATA

Plant in:

Sun Part Sun

Clumping Bamboo

Green

Height: 10 - 15'

Width: 5 - 10'

Flower

Months:N/A

Zone: 4

Denudata has shorter branches and smaller leaves, which cause the gracefully arching canes to stand out individually. It is hardy to - 10°F, and does not have leaves that yellow and drop in the fall, making it a greener plant through the winter. Like other Fargesia, it is a clumping bamboo and is happy with some protection from hot afternoon sun.

FARGESIA MURIELAE

Plant in:

Sun Part Sun

Umbrella Bamboo

Green with blue and tan stems

Height: 6 - 8'

Width: 6 - 8'

Flower

Months:N/A

Zone: 4

The soft, cascading canopy of lustrous evergreen foliage is offset by the new shoots which are light blue with tan culm sheaths, aging to a yellowish - green. It looks best when planted in an area that gets afternoon shade or dappled sunlight throughout the day. It will retain its pastel green foliage throughout the winter, though it usually sheds a few leaves in late fall.

FARGESIA RUFA

Plant in:

Sun Part Sun

Mountain Clumping Bamboo

Green with Orange Culms

Height: 6 - 8'

Width: 6 - 8'

Flower

Months:N/A

Zone: 4

This bamboo has new culms that have attractive rusty reddish sheaths and a non - invasive root system. It is only about 10 feet tall when mature, but a vigorous grower, sending up many new culms each season. The new culms of this Fargesia leaf out early in the summer, making it an excellent choice where its rapid growth is desired. The leaves do not curl in the sun, but it should be planted with protection from the hot afternoon sun.

FORSYTHIA `SHOW OFF`

Plant in:

Sun

Forsythia

Green with Golden Yellow Flowers

Height: 3 - 5'

Width: 5 - 6'

Flower

Months: 4 - 5

Zone: 3

This Forsythia truly is a 'Show Off' with its display of blooms that is an incredible blast of golden yellow color in April and early May on a plant that is denser, rounder and more controlled than other varieties. With deep green foliage that remains tidier during the summer, this forsythia won't grow you out of house and home.

FORSYTHIA SUSPENSIVA SIEBOLDII

Plant in:

Sun

Weeping Forsythia

Green with Golden Yellow Flowers

Height: 6 - 7'

Width: 8 - 10'

Flower

Months: 4 - 5

Zone: 3

Weeping Forsythia, is an early spring blooming shrub with bright yellow flowers on widely arching branches. Its yellow flowers appear before the leaves. It is an excellent plant to grow as a bank cover because of its upright, arching form. Weeping Forsythia has a clean, green summer foliage with a weeping growth habit. The best growing area is in full sun with any reasonable soil.

FORSYTHIA X 'COURTASOL'

Plant in:

Sun

Forsythia

Green with Golden Yellow Flowers

Height: 1 - 2'

Width: 5 - 6'

Flower

Months: 4 - 5

Zone: 4

A low growing spreader that's definitely different from your normal forsythia. Great for massing as a bank or groundcover, this selection is loaded with lemon - yellow flowers in April and has an abundance of pleasing, medium green foliage. This variety does well in an sunny wooded location.

HIBISCUS SYRIACUS `BLUE SATIN`

Plant in:

Sun

Rose of Sharon

Green with Blue Flowers

Height: 8 - 12"

Width: 6 - 10'

Flower

Months: 6 - 7

Zone: 5

You'll be proud to have this rose of sharon in your yard with its large, single, royal blue flowers with deep crimson - colored throats covering the plant mid to late summer. This variety is more vigorous and sturdy than blue hibiscus have been in the past. Hummingbirds will flock to it!

Rose of Sharon

Green with Lavender Flowers

Height: 8 - 12'

Width: 6 - 10'

Flower

Months: 6 - 7

Zone: 5

Wow! You're going to love this addition to your landscape. 'Lavender Chiffon' sports big, single lavender flowers with lacy, frilly centers from early August through September creating a unique, new look for hibiscus flowers. Strong growing and long bloom time add loads of color to your late season garden.

HIBISCUS SYRIACUS 'VIOLET SATIN'

Plant in:

Sun

Rose of Sharon

Green with Violet Flowers

Height: 8 - 12'

Width: 6 - 10'

Flower

Months: 6 - 7

Zone: 5

Flower color is the name of the game here with a profusion of big beefy, intensely red - violet flowers with a deep red centers. Blooms in late summer. This is a strong growing, adaptable plant that will thrive in most gardens.

HIBISCUS SYRIACUS `WHITE CHIFFON`

Plant in:

Sun

Rose of Sharon

Green with White flowers

Height: 8 - 12'

Width: 6 - 10'

Flower

Months: 6 - 7

Zone: 5

Beefy single flowers are adorned with a lacy center to create clouds of anemone-like blooms. Wow! Blooms begin in August through September. Strong growing and long blooming, this plant will draw attention from everyone who sees it.

HYDRANGEA `PURPLE MAJESTY`

Plant in:

Sun Part Sun

Mophead Hydrangea

Green with Pink - Purple Flowers

Height: 4 - 5'

Width: 4 - 5'

Flower

Months: 7 - 8

Zone: 5

You'll fall in love with this hydrangea when you see the spectacular blooms on it. The flower buds form, enlarge, then deepen in color to purple with shades of red and blue forming long lasting globe shaped flowers starting in July. Deep green foliage forms the perfect backdrop to these flowers.

HYDRANGEA ARB. `INVINCIBELLE SPIRIT`

Plant in:

Sun Part Sun

Mophead Hydrangea

Green with Pink Flowers

Height: 4 - 5'

Width: 4 - 5'

Flower

Months: 7

Zone: 3

Invincibelle Spirit is hardy and adaptable shrub that produces loads of flowers. They start out as dark pink buds which open to hot pink flowers which then turn soft pink as they mature, finally changing to green at the end of their life cycle. Flowers from mid - June up until frost on new wood.

Smooth Hydrangea

Green with White flowers

Height: 3 - 5'

Width: 4 - 6'

Flower

Months: 6 - 9

Zone: 4

Mammoth snow white blooms of up to one foot in diameter last from June to September and actually get larger as the season progresses on this old fashioned, durable favorite. In fact, the blooms are so colossal that the stems may not always be up to the task of supporting them. They should be planted where they can support each other or caged.

HYDRANGEA ARBORESCENS `INCREDIBALL`

Plant in:

Sun Part Sun

Smooth Hydrangea

Green with White flowers

Height: 4 - 5'

Width: 4 - 5'

Flower

Months: 6 - 9

Zone: 4

This adaptable native plant produces huge flowers (as much as 12" across) and is both reliable and beautiful. Flowers open green, then mature to white before turning green at the end of their life cycle. Very cold hardy Incrediball blooms on sturdy new growth so no hoops or staking is required.

HYDRANGEA MAC. `E.S. TWIST - N - SHOUT`

Plant in:

Sun Part Sun

Lacecap Hydrangea

Green with Pink and Purple Flowers

Height: 4 - 5'

Width: 4 - 5'

Flower

Months: 6 - 9

Zone: 4

Like the Endless Summer hydrangea, 'Twist n Shout' is zone 4 hardy, blooms on new wood and blooms repeatedly throughout the season. This variety differs by offering a big, beautiful lacecap blossom and a bi-color mixture of deep pink and startling blue offset by maroon - red stems. The dark foliage then turns a deep maroon in the fall.

Mophead Hydrangea

Green with White flowers

Height: 3 - 4'

Width: 3 - 4'

Flower

Months: 6 - 9

Zone: 4

The name of this new *Hydrangea macrophylla* says it all. Pure white blooms with semi - double florets gradually mature to a sweet, pink blush. The foliage is an attractive dark green, providing a striking background for the emerging white flowers.

HYDRANGEA MAC. `ENDLESS SUMMER`

Plant in:

Sun Part Sun

Mophead Hydrangea

Green with Blue or Pink Flowers

Height: 5 - 6'

Width: 5 - 6'

Flower

Months: 6 - 9

Zone: 4

Another first—a Bigleaf Hydrangea plant with flowers that form on the current year's growth as well as on old wood. 'Endless Summer' will bloom from early July through late summer, especially if deadheaded regularly, and the flower heads - blue in acid soil - will be up to 6" across.

HYDRANGEA PANICULATA `GRANDIFLORA`

Plant in:

Sun Part Sun

Pee Gee or Panicked Hydrangea

Green with White flowers

Height: 10 - 15'

Width: 10 - 15'

Flower

Months: 7 - 9

Zone: 4

An old fashioned favorite that has a ton of late summer and fall appeal. Huge white pom - pom flowers appear in late July and persist into the fall, turning pink and beige as they age. Unlike mopheads, they need several hours of sun to do well. Plant is easy to grow and very hardy.

HYDRANGEA PANICULATA `LIMELIGHT`

Plant in:

Sun Part Sun

Panicked Hydrangea

Green with White to Lime Flowers

Height: 6 - 8'

Width: 6 - 8'

Flower

Months: 7 - 9

Zone: 4

Limelight' will take your breath away with its unique lime - green flowers that cover the plant in big, poofy snowballs starting in mid - August. Very vigorous and very floriferous, this is just the plant to inject some excitement into the late summer landscape.

HYDRANGEA PANICULATA `PINKY WINKY`

Plant in:

Sun Part Sun

Panicked Hydrangea

Green with White to Pink Flowers

Height: 6 - 8'

Width: 6 - 8'

Flower

Months: 7 - 9

Zone: 4

Pinky Winky has an unusual name, and an even more unusual flower. The large white panicles open in mid to late summer, and as summer turns to fall the florets at the base of the panicles turn pink. The flower panicles continue to grow, producing new white florets at the tip. The result is spectacular two-toned flower panicles that can reach up to 16 inches in length!

HYDRANGEA PANICULATA 'QUICK FIRE'

Plant in:

Sun Part Sun

Panicked Hydrangea

Green with Pink Flowers

Height: 6 - 8'

Width: 6 - 8'

Flower

Months: 7 - 9

Zone: 4

The first to bloom! 'Quick Fire' blooms about a month before other hardy hydrangea varieties. Flowers open white then turn pink, and will be an extremely dark rosy - pink in the fall. They are produced on 'new wood' and will bloom after even the harshest winters.

HYDRANGEA QUERCIFOLIA `SNOW QUEEN`

Plant in:

Sun Part Sun

Oak Leaf Hydrangea

Green with White flowers

Height: 4 - 6'

Width: 4 - 6'

Flower

Months: 7 - 9

Zone: 5

Snow Queen is an elegant and showy full - sized oakleaf hydrangea variety, Snow Queen was selected for its plethora of big full bloom trusses which begin their show in July. The dark green oak - like leaves turn a striking red - bronze color in the fall. Exfoliating bark and orange buds create winter interest.

ILEX CRENATA 'COMPACTA'

Plant in:

Sun Part Sun

Compact Japanese Holly

Green

Height: 5 - 6'

Width: 6 - 8'

Flower

Months:N/A

Zone: 6

Dense growing and globe - shaped, this selection has deep, dark, shiny foliage and a multitude of landscape uses. Great for foundation use or in hedging, this plant is easy to grow and prune.

ILEX CRENATA 'HELLERI'

Plant in:

Sun Part Sun

Dwarf Japanese Holly

Green

Height: 2 - 3'

Width: 4 - 5'

Flower

Months:N/A

Zone: 6

Beautiful low, dense form! Branching habit is tight and mounding and foliage is small, but deep green. Great for small spaces, low maintenance.

ILEX GLABRA 'COMPACTA'

Plant in:

Sun Part Sun

Inkberry

Green with Black Berries

Height: 3 - 4'

Width: 4 - 5'

Flower

Months:N/A

Zone: 5

Slower growing, wide, dense upright form of the native Inkberry. Black berries. Native to the eastern USA, this variety has proven to be one of the most reliable of the hollies. Inkberry prefers moist, acid soils and full sun, but it will tolerate partial shade very well. It is the only holly that spreads by underground stems and will form colonies, making it valuable for mass plantings and hillsides. Very tolerant of shearing.

ILEX GLABRA 'DENSA'

Plant in:

Sun Part Sun

Inkberry

Green with Black Berries

Height: 3 - 4'

Width: 4 - 5'

Flower

Months:N/A

Zone: 5

This tough, durable broadleaf evergreen is an outstanding plant due to its ability to provide year round cover for a host of native bird species while providing an excellent food source for these same birds with it black berries. What's more, it's an easy keeper that prefers moist, acid soils and full sun, but it will tolerate partial shade very well.

ILEX GLABRA 'SHAMROCK'

Plant in:

Sun Part Sun

Inkberry

Green with Black Berries

Height: 3 - 4'

Width: 4 - 5'

Flower

Months:N/A

Zone: 5

Shamrock Inkberry is a cultivar of our native *Ilex glabra*. It is a compact form with lustrous, deep green leaves with the new leaves emerging bright green above the older, darker green foliage. This plant is a good multi - purpose plant for hedges, mass planting, foundations, and use as a specimen.

ILEX SERRATA X VERTICILLATA `APOLLO`

Plant in:

Sun Part Sun

Winterberry

Green

Height: 10 - 12'

Width: 6 - 8'

Flower

Months:N/A

Zone: 5

A late - flowering male deciduous holly, and the ideal pollinator for late female cultivars. The tips of the new growth are an attractive burgundy color. Can grow 10 - 12'.

ILEX VERTICILLATA `WINTER RED`

Plant in:

Sun Part Sun

Winterberry

Green with Red Berries

Height: 8 - 10'

Width: 8 - 10'

Flower

Months:N/A

Zone: 3

Deep green foliage and a bumper crop of bright red berries in the fall and winter along with a dense, multi-stemmed form make this plant an excellent choice for landscape borders. Easy care and an excellent bird attractant.

ILEX X MESERVEAE `BERRYIFIC`

Plant in:

Sun Part Sun

Holly

Green with Red Berries

Height: 10 - 12'

Width: 6 - 8'

Flower

Months:N/A

Zone: 5

This variety is actually a 'Blue Prince' and 'Blue Princess' holly planted closely together to provide tons of berries reliably every year. 'Berryific' produces a colorful, distinctive, pyramidal evergreen that is ideal for gardeners that are unable to accommodate separate male and female plants.

ILEX X MESERVEAE 'BLUE PRINCE'

Plant in:

Sun Part Sun

Holly

Green

Height: 8 - 10'

Width: 6 - 7'

Flower

Months:N/A

Zone: 5

Superb dark blue - green leathery foliage on purple stems! This variety, along with its ability to pollinate any female meserveae holly, has great form and texture in the landscape and is extremely hardy.

ILEX X MESERVEAE `BLUE PRINCESS`

Plant in:

Sun Part Sun

Holly

Green with Red Berries

Height: 8 - 10'

Width: 6 - 7'

Flower

Months:N/A

Zone: 5

Large, dark blue - green foliage and exceptional berry production make this evergreen holly particularly attractive. The broad growing holly can reach a height of 12ft and 9ft wide. Performs well in full sun or part shade. Requires a male of the species to cross pollinate and set fruit.

ILEX X MESERVEAE `CASTLE SPIRE`

Plant in:

Sun Part Sun

Holly

Green with Red Berries

Height: 10 - 12'

Width: 5 - 6'

Flower

Months:N/A

Zone: 5

A superb selection that is more compact and more dense than 'Blue Princess' with a better branching system. This plant's foliage is superb with big lustrous, bluish - green leaves that show off an ample amount of bright red fall berries. Use Ilex 'Castle Wall' to cross pollinate and set fruit.

ILEX X MESERVEAE `CASTLE WALL`

Plant in:

Sun Part Sun

Holly

Green

Height: 6 - 8'

Width: 4 - 5'

Flower

Months:N/A

Zone: 5

This hard - working selection performs double duty by providing the pollen that will ensure that 'Castle Spire' has an abundant supply of berries and by providing a columnar landscape shape. This plant has shiny, deep blue - green foliage on an upright form that makes it ideal for tight spaces.

ITEA VIRGINICA 'LITTLE HENRY'

Plant in:

Sun Part Sun Shade

Sweetspire

Green with White flowers

Height: 3'

Width: 3 - 4'

Flower

Months:6

Zone: 5

Little Henry' may sound small, but the landscape show it puts on is anything but small! Low and mound forming, this selection starts the show with an explosion of pure white lightly scented flower spires that shoot out like fireworks in late June that sets it apart from the crowd. In fall the foliage turns a shade of red that may outshine the burning bush.

JUNIPERUS CHIN. 'SARGENTII'

Plant in:

Sun Part Sun

Juniper

Green

Height: 1 - 1.5'

Width: 8 - 10'

Flower

Months:N/A

Zone: 4

A ground - covering wonder with a strong horizontal branching habit and an aggressive nature, this juniper sports small, medium green, needle - like foliage and a clean, refined look. This is one of the best low growing junipers for grouping on banks en mass..

JUNIPERUS CHIN. 'SEA GREEN'

Plant in:

Sun Part Sun

Juniper

Green

Height: 4 - 6'

Width: 6 - 8'

Flower

Months:N/A

Zone: 4

A dense, vigorously spreading juniper with attractive, nearly kelly green foliage and a very interesting vase-like to arching form. As with all junipers, it is very tolerant of dry, sandy soils and is quite salt tolerant making it a great plant for road

JUNIPERUS CONFERTA 'BLUE PACIFIC'

Plant in:

Sun Part Sun

Juniper

Green

Height: 6 - 12"

Width: 8 - 10'

Flower

Months:N/A

Zone: 5

This evergreen groundcover may be short in stature, but its wide trailing habit, aromatic blue - toned needles, and cold, heat, salt, and drought tolerance will win you over. This is one of the more useful and attractive of the junipers with soft low growing foliage and a quick spreader - perfect for hard to landscape places.

JUNIPERUS HORIZ. 'BLUE CHIP'

Plant in:

Sun Part Sun

Juniper

Green

Height: 6 - 12"

Width: 8 - 10'

Flower

Months:N/A

Zone: 5

A vigorous, prostrate growing juniper, 'Blue Chip' is best known for its eye - catching steel blue color and its ability to cover real estate quickly. A perfect plant for groupings and very adaptable to rough, sandy soils and salt conditions.

JUNIPERUS HORIZ. 'WILTONII'

Plant in:

Sun Part Sun

Blue Juniper

Green

Height: 4"

Width: 8 - 10'

Flower

Months:N/A

Zone: 3

Very flat growing form with trailing branches. Foliage is a very intense silver - blue and will be light purplish in the winter. Fairly rapid, but compact in growth. This plant is a very popular groundcover juniper.

JUNIPERUS PROCUMBENS 'NANA'

Plant in:

Sun Part Sun

Dwarf Japanese Juniper

Green

Height: 6 - 12"

Width: 6 - 8'

Flower

Months:N/A

Zone: 4

This groundcover juniper is less aggressive than some of the others, but it still has the same great tolerances for heat, cold, salt, and windy conditions. Slow growing, low and spreading with irregular, undulating branches. Moss - like green foliage all year round and a mounding center will add a formal touch to your garden.

JUNIPERUS SQUAMATA 'BLUE STAR'

Plant in:

Sun Part Sun

Juniper

Blue - Green

Height: 2'

Width: 3 - 4'

Flower

Months:N/A

Zone: 4

Very slow growing, with a low rounded habit. This spectacular plant remains dense throughout its life and has an extremely eye - catching rich blue color.

KALMIA LATIFOLIA 'CAROUSEL'

Plant in:

Sun Part Sun

Mountain Laurel

Green with Burgundy Flowers

Height: 8 - 10'

Width: 8 - 10'

Flower

Months: 5 - 6

Zone: 5

Fast - growing, dense and upright, 'Carousel' features burgundy stems holding dark glossy foliage that impresses all year round. Soft pink flower buds open in late May to immaculate clusters of cup - shaped flowers boasting intricate patterns of cinnamon - purple bands on a white background. Dappled sun or shade tolerant.

KALMIA LATIFOLIA `LITTLE LINDA`

Plant in:

Sun Part Sun

Mountain Laurel

Green with Pink Flowers

Height: 5 - 6'

Width: 5 - 6'

Flower

Months: 5 - 6

Zone: 5

Very compact and slow growing, this mountain laurel is half the size of others. It's flowers start as dark red buds that open into nearly white flowers in late May and age to an impressive perfect pink. Its smaller size and ability to perform in sun or shade make this perfect for smaller spaces.

KALMIA LATIFOLIA `NATHAN HALE`

Plant in:

Sun Part Sun

Mountain Laurel

Green with Pink Flowers

Height: 7 - 8'

Width: 7 - 8'

Flower

Months: 5 - 6

Zone: 5

Dense, full, and rounded, 'Nathan Hale' has beautiful form topped only by its striking red buds that open to sizable trusses of sweet pastel pink flowers. Add in foliage that is so glossy and deep green it appears plastic and you have a winner.

KALMIA LATIFOLIA 'OLYMPIC WEDDING'

Plant in:

Sun Part Sun

Mountain Laurel

Green with White - Pink Flowers

Height: 7 - 8'

Width: 7 - 8'

Flower

Months: 5 - 6

Zone: 5

This dependable performer has all the attributes that make people fall in love with Mt. Laurel. Start with deep green, glossy foliage that looks great year round on a vigorous yet dense growing plant. Add in flowers with loads of deep pink buds that open in late May through mid - June to reveal light pink with cinnamon banding and this will become a favorite in your yard.

KALMIA LATIFOLIA `PINK GLOBE`

Plant in:

Sun Part Sun

Mountain Laurel

Green with Pink Flowers

Height: 8 - 10'

Width: 8 - 10'

Flower

Months: 5 - 6

Zone: 5

The distinctive olive - green foliage is thick and lustrous on well proportioned globe - like branching, giving way in spring to red buds that open into large clusters of rich pink flowers in late May. This is indeed a big, beautiful, round pink globe, covered in masses of flowers.

KALMIA LATIFOLIA `SARAH`

Plant in:

Sun Part Sun

Mountain Laurel

Green with Pink - Red Flowers

Height: 8 - 10'

Width: 6 - 8'

Flower

Months: 5 - 6

Zone: 5

Showy, deep red flower buds open to deep, pinkish - red flowers that are some of the showiest you'll see on any of our varieties! Lustrous, deep green foliage and a dense, rounded landscape habit make this selection a superb landscape plant.

KALMIA LATIFOLIA `SNOWDRIFT`

Plant in:

Sun Part Sun

Mountain Laurel

Green with White flowers

Height: 5 - 6'

Width: 5 - 6'

Flower

Months: 5 - 6

Zone: 5

A Kalmia with a neat, tidy, densely rounded form, 'Snowdrift' is known for big bunches of white buds that open to the purest white flower trusses of any Mt. Laurel selection. Dense and compact this plant's big shiny leaves make it perfect as a foundation plant.

KALMIA LATIFOLIA 'TINKERBELL'

Plant in:

Sun Part Sun

Mountain Laurel

Green with Pink Flowers

Height: 4 - 5'

Width: 4 - 5'

Flower

Months:6

Zone: 5

A delightful miniature form with small deep evergreen leaves, 'Tinkerbell' forms a compact, rounded shape and produces clusters of deep pink buds that open to light pink flowers in early June.

KALMIA LATIFOLIA `YANKEE DOODLE`

Plant in:

Sun Part Sun

Mountain Laurel

Green with Pink Flowers

Height: 8 - 10'

Width: 8 - 10'

Flower
Months:6

Zone: 5

This classic selection shows off vivid pinkish - red buds that open to display a near white corolla highlighted with a narrow burgundy - maroon band. The dark green foliage is densely arranged on the semi - compact plants. Purplish - red new stems and orange - red dormant flower buds provide added seasonal interest.

KERRIA JAPONICA 'GOLDEN GUINEA'

Plant in:

Sun Part Sun

Japanese Kerria

Green with Yellow Flowers

Height: 4 - 5'

Width: 6 - 9'

Flower

Months: 5

Zone: 4

Kerria is an indispensable deciduous flowering shrub, especially for the shady areas of your yard where it will bloom nicely. The large golden single flowers (the size of a gold coin), appear in mid - spring and repeat sporadically during the summer. In winter the attractive bright green stems add color to an otherwise monochromatic view. Really effective planted around white barked Aspen.

LIGUSTRUM OVALIFOLIUM

Plant in:

Sun Part Sun

Privet

Green with White flowers

Height: 10 - 15'

Width: 7 - 9'

Flower

Months: 6 - 7

Zone: 5

California privet is a large shrub with dense, semi erect stems that can reach up to 15' high. It is one of the tried and true hedging plants with its ability to be trimmed and shaped into any formal or informal form. It even performs well in moist partially shaded sites. Large 2 - 4" clusters of white, strongly fragrant flowers are produced in June and July followed by shiny black fruit that attract local songbirds.

MAGNOLIA STELLATA 'CENTENNIAL'

Plant in:

Sun Part Sun

Magnolia

Green with White flowers

Height: 10 - 12'

Width: 12 - 15'

Flower

Months: 4

Zone: 4

Centennial Star Magnolia is a great large shrub or small tree, a very prolific bloomer, and fragrant. Each flower has 25 to 35 petals, and a mature tree can have many thousands of flowers at the same time. The fragrant flowers emerge before leaf break in mid to late April as white with a pink tinge from the fuzzy buds.

MALUS `CORTLAND`

Plant in:

Sun

Apple Tree

Green with White flowers

Height: 12 - 15'

Width: 12 - 15'

Flower

Months:5

Zone: 4

Cortland' is a bright red, medium - sized apple tree which produces a crisp, slightly tart apple of high quality that ripens late season or late September in Zone 5. Blooms mid April.. Cortland apples are wonderful for kabobs, fruit plates and garnishes because they don't turn brown quickly when cut. This variety requires a different selection of the same species growing nearby in order to set fruit.

MALUS X `HONEYCRISP`

Plant in:

Sun

Apple Tree

Green with White flowers

Height: 12 - 15'

Width: 12 - 15'

Flower

Months:5

Zone: 4

Great for taste and even better for storage, this sweet - flavored late season selection retains its crispness even after seven months of storage! 'Honeycrisp' is not only becoming an orchard favorite, it's becoming a "must have" tree for the home gardener. This variety requires a different selection of the same species growing nearby in order to set fruit.

MALUS X `MACOUN`

Plant in:

Sun

Apple Tree

Green with White flowers

Height: 12 - 15'

Width: 12 - 15'

Flower

Months:6

Zone: 4

A favorite New England variety, this mid - season apple needs no introduction. Exceptionally high quality fruit are hard red and firm. Considered by many the best overall apple for fresh eating, the fruit ripens August to October. This variety requires a different selection of the same species growing nearby in order to set fruit.

Russian Cypress

Green

Height: 12"

Width: 8 - 10'

Flower

Months:N/A

Zone: 2

This Cary Award winning shrub earns all its accolades by being one of the best groundcover conifers available! Very hardy with a soft, feathery touchable foliage, this selection does great in sun or shade and has a striking bronze fall color.

MISCANTHUS SINENSIS 'ADAGIO'

Plant in:

Sun Part Sun

Dwarf Maiden Grass

Variegated foliage

Height: 4 - 5'

Width: 2 - 3'

Flower

Months: 8

Zone: 6

An ornamental grass with attitude, the Adagio is one of the showiest dwarf Miscanthus available. This superior form of dwarf maiden grass is finely textured, with narrow silver - gray foliage and flowers that emerge pink and turn white in August. They can be left uncut for winter interest.

MISCANTHUS SINENSIS 'GRACILLIMUS'

Plant in:

Sun Part Sun

Maiden or Zebra Grass

Variegated foliage

Height: 5 - 7'

Width: 2 - 3'

Flower

Months: 10

Zone: 5

'Gracillimus' forms a dense clump of gracefully arching narrow leaves. Does well in masses or as a specimen. Coppery flowers appear in October. Also looks great near a pond! Maiden Grass requires a location in the landscape that receives full sun, but can tolerate partial shade.

Maiden or Zebra Grass

Variegated foliage

Height: 4 - 5'

Width: 2 - 3'

Flower

Months: 10

Zone: 5

Morning Light' has leaves that have a narrow band of clear white on the leaf margins, causing them to appear silver from a distance. They are clump forming plants with reed - like stems and leaves that are narrow and arch to the ground. The foliage grows 4 to 5 feet tall, with flowers 5 to 6 feet tall. The flowers emerge a reddish - bronze color and dry to a fluffy cream

MISCANTHUS SINENSIS 'STRICTUS'

Plant in:

Sun Part Sun

Porcupine Grass

Variegated foliage

Height: 6 - 7'

Width: 2 - 3'

Flower

Months: 9

Zone: 5

'Strictus' has the horizontal yellow bands of 'Zebrinus' in a spikier, narrower package. A great specimen for the smaller garden. It blooms in September. 'Strictus' can be planted near the edge of water features since it can tolerate boggy conditions.

MISCANTHUS SINENSIS 'VARIEGATUS'

Plant in:

Sun Part Sun

Variegated Japanese Silver Grass

Variegated foliage

Height: 4 - 6'

Width: 4 - 6'

Flower

Months: 7 - 9

Zone: 5

'Variegatus' has an arching growth habit and can reach 4 - 6' in height with an equal spread. The leaves are 1/4" wide and pale green with creamy white stripes. Too much sun can burn the foliage. 'Variegatus' will bloom late summer with 1 - 2' plume like flowers.

MYRICA PENNSYLVANICA

Plant in:

Sun Part Sun Shade

Bayberry, Wax Myrtle, Candleberry

Green with Blue Waxy Berries

Height: 5 - 6'

Width: 8 - 10'

Flower

Months: 5

Zone: 3

There are not many plants, native or otherwise, that have as many uses and 'talents' as Bayberry. Its scent and essential oils are used in soaps, candles and other household products while it also serves as a prime wildlife support plant.. It forms a wide, spreading plant that is very aromatic when crushed or brushed against.. Very tolerant of sun or partial shade, moist or dry soils, great conditions or seaside all while providing waxy grey berries and cover for the birds.

PAEONIA `DUCHESS DE NEMOURS`

Plant in:

Sun

Peony

Green with White flowers

Height: 24 - 30"

Width: 24 - 30"

Flower

Months:6

Zone: 3

This plant has stood the test of time for over 150 years and is still one of the better selections out there. It's hard to beat it when it comes into bloom in mid June above deep green foliage with fat, double, full, fantastic, fragrant pure white flowers with a touch of cream in the middle. Wow indeed!

Peony

Green with Pink and White flowers

Height: 25 - 30"

Width: 25 - 30"

Flower

Months:6

Zone: 3

Huge blooms up to 8" across are somewhere between a single and a double flower and are deep rose with a mixture of white and yellow in the center. Amazing! These huge fragrant flowers sit atop deep green foliage and open in early June. They are great for cutting flowers.

PAEONIA LACTIFLORA `JACORMA`

Plant in:

Sun

Peony

Green with Pink Flowers

Height: 36"

Width: 36"

Flower
Months:6

Zone: 3

Get ready for an unforgettable show with this late bloomer! Big, beefy, fragrant, fully double luminous pink flowers that darken to magenta at the flower center open in late May and continue into early June, filling the garden with color and a seductive scent. It makes an excellent cutting flower. Plant it where it won't need to be moved as it is intolerant of moving once established.

PENNISETUM ALOPECUROIDES 'HAMELN'

Plant in:

Sun Part Sun

Dwarf Fountain Grass

Green with Pink Plumes

Height: 2'

Width: 18 - 24"

Flower

Months: 7 - 9

Zone: 5

A slender arching grass with graceful puffy plumes of reddish flower from August to October. 'Hameln' has all the beauty of the larger form condensed to a compact size. Wonderful for the smaller garden. Considered deer resistant and drought tolerant once established.

PHILADELPHUS 'SNOW WHITE SENSATION

Plant in:

Sun Part Sun

Mock Orange

Green with White flowers

Height: 5 - 6'

Width: 4 - 5'

Flower

Months: 6 - 7

Zone: 5

Philadelphus is a deciduous shrub with a graceful, fountain-like habit and snow white blooms of the sweetest citrus fragrance. A repeat flowering new hybrid, 'Snow White Sensation' boasts 2" double flowers born in clusters that bloom abundantly in spring and then again in summer. They like full sun, though they'll tolerate light shade, and well-drained soil. Mock orange are undemanding, free flowering, and possessed of a sweet fragrance that perfumes entire sections of your gardens in ear

PHYSOCARPUS OP. `SUMMER WINE`

Plant in:

Sun Part Sun

Ninebark

Purple with White to Pink Flowers

Height: 4 - 6'

Width: 4 - 6'

Flower

Months: 5 - 6

Zone: 3

A striking plant with deep reddish - purple foliage that keeps a dense rounded form that is the perfect size for most landscapes. Its graceful, arching habit makes it very appealing in the landscape. The pure white button - like flowers that form in late May and early June are a perfect contrast to the deep colored foliage. Bark on older plants peels into papery - like strips. This plant loves full sun and tolerates poor soils and extreme cold.

Ninebark

Purple with White to Pink Flowers

Height: 5 - 8'

Width: 6 - 9'

Flower

Months: 5 - 6

Zone: 3

A super hardy winner from Europe that deserves a home in any landscape. This rounded, deciduous shrub with deep, reddish purple foliage holds its color all season long, while white to pink flowers make a nice show in May and June. Superb exfoliating bark adds winter interest.

HYSOCARPUS OPULIFOLIUS 'CENTER GLOW'

Plant in:

Sun Part Sun

Ninebark

Copper with White Flowers

Height: 7 - 8'

Width: 8 - 9'

Flower

Months: 5 - 6

Zone: 3

This ninebark's new leaves unfurl a golden yellow and then mature to a rosy red - burgundy. Clusters of white blooms accompany the dramatic foliage in early summer, followed by bright red seedheads that fade to tan. 'Center Glow' is a fast grower and an ideal candidate for mixed borders or foundation plantings. It grows to 8 to 10 feet tall and almost as wide. In winter, the older stems have attractive peeling bark.

PICEA ABIES `NIDIFORMIS`

Plant in:
Sun Part Sun

Birdnest Spruce

Green

Height: 2 - 3'

Width: 4 - 5'

Flower
Months:N/A

Zone: 3

Flat - topped, wider than high, and with a hollow center, this spruce looks like its descriptive common name - - bird's nest spruce. This spruce is a good choice for adding "bones" to the garden. This handsome conifer has a charming shape and adds substance to mixed garden borders. In the summer, it quietly takes a back seat to the flamboyant perennials, but in winter, the bright green shrub has the duty to keep the garden looking alive. Tolerates sandier soils and low temperatures.

PICEA GLAUCA `CONICA`

Plant in:

Sun Part Sun

Dwarf Alberta Spruce

Green

Height: 6 - 8'

Width: 3 - '

Flower

Months:N/A

Zone: 3

A compact, pyramidal spruce that is very slow - growing. It is widely used in the landscape because of its low maintenance, slow growth habit and rugged dependability.

PIERIS JAPONICA 'BROUWER'S BEAUTY'

Plant in:

Part Sun

Andromeda

Green with White flowers

Height: 6 - 7'

Width: 6 - 7'

Flower

Months: 4

Zone: 4

Dense, compact habit. New growth foliage is yellowish green turning dark green and shiny. Purplish red winter forming buds open to white slightly fragrant flowers in April. With its attractive foliage, showy blooms, hardiness, and resistance to deer, 'Brouwer's Beauty' is an excellent addition to partially shaded areas of the garden..

PIERIS JAPONICA 'COMPACTA'

Plant in:

Part Sun

Andromeda

Green with White flowers

Height: 5 - 6'

Width: 5 - 6'

Flower

Months: 3 - 4

Zone: 5

The shiny, deep green foliage of 'Compacta' is topped by trusses of lightly fragrant, white, bell-like flowers in late March to mid April. These compact, well-branched plants also offer flushes of red-bronze new growth after the flowers fade. Deer resistant

PIERIS JAPONICA `DOROTHY WYCOFF`

Plant in:

Part Sun

Andromeda

Green with White to Pink Flowers

Height: 5 - 7'

Width: 5 - 7'

Flower

Months: 4

Zone: 5

Vigorous, upright growing, somewhat more compact than the species. Glossy dark green foliage turns mahogany - red in winter. Very dark red winter flower buds open to fragrant white flowers with a touch of pink in April. Reddish bronze new growth turns green at maturity. Arching clusters of brown seedpods in fall and winter.

PIERIS JAPONICA 'FLAMING SILVER'

Plant in:

Part Sun

Andromeda

Green with White flowers

Height: 6 - 8'

Width: 6 - 8'

Flower

Months: 4

Zone: 5

Pieris 'Flaming Silver' is a splendid Japanese Andromeda, offering a stunning spring show followed by lovely variegation through summer and fall and even winter. Waxy, early - spring white flowers rise above foliage that is bright red for several weeks before mellowing to pink and sporting a broad, distinctive edging of silvery white. Eventually getting a darker green variegation, this plant is deer resistant also.

PIERIS JAPONICA `MOUNTAIN FIRE`

Plant in:

Part Sun

Andromeda

Green and Red with White flowers

Height: 6 - 8'

Width: 5 - 6'

Flower

Months: 3 - 4

Zone: 5

Brilliant red new growth in mid - May makes for a stunning landscape feature. Slightly more upright than spreading, this deer - resistant plant is a dependable late March to mid - April bloomer with typical white Pieris flowers.

PIERIS JAPONICA 'VALLEY VALENTINE'

Plant in:

Part Sun

Andromeda

Green with Pink Flowers

Height: 5 - 7'

Width: 5 - 7'

Flower

Months: 4 - 5

Zone: 5

This variety has all the attributes that make Pieris such a garden staple - with a twist - deep pink - red flowers! The vivid deep rose buds of 'Valley Valentine' appear on multiple flower heads that open to pendant rose - colored flowers during April and May. The bronze - tinted new growth will change to shiny green as the season progresses.

POTENTILLA FRUTICOSA 'ABBOTTSWOOD'

Plant in:

Sun

Cinquefoil

Green with White flowers

Height: 3 - 4'

Width: 3 - 4'

Flower

Months: 6 - 9

Zone: 3

A free - flowering summer wonder covered with white blooms that start in June and continue through frost. Fine - textured, small - leaved and spreading with deep blue - green foliage, this variety is easy to grow and tolerant of sandy soils and seashores.

Plant in:

Sun

POTENTILLA FRUTICOSA 'GOLDFINGER'

Cinquefoil

Green with Yellow Flowers

Height: 3 - 4'

Width: 4 - 5'

Flower

Months: 6 - 9

Zone: 3

The deep golden flowers are big, over 1" across and show beautifully against dark green, fine textured foliage during their summer - long blooms. Tolerates almost any soil. Deer resistant.

POTENTILLA FRUTICOSA 'PINK BEAUTY'

Plant in:

Sun

Cinquefoil

Green with Pink Flowers

Height: 2 - 3'

Width: 3 - 4'

Flower

Months: 6 - 9

Zone: 3

Pink Beauty' features an abundant amount of clear pink, semi - double flowers that bloom all summer and turn the lightest pink in hot weather. Bright green foliage on a rounded and bushy low maintenance plant completes this beauty.

PRUNUS CISTENA

Plant in:

Sun Part Sun

Sandcherry

Purple with Pink Flowers

Height: 7 - 9'

Width: 5 - 6'

Flower
Months: 4

Zone: 4

A very tolerant plant with intense purple - red foliage that shows stunningly throughout the summer. Small, single pink flowers line the branches before foliage flushes in late April and are very effective. Good plant for hedging, borders, or as an accent, it thrives in poor sandy soils.

PRUNUS GLANDULOSA `ROSEA`

Plant in:

Sun Part Sun

Flowering Almond

Green with Pink Flowers

Height: 5 - 6'

Width: 3 - 4'

Flower
Months: 4

Zone: 5

The Pink Flowering Almond is a small shrub that flowers in early spring when an almost solid mass of petite, ruffled double - pink blooms cover each and every branch before the leaves appear. It grows best in light shade to full sun. It prefers a well drained light garden soil. Very hardy over a wide range. Adaptable to most soil types and moisture levels. Blossoms are double pink and prolific.

PRUNUS MARITIMA

Plant in:

Sun Part Sun

Beach Plum

Green with White flowers

Height: 6 - 7'

Width: 6 - 7'

Flower

Months: 4 - 5

Zone: 3

Beach Plum is clothed in May in stunning fragrant white flowers along the branches in mid spring before the leaves. It has green foliage throughout the season. The pointy leaves turn an outstanding orange in the fall. The fruits are burgundy drupes displayed in mid summer, which are excellent for making jams and jellies. This is a self - pollinating variety, so it doesn't require a second plant nearby to set fruit.

Weeping Cherry

Green with Pink Flowers

Height: 20 - 25'

Width: 20 - 25'

Flower

Months: 4 - 5

Zone: 4

This graceful weeping form is prized in the landscape. Small pink flowers cover the slender, pendulous branches giving a flower fountain appearance in late April to early May. Very hardy; top grafted at 6'.

PRUNUS X `LAPINS`

Plant in:

Sun

Sweet Cherry Tree

Green with White flowers

Height: 15 - 20'

Width: 15 - 20'

Flower

Months: 4 - 5

Zone: 5

In late April or early May the branches are covered in white flowers. The fruit ripens in late July or early August. The fruit is firm and are some of the juiciest cherries that grow on trees. The Lapins Cherry fruit is large and dark red in color with lighter red flesh. They are great for snacking, and so big, one cherry is a mouthful! The Lapins is an excellent self-pollinator and is a heavy bearer.

PRUNUS X 'MONTMORENCY'

Sun

Cherry Tree

Green with White flowers

Height: 12 - 15'

Width: 12 - 15'

Flower

Months: 4 - 5

Zone: 3

The most widely grown 'sour' or 'pie' cherry, this vigorous cherry is a heavy spring bloomer with clouds of small white, fragrant flowers followed by tons of sizable cherries which mature in July and August. Great for pies and jams. This tree is a self-pollinator.

PRUNUS X `REDHAVEN`

Plant in:

Sun

Peach Tree

Green with White flowers

Height: 10 - 12'

Width: 10 - 12'

Flower

Months:4

Zone: 5

The Redhaven Peach is the peach by which all others are measured. Its a heavy - bearing, cold - hardy, and resists leaf spot, and the July fruit is spectacular. You'll enjoy bushels of big, luscious peaches that have an almost fuzzless skin over firm, creamy yellow flesh. Fruit is medium to large size and is just right for fresh snacks, canning or freezing. Disease resistant and self - fertile.

PRUNUS X `RELIANCE`

Plant in:

Sun

Peach Tree

Green with White flowers

Height: 10 - 12'

Width: 10 - 12'

Flower

Months:4

Zone: 4

One of the hardiest of all peaches, ripens mid to late August with greenish yellow coloring and a slight blush of red. Flesh is bright yellow, soft and juicy. Good for fresh eating, especially in colder climates. Freestone and self - fertile.

PRUNUS X `SANTA ROSA`

Plant in:

Sun

Plum Tree

Green with White flowers

Height: 12 - 15'

Width: 12 - 15'

Flower

Months: 4

Zone: 5

This variety of plum is a vigorous, fast growing plant that produces large crops of beefy, round fruit with thin, purple - red skin. This tart sweet fruit ripens in mid - August and is excellent for fresh eating and canning. Somewhat self - fruitful, but should be planted with other Japanese plums for pollination.

Plum Tree

Green with White flowers

Height: 12 - 15'

Width: 12 - 15'

Flower

Months: 4

Zone: 5

This vigorous, hardy plum is so productive that it will make your mouth water! 'Shiro' is a Japanese selection that ripens in mid - July bearing loads of medium sized, juicy, sweet dark yellow plums that are perfect eating right off the tree. It is one of the earliest ripening plums. 'Shiro' requires pollination from other Japanese plums and is a good pollinator for Santa Rosa.

PRUNUS X `SNOW FOUNTAIN`

Sun

Weeping Cherry

Green with White flowers

Height: 18 - 20'

Width: 12 - 15'

Flower

Months:4

Zone: 5

Magnificent specimen tree will make your neighbors green with envy. It has the appearance of a fountain of snow when covered with snow white blooms in late April. It is drought and heat tolerant, with clean, dark green, disease - tolerant foliage that turns golden to orange/red in the fall. Wit all this, 'Snow Fountain' could possibly be considered the 'ultimate in ornamental flowering trees.

PRUNUS X `STELLA`

Plant in:

Sun

Cherry Tree

Green with White flowers

Height: 12 - 15'

Width: 12 - 15'

Flower

Months: 4

Zone: 5

Large, heart - shaped, dark red fruit are produced on this self - pollinating sweet cherry. Sweet, rich flavor on a vigorous, productive tree make this an excellent choice. Moderate crack resistance. Can pollinate other sweet cherries.

PYRUS X `BARTLETT`

Plant in:

Sun

Bartlett Pear Tree

Green with White flowers

Height: 15 - 18'

Width: 10 - 12'

Flower

Months: 4 - 5

Zone: 5

This vigorous, productive tree bears fruit at a young age which ripens well on the trees. Your tree will flower in April - May, and will add a touch of beauty to your yard with its fragrant white flowers. Fruit is large, golden - yellow, with a wonderful quality. Buttery, juicy, highly flavored fruit. This tree is self - pollinating.

PYRUS X `BOSC`

Plant in:

Sun

Bosc Pear Tree

Green with White flowers

Height: 15 - 18'

Width: 10 - 12'

Flower

Months: 4

Zone: 5

This vigorous grower is also a vigorous producer which starts the show in mid - April with a profusion of aromatic white flowers. It has an exceptional crop of large, dark yellow fruit with brownish russeted skin and a long, gourd - shaped neck maturing in early October. 'Bosc's' tender flesh and smooth texture is perfect for fresh eating while also being perfect for canning and preserves. It requires another variety for pollination and proper fruit set.

PYRUS X 'D'ANJOU'

Plant in:

Sun

D'Anjou Pear Tree

Green with White flowers

Height: 15 - 18'

Width: 120 - 12'

Flower

Months: 4

Zone: 5

The D'Anjou Pear is a large pear. The flesh is white with abundant juice and a sweet brisk flavor. It is a naturally sweet pear, light green in color with a yellow tinge when ripe. D'Anjou pears have exceptional keeping qualities. The best flavor is realized when stored 1 - 2 months. The tree is very hardy, and highly productive. The D'Anjou does not change color as it ripens. Requires cross pollination with Bartlett or any other pear with the same bloom date..

RHODODENDRON 'CHIONOIDES'

Plant in:

Sun Part Sun Shade

Broadleaf Rhododendron

Green with White flowers

Height: 4 - 5'

Width: 5 - 6'

Flower
Months: 5

Zone: 5

This variety is a beauty with a dense, compact habit and narrow deep dark green foliage. Later blooming, toward the end of May, it's usually covered with big trusses of white flowers with yellow centers. Although most are adaptable to full sun or full shade, the large-leaf varieties perform best in partial shade with protection from harsh summer and winter sun as well as wind.

RHODODENDRON 'CUNNINGHAM'S WHITE'

Plant in:

Sun Part Sun Shade

Broadleaf Rhododendron

Green with White flowers

Height: 5 - 6'

Width: 6 - 7'

Flower
Months: 5

Zone: 5

Compact growing with great dark green foliage, this selection is easy to grow and a dependable, profuse bloomer with even an occasional fall bloom! Buds are pink, opening to white with a greenish yellow blotch in early May. It will become an anchor plant in your landscape.

RHODODENDRON 'HAAGA'

Plant in:

Sun Part Sun Shade

Rhododendron

Green with Pink Flowers

Height: 3 - 5'

Width: 2 - 4'

Flower

Months: 5

Zone: 4

'Haaga' produces dark pink flowers which contrast nicely with the dark green, coarse foliage. It will begin to bloom in May and has dense evergreen foliage. It is a highly valued landscape ornamental. The large groups of showy pink flowers appear on even young plants. The Haaga is a very effective accent plant.

RHODODENDRON 'NORTHERN STARBURST'

Plant in:

Sun Part Sun Shade

SmallLeaf Rhododendron

Green with Pink Flowers

Height: 4 - 5'

Width: 3 - 4'

Flower
Months: 5

Zone: 4

A beautiful evergreen shrub it is ball - shaped and compact, ideal garden size. 'Northern Starburst' is smothered in stunning clusters of lightly - scented pink trumpet - shaped flowers at the ends of the branches in mid spring. It has green foliage. The narrow leaves turn an outstanding purple in the fall.

RHODODENDRON 'OLGA MEZITT'

Plant in:

Sun Part Sun Shade

SmallLeaf Rhododendron

Green with Pink Flowers

Height: 5 - 6'

Width: 4 - 5'

Flower
Months: 5

Zone: 4

A vigorous plant, it grows wide and upright with shiny, bright green foliage that turns a beautiful reddish color in fall. Olga Mezitt Rhododendron is blanketed in stunning clusters of lightly - scented hot pink trumpet - shaped flowers at the ends of the branches in mid to late May, which emerge from distinctive rose flower buds. It has green foliage. The narrow leaves turn an outstanding red in the fall.

RHODODENDRON 'ROSEUM ELEGANS'

Plant in:

Sun Part Sun Shade

Broadleaf Rhododendron

Green with Pink Flowers

Height: 7 - 8'

Width: 7 - 8'

Flower
Months: 5

Zone: 4

Roseum Elegans Rhododendron is smothered in stunning clusters of lilac purple trumpet - shaped flowers with shell pink overtones at the ends of the branches in mid spring, which emerge from distinctive purple flower buds. It has green foliage. The large narrow leaves do not develop any appreciable fall color.

DODENDRON CATAWBIENSE 'GRANDIFLORUM'

Plant in:

Sun Part Sun Shade

SmallLeaf Rhododendron

Green with Lilac - Pink Flowers

Height: 7 - 8'

Width: 6 - 7'

Flower
Months: 5

Zone: 5

Grandiflorum Rhododendron is smothered in stunning clusters of lilac purple trumpet - shaped flowers with rose overtones and tan spots at the ends of the branches in mid spring, which emerge from distinctive purple flower buds. It has green foliage. The narrow leaves do not develop any appreciable fall color

RHODODENDRON MAXIMUM 'ROSEUM'

Plant in:

Sun Part Sun Shade

Broadleaf Rhododendron

Green with Pink Flowers

Height: 8 - 12'

Width: 8 - 12'

Flower

Months: 6 - 7

Zone: 4

Roseum' blooms in mid to late June, a full 4 to 5 weeks after most smaller rhodos. It unleashes huge lavender - pink flowers in heads of up to 25 blooms that last into early July backed by long, deep green foliage. It's a large plant, so give it room to show off and you won't be disappointed

RHODODENDRON X 'AGLO'

Plant in:

Sun Part Sun Shade

SmallLeaf Rhododendron

Green with Pink Flowers

Height: 5 - 6'

Width: 5 - 6'

Flower
Months: 5

Zone: 4

An aromatic plant that produces numerous bright pink flowers that cover the branches in early May. Aromatic, small, glossy, bright green foliage in summer, turns coppery bronze in winter. A hardy, fast - growing plant with a dense, mounding habit, it prefers full sun and well - drained, rich soil. Excellent winter leaf retention.

RHODODENDRON X 'ENGLISH ROSEUM'

Plant in:

Sun Part Sun Shade

Broadleaf Rhododendron

Green with Pink Flowers

Height: 7 - 8'

Width: 7 - 8'

Flower
Months: 5

Zone: 4

Upright and vigorous, this variety has great hardiness and bloom dependability high on its list of attributes. Blooms in late May, this plant is covered with widely funnel - shaped, lilac - rose flowers with an orange blotch set off perfectly against large medium green foliage.

RHODODENDRON X 'PJM'

Plant in:

Sun Part Sun Shade

SmallLeaf Rhododendron

Green with Pink Flowers

Height: 4 - 5'

Width: 3 - 4'

Flower
Months: 4

Zone: 4

Early flowering. Brilliant lavender - pink flowers cover the entire plant in late April when forsythia is in bloom. Small, rich green, aromatic foliage turns a vibrant dark mahogany winter color from October through April. Even though it seems to be a compact growing plant when young, it will attain a large stature with maturity if allowed to grow unsheared or in partial shade. More sunlight will produce a deeper fall foliage color.

ROSA `DOUBLE KNOCKOUT`

Plant in:
Sun Part Sun

Landscape Shrub Rose

Green with Pink - Red Flowers

Height: 2 - 3'

Width: 3 - 4'

Flower

Months: 6 - 9

Zone: 4

The fire - engine - red double blooms of 'Double Knock Out' keep coming until hard frost, and its new growth is a stunning burgundy red. Aptly named, this popular successor to 'Knock Out' is fuller and more floriferous, producing clusters of 2 1/2in, incandescent blooms with 18 - 25 petals. A hardy variety naturally resistant to black spot and other diseases and pests.

ROSA `DOUBLE PINK KNOCKOUT`

Plant in:

Sun Part Sun

Landscape Shrub Rose

Green with Hot Pink Flowers

Height: 3 - 4'

Width: 3 - 4'

Flower

Months: 6 - 9

Zone: 4

Just as gorgeous as 'Double Knockout' only with intense hot pink blooms. The double have twice the number of petals as regular 'Knock Out' roses, presenting a fuller, richer, traditional style rose flower that is simply breathtaking. Blooms maintain a continuous show of color from early June to hard frost, with beautiful foliage almost year round. Compact and upright fashion, more winter hardiness and shade tolerance.

ROSA `PINK KNOCKOUT`

Plant in:
Sun Part Sun

Landscape Shrub Rose

Green with Pink Flowers

Height: 3 - 4'

Width: 4 - 5'

Flower

Months: 6 - 9

Zone: 4

Single petals just like the original 'Knock Out' but in a beautiful shade of bright pink. And like the other members of the family, The Pink 'Knock Out' Rose is black spot resistant, drought tolerant and self-cleaning. A perfect companion to other shrubs, roses and perennials.

ROSA `SUNNY KNOCKOUT`

Plant in:
Sun Part Sun

Landscape Shrub Rose

Green with Yellow Flowers

Height:

Width:

Flower

Months:6 - 9

Zone: 4

Loads of buds top deep green foliage from May to October, continually opening to reveal bright yellow, single, 3" diameter flowers that mature to creamy yellow as they age. These are the only fragrant members in The 'Knock Out' Family. The plants clean themselves, dropping their spent petals, and are perfect for groupings or as a stand alone

SALIX INTEGRAL 'FLAMINGO'

Plant in:

Sun Part Sun

Flamingo Willow

Variegated with Pink Shoots

Height: 6 - 8'

Width: 6 - 8'

Flower
Months: 4

Zone: 4

Spectacular deep pink foliage in Spring, this cultivar retains a strong pink color throughout the growing season. Produces an enormous range of contrasting colors in the garden. Slender yellow catkins appear in spring before the leaves. It can be pruned several times during summer to produce new colorful shoots that make the plant more bushy and to keep the desired size. Like all willows, this plant loves water and will tolerate wet feet.

SAMBUCUS NIGRA `BLACK LACE`

Plant in:

Sun Part Sun

Elderberry

Dark Purple with Pink Flowers

Height: 5 - 6'

Width: 5 - 6'

Flower
Months: 6

Zone: 5

Intense purple black foliage is finely cut, giving it an effect similar to that of Japanese maple. Huge 10" diameter creamy pink, fragrant flowers in spring contrast nicely with the dark leaves. They are followed by blackish red fall berries which can be harvested for making wine and jam, or left on the plant to attract birds and other wildlife. 'Black Lace' is very cold hardy and easy to grow, and adaptable to most sites. Full sun is needed for the best color. Tough enough for roadsides or nat

SPIRAEA JAPONICA 'GOLD MOUND'

Plant in:

Sun Part Sun

Spirea

Golden with Pink Flowers

Height: 2 - 3'

Width: 4 - 5'

Flower

Months: 6 - 9

Zone: 4

Light chartreuse - green foliage throughout the spring and summer make this an outstanding accent plant. Produces best color in full sun. Very compact habit. Flowers are pink in June and July. Fall color is pinkish red.

SPIRAEA JAPONICA 'LITTLE PRINCESS'

Plant in:

Sun Part Sun

Spirea

Green with Pink Flowers

Height: 2 - 3'

Width: 4 - 5'

Flower

Months: 6 - 9

Zone: 4

Little Princess Spirea is perfect for a cottage garden. It attracts lots of butterflies to its pink flowers. Plant it along a foundation, put it in a border or in a rock garden. Use it as a low casual hedge or to line a sidewalk.

SPIRAEA X BUMALDA 'ANTHONY WATERER'

Plant in:

Sun Part Sun

Spirea

Green with Pink Flowers

Height: 3 - 4'

Width: 5 - 6'

Flower

Months: 6

Zone: 4

A great easy care plant that's an excellent early summer bloomer. Foliage flushes with a pink tinge before turning a pleasant blue - green, and flowers emerge rose - red in flat heads in late June. Dense - growing and attractive.

SPIRAEA X BUMALDA 'GOLDFLAME'

Plant in:

Sun Part Sun

Spirea

Green with Pink Flowers

Height: 2 - 3'

Width: 3 - 4'

Flower

Months: 6

Zone: 4

Tiny rose - pink flowers in flat - topped clusters cover the foliage in late spring to mid - summer with sparse and intermittent repeat bloom often occurring throughout the remainder of the growing season. Flowers are attractive to butterflies. 'Goldflame' is noted for the changing colors of its foliage. Leaves emerge bronze - red in spring, mature to yellow - green by summer and finally acquire interesting yellow - orange - copper hues in fall.

SPIRAEA X BUMALDA 'MAGIC CARPET'

Plant in:

Sun Part Sun

Spirea

Golden with Pink Flowers

Height: 2 - 3'

Width: 4 - 5'

Flower

Months:6

Zone: 4

A real improvement in gold foliage Spireas, this selection keeps its gold color throughout the summer and blooms heavily from mid - June through July with pink, flat flower heads. Neat compact form makes it easy to use anywhere.

SYRINGA BLOOMERANG LILAC

Plant in:

Sun Part Sun

Lilac

Green with Lilac Purple Flowers

Height: 4 - 5'

Width: 3 - 4'

Flower

Months: 5 - 9

Zone: 4

Enjoy classic lilac fragrance for months instead of weeks! A revolutionary new kind of lilac, Bloomerang blooms in spring and then again throughout the summer. It does go through a rest period in the heat of the summer, then flowers again as Bloomerang's fragrant flowers continue until frost. This compact, mounded variety fits easily into any landscape, and is ideal as a foundation planting or as part of the mixed border.

SYRINGA MEYERII 'PALIBIN'

Plant in:

Sun Part Sun

Lilac

Green with Lilac Purple Flowers

Height: 4 - 6'

Width: 5 - 7'

Flower

Months: 5

Zone: 3

'Palibin's profusion of delicately perfumed lavender - pink blooms burst forth from dark purple buds in early May. The compact and wide growing shrub is covered in clean foliage that is not susceptible to powdery mildew like so many older varieties.

SYRINGA PATULA 'MISS KIM'

Plant in:

Sun Part Sun

Lilac

Green with Lilac Purple Flowers

Height: 6 - 7'

Width: 5 - 6'

Flower

Months: 5

Zone: 3

Showy 3" long panicles of fragrant purple flowers grace this dense, full shrub in mid - May. Leaves are deep green and somewhat glossy and tend to keep clean throughout the growing season.

SYRINGA X HYA. `ROYAL PURPLE`

Plant in:

Sun Part Sun

Lilac

Green with Purple Flowers

Height: 12 - 15'

Width: 8 - 12'

Flower

Months:5

Zone: 3

This early May bloomer will take your landscape by storm with waves of fragrant, double, dark purple flower panicles that have to be seen and smelled to believe! Great foliage and superb multi - stem form add to the package. This one gets large, so give it space and stand back and watch the show!

SYRINGA X HYACINTH. `POCAHONTAS`

Plant in:

Sun Part Sun

Lilac

Green with Purple Flowers

Height: 12 - 15'

Width: 8 - 12'

Flower

Months: 5

Zone: 3

A profuse bloomer, 'Pocahontas' features deep violet - purple buds that open to fragrant, single, deep violet florets throughout the month of May.. Deep green foliage completes this upright and vigorous plant.

TAXUS X MEDIA 'DENSIFORMIS'

Plant in:

Sun Part Sun Shade

Spreading Yew

Green with Red Berries

Height: 3 - 5'

Width: 5 - 6'

Flower

Months:N/A

Zone: 4

A very densely growing shrub form of Yew - many times twice as wide as it is tall. Nice deep green needles, with new growth emerging as a brighter green and eventually maturing to deep green. Excellent choice for use as formal hedge, takes very well to pruning / trimming. Will do well in full sun, but will really perform well if given just a bit of shade as a break from high summer heat. Likes well drained soil that is somewhat moist and slightly on the acidic side.

THUJA OCCIDENTALIS 'NIGRA'

Plant in:

Sun Part Sun

Arborvitae

Green

Height: 20 - 30'

Width: 6 - 8'

Flower

Months:N/A

Zone: 3

Growing quickly and having a narrow, upright form, 'Nigra' is covered in densely held, deep green, fan-like foliage. Its small footprint makes it easier to work with. Perfect for growing in full sun or partial shade, it tolerates all but the wettest of soils. The perfect screening tree with numerous seed capsules and a dense habit that will attract birds.

THUJA OCCIDENTALIS `SMARAGD`

Plant in:

Sun Part Sun

Arborvitae

Green

Height: 18 - 20'

Width: 5 - 6'

Flower

Months:N/A

Zone: 3

Very ornamental and deservedly popular because of its narrow, uniform habit, 'Smaragd' also offers glossy, soft, emerald green color in summer and winter. Adaptable and easy to grow.

THUJA PLICATA 'GREEN GIANT'

Plant in:

Sun Part Sun

Western Arborvitae

Green

Height: 30 - 50'

Width: 12 - 16'

Flower

Months:N/A

Zone: 4

Fast - growing and upright with rich, medium - green foliage, this selection is an ideal choice for screening in a hurry! Rumored to be much less palatable to deer than occidentalis types, 'Green Giant' is drought tolerant and has no significant insect or disease problems. You get that classic French Renaissance look without having to prune or shear.

VACCINIUM CORYMBOSUM `BERKLEY`

Plant in:

Sun Part Sun

Highbush Blueberry

Green with White Flowers and Blue Berries

Height: 6'

Width: 6'

Flower
Months: 5

Zone: 5

Berkeley is one of the most popular home garden varieties. This handsome, easy to grow shrub attains a size of 5 - 6 feet high and wide when mature. An excellent producer in mild climates, Berkeley boasts a very attractive powder blue fruit with a pleasing mild flavor. Late Midseason. Bright yellow wood in the winter makes a nice contrast to other red wooded varieties. Avoid frost pockets or colder exposed areas. Blueberries love acid soil.

VACCINIUM CORYMBOSUM `BLUE RAY`

Plant in:

Sun Part Sun

Highbush Blueberry

Green with White Flowers and Blue Berries

Height: 4 - 6'

Width: 4 - 6'

Flower
Months: 5

Zone: 4

This highbush blueberry cultivar is an upright, deciduous shrub which typically grows 5 - 8' tall but is more manageable as a fruit crop when pruned to 6' or less. Dainty, waxy, bell - shaped, white flowers appear in May. Flowers are followed by medium sized powder blue blueberries which ripen in mid - season. Ovate, dark green leaves turn brilliant, burgundy red in fall. Reddish stems have better winter color than those of most other blueberry varieties. Blueberries love acid soil.

VACCINIUM CORYMBOSUM `BLUECROP`

Plant in:

Sun Part Sun

Highbush Blueberry

Green with White Flowers and Blue Berries

Height: 6'

Width: 6'

Flower

Months:5

Zone: 4

Midseason - Considered the best all around variety for consistent yields; large, high quality fruit and disease resistance. Bluecrop is an upright, open growing shrub to 5 - 6 feet. There are other varieties with better ornamental value but none better in the garden. The most popular variety in North America. Turn attractive shades of red in fall. Reddish stems can be attractive in winter. Blueberries love acid soil.

VACCINIUM CORYMBOSUM `JERSEY`

Plant in:

Sun Part Sun

Highbush Blueberry

Green with White Flowers and Blue Berries

Height: 6 - 7'

Width: 6 - 7'

Flower
Months: 5

Zone: 4

Big, burly, and productive, 'Jersey' is an old time variety that keeps on growing. 'Jersey' is laden with huge numbers of small - to medium - sized, sweet, dark blue fruit late in the season and is a consistent producer of perfect fresh eating or pie berries year after year. Blueberries love acid soil.

VACCINIUM CORYMBOSUM `PATRIOT`

Plant in:

Sun Part Sun

Highbush Blueberry

Green with White Flowers and Blue Berries

Height: 4'

Width: 4'

Flower
Months:5

Zone: 3

This variety bears consistent crops of the largest early season blueberries around - the size of quarters! Production is high, ranging between 10 and 20 pounds at maturity. The berries are dark blue and highly flavored. Patriot is a low growing, spreading shrub to about 4' wide. It is adaptable to many soil types and will perform better in wetter soils than many other varieties. Patriot makes an excellent landscape variety with its showy white blooms in the spring, dark green summer foliage, a

VIBURNUM CARLESII

Plant in:

Sun Part Sun

Korean Spice Viburnum, Arrowwood

Green with Pink Buds and White Flowers

Height: 6 - 8'

Width: 6 - 8'

Flower
Months: 4

Zone: 4

A sweet, rich, spicy vanilla flower fragrance makes this variety one of the most sought after viburnums in this region. Bunches of deep pink buds open to mini - snowballs of creamy white flowers in late April. Late summer presents offerings of clustered red fruit that fade to black, drawing chattering birds. Leathery, deep green foliage turns wine - red in autumn. A real landscape gem.

VIBURNUM P. T. `MARIESII`

Plant in:

Sun Part Sun

Doublefile Viburnum

Green with White flowers and red berries

Height: 8 - 10'

Width: 10 - 12'

Flower
Months: 5

Zone: 5

Mariesii is a doublefile viburnum noted for its distinctively layered horizontal branching. Non-fragrant flowers in flat-topped, lacecap-like clusters bloom in profusion along the branches in April or May, causing a magnificent sight when in full bloom. Flower clusters appear in two rows or files along the branch, hence the common name. Flowers give way in summer to red berry-like drupes which eventually mature to black. Dark green healthy leaves turn reddish purple in fall; excelle

VIBURNUM TRI. `BAILEY`S COMPACTUM`

Plant in:

Sun Part Sun

American Cranberry

Green with White flowers and red berries

Height: 5 - 6'

Width: 5 - 6'

Flower
Months:5

Zone: 3

This native is a great selection for naturalizing with its compact form, hardiness, strong flowering and superb set of bird attracting fruit. Creamy white flower heads appear in late May followed by profuse red fruit that show beautifully against shiny green foliage. Superb bright red fall color. An excellent screen, a great cover up for undersides of decks or the base of a post or column since it is a desirable plant for limited size areas.

VIBURNUM X BURKWOODII

Plant in:

Sun Part Sun

Burkwood Viburnum

Green with White flowers and red berries

Height: 6 - 7'

Width: 6 - 7'

Flower
Months: 5

Zone: 5

This shrub has a compact, rounded form, growing 8 - 10 feet tall and wide. In early spring, it produces showy lipstick - red buds that open to white flowers. Once open, the flowers scent the air with their spicy, clove - like perfume for another two weeks. The glossy dark green foliage is handsome throughout the growing season and resistant to bacterial leaf spot and powdery mildew. Foliage turns orange - red in autumn.

VITIS `CANADICE`

Plant in:

Sun

Grapevine

Green with Red Grapes

Height:

Width:

Flower

Months:5

Zone: 5

It's hard to beat this grape for taste and ease of growth. The compact clusters of large, seedless red grapes ripen in early to mid September. Easy to grow, 'Canadice', like all grape vines, can get big and it could use a supporting, heavy duty trellis or pergola for best production and ease of care. Grapes need full sunlight and high temperatures to ripen, so plant on southern slopes, the south side of windbreaks, or the south sides of buildings. Birds love grapes, so be sure to plant some t

VITIS `CONCORD`

Plant in:

Sun

Grapevine

Green with Purple Grapes

Height:

Width:

Flower

Months:5

Zone: 5

Vigorous and fruitful, this old, dependable variety still packs a punch with a multitude of medium to large clusters of big, sweet, highly aromatic black - blue grapes, the skins separate easily from the fruit for making jams and juices. Harvest late - August to September. Grape vines can get big and it could use a supporting, heavy duty trellis or pergola for best production and ease of care.

WEIGELA `FRENCH LACE`

Plant in:

Sun Part Sun

Weigela

Variegated foliage with Ruby Flowers

Height: 4 - 5'

Width: 4 - 5'

Flower
Months: 5

Zone: 5

This variety is a new weigela that has abundant amounts of ruby - red flowers blooming in summer amongst the variegated yellow and green foliage. It's a real stand - out in the garden, and has an awesome effect when planted in mass. It forms a rounded shrub that grows 4 - 5 feet tall and as wide. This large upright form makes an ideal high profile accent plant. It is equally suited for the background of perennial beds or to cloak unattractive fence lines.

WEIGELA `MY MONET`

Plant in:

Sun Part Sun

Weigela

Variegated foliage with Pink Flowers

Height: 18 - 24"

Width: 18 - 24"

Flower

Months:5

Zone: 5

This is the first dwarf variegated Weigela to be introduced. Its tight habit and colorful foliage make it very versatile. Variegation changes depending on light exposure - whiter variegation in shade and pink variegation in full sun. Deep reddish - pink flowers add to the mix in late May through June. It's easy to grow, loves full sun, and will brighten any spot in your garden.

WEIGELA FLORIDA `RED PRINCE`

Plant in:

Sun Part Sun

Weigela

Green with Red Flowers

Height: 5 - 6'

Width: 6 - 7'

Flower

Months: 5 - 6

Zone: 5

The arching branches hold dark red flowers hold their color for the entire bloom period in May-June. This species grows into a rounded mound with coarse branches that can arch to the ground. It flowers on new growth at the end of May and into June and sporadically into the fall. This is an ideal choice for late spring color in combination with conifers and broadleaf evergreens. All Weigelas attract hummingbirds.

WEIGELA FLORIDA 'MIDNIGHT WINE'

Plant in:

Sun Part Sun

Weigela

Burgundy with Pink Flowers

Height: 18 - 24"

Width: 2 - 3'

Flower

Months: 5 - 6

Zone: 4

Take a look at this seductive, burgundy - purple foliage and then watch it explode with masses of deep pink flowers in mid - June. Consider its low, dense, spreading form and you'll wonder why it's not in your garden!

Weigela

Burgundy with Pink Flowers

Height: 3'

Width: 4 - 5'

Flower

Months: 5 - 6

Zone: 4

Rosy - pink flowers add a touch of romance when displayed against the dark glossy foliage. The foliage is much darker than that of older varieties. It contrasts beautifully with the rosy - pink flowers, making for a high impact display in the garden. This variety produces copious amounts of flowers in spring, and will re - bloom throughout the summer. The trumpet - like flowers are adored by hummingbirds!

WISTERIA FRUTESCENS 'AMETHYST FALLS'

Plant in:

Sun Part Sun

Wisteria

Green with Purple Flowers

Height: 15 - 20'

Width: 15 - 20'

Flower

Months: 5 - 6

Zone: 5

Amethyst Falls has blue - lavender flower clusters for several weeks in June. This species twines counter - clockwise and is native to woodlands and streamsides of the southeast. It grows more slowly than other species and tends to be smaller in stature and much less aggressive. Tightly packed fist size clusters of somewhat fragrant flowers in June on new growth. Produces flowers at a young age, and tends to re - bloom sporadically during the summer. Suitable for the seashore. Deer resistant.

YUCCA FILAMENTOSA

Plant in:

Sun

Yucca, Adam's Needle

Green with White flowers

Height: 2 - 3'

Width: 3 - 4'

Flower

Months: 7 - 8

Zone: 4

Upright sword - like evergreen foliage beneath 3-5 foot flower stalks with bell - shaped creamy white flowers in July and August. Fragrant at night. Prefers a dry, sunny location. Tolerant of poor, dry soils. Well suited to seashore gardens. Deer resistant. A traditional and durable favorite.

YUCCA FILAMENTOSA 'GOLDEN SWORD'

Plant in:

Sun

Yucca, Adam's Needle

Variegated Green with White flowers

Height: 2 - 3'

Width: 3 - 4'

Flower

Months: 7 - 8

Zone: 4

Sword - like evergreen leaves with a bright band of gold down the center of each leaf. Clump - form growing to a height of 2 feet. Tall spikes of creamy white flowers in summer. A colorful landscape stand - out year round.

Flower

Months: Summer thru F

Zone:

Sonoran Sunset Hyssop is a compact plant that bears dense spikes of bright rose-pink, tubular flowers in summer and fall. The leaves have a minty, fruity fragrance. This low-maintenance, drought-tolerant plant likes well drained soil and full sun. It is a long bloomer and will add a splash of color to the garden late in the summer when few other perennials are blooming.

Tutti Frutti Hyssop

Width: 8-12"

Flower

Months: Summer

Zone:

Blue clips Bellflowers are among the most popular of perennials. The clips selection is a terrific choice for rock gardens, edging. Plants form a trailing mound of small green leaves, bearing sprays of bright purple bell flowers for many weeks in early summer.

Campanula carpatica Clips Deep Blue

Plant in:

Sun PS

Bellflower

Deep Blue

Height: 4-6"

Width: 8-12"

Flower

Months: Summer

Zone:

Blue clips Bellflowers are among the most popular of perennials. The clips selection is a terrific choice for rock gardens, edging. Plants form a trailing mound of small green leaves, bearing sprays of deep blue bell flowers for many weeks in early summer.

Campanula carpatica Clips White

Plant in:

Sun PS

Bellflower

White

Height: 4-6"

Width: 8-12"

Flower

Months: Summer

Zone:

White Clips is an improved form of campanula. The 3 inch white cupped shaped flowers appear in abundance during July and August with repeat blooming occurring right up until the first frost. Low growing and compact foliage make White Clips an ideal choice for edging borders or growing among rocks.

Campanula persicifolia Divine Mix

Plant in:

Sun PS

Bellflower

Blue/White

Height: 4-6"

Width: 8-12"

Flower

Months: Summer

Zone:

Blue clips Bellflowers are among the most popular of perennials. The clips selection is a terrific choice for rock gardens, edging. Plants form a trailing mound of small green leaves, bearing sprays of bright purple bell flowers for many weeks in early summer.

Campanula glomerata Superba

Plant in:

PS

Bellflower

Purple

Height: 23-29"

Width: 23-27"

Flower

Months: Summer

Zone:

Bellflowers are among the most popular of perennials. Glom superba will produce a low clump of large green leaves. Medium-tall upright stems appear in early summer, bearing large, showy clusters of rich purple funnel-shaped flowers. Terrific for cutting.

Campanula latifolia Brantwood

Plant in:
PS

Bellflower

Violet-Blue

Height: 36-48"

Width: 24-36"

Flower

Months: Summer

Zone:

Brantwood bellflower has showy flowers in a very deep violet-blue. This is a robust perennial that is upright in form, bearing tubular bellflowers in midnight violet-blue. Amazing centerpiece in flower garden.

Campanula lactiflora Pink Dwarf

Plant in:
PS

Bellflower

Pink

Height: 12-18"

Width: 24-36"

Flower

Months: Summer

Zone:

Beautiful dwarf garden bellflower, with more foliage bulk than its cousins. Its leaves are fresh green and crinkly. Prolific bloomer with flowers colored a delicate blush.

Campanula carpatica Pearl White

Plant in:

PS

Bellflower

White

Height: 6-12"

Width: 6-12"

Flower

Months: Summer

Zone:

Neat, compact and prolific, these gorgeous pure white flowers start earlier than those of older varieties. The consistently large flowers of 'Pearl White' will continue through summer and right into fall!

Campanula persicifolia Blue

Plant in:
PS

Bellflower

Blue

Height: 24-36"

Width: 18-24"

Flower

Months: Summer

Zone:

This upright, clump forming plant with stiff unbranched stems features large, outward facing, blue flowers that are cup-shaped and grow 1 1/2" long. Blooms will continue for weeks!

Campanula persicifolia White

Plant in:

PS

Bellflower

Width: 12"

Flower

Months: Summer

Zone:

A free standing shrub with a mass of small white star-shaped flowers followed by showy, wooly seed heads. Deer resistant and hummingbird attractant.

Clematis tangutica Radar Love

Plant in:
Sun Part Sun

Clematis

Green foliage, Yellow Flowers

Height: 10-15'

Width: 2-3'

Flower

Months:6-9

Zone:

This adaptable selection features bright yellow bell-shaped flowers that appear through the summer, followed by the feathery tufted seed heads. An excellent ground cover for difficult areas with poor soil. With support, it will climb up to 15ft. Not fussy at all as to soil type, but prefers a sunny site. Plants may be pruned back to about 6 inches in the spring every 4 to 5 years to renew growth

Clematis viticella Walenburg

Plant in:
Sun Part Sun

Clematis

Green Foliage, Pink and White Flowers

Height: 10-12''

Width: 2-3'

Flower
Months:6-9

Zone:

This new selection bears intense red flowers with white shading starting in June. The flowers age to purple. While a profuse bloomer, 'Walenburg' grows only 10-12 feet high.

Convallaria majalis

Plant in:

Part Sun Shade

Lily of the Valley

Green foliage, White Flowers

Height: 6"

Width: 8"

Flower
Months:5-6

Zone:

The delicate ivory blooms of lily-of-the-valley are unsurpassed when it comes to sweet, unforgettable fragrance. This deciduous, low-growing groundcover appears in mid-spring when it puts forth broad, lance-shaped leaves of medium to dark green. Shortly afterward small stems lined with small, drooping, bell-shaped flowers appear. These may be ivory or pale pink and are exquisitely scented. After flowering poisonous, orange-red, berry-like fruits are produced.

Coreopsis auriculata Nana

Plant in:

Sun

Tickseed

Green foliage, Yellow Flowers

Height: 6-12”

Width: 6-8”

Flower

Months:6-7

Zone:

Dwarf lobed tickseed is a low growing, perennial that spreads slowly by rhizomes. This plant has soft, medium green foliage and puts forth short stems topped with single golden orange daisies in early to midsummer. Bloom time will be extended if spent flowers are removed. This heat tolerant perennial does best in sites with full sun

Tickseed

Green Foliage, Yellow Flowers with Red Centers

Height: 24-36”

Width: 25-30”

Flower

Months:7-9

Zone:

‘Redshift, is an herbaceous perennial with flower petals that change color based on seasonal temperatures. Its flowers are larger in size than most tickseeds as well. Bloom starts in early summer and continues until frost. By midsummer, the plant is a tall clump of lacy green leaves and hundreds of flowers that have a burgundy-red central disk surrounded by light yellow petals. Butterflies and bees frequent the flowers every chance possible. In early autumn, the petals on new flowers are deep re

Zone:

The grand, vibrant-yellow, puffy double flowers of 'Presto' keep coming all summer on compact, rounded plants. Enjoy awesome Flower Power ! no pun intended :)

Coreopsis grandiflora Sunburst

Plant in:

Sun

Tickseed

Yellow-Orange

Height: 12-18"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

This is a very vibrant, upright, perennial. Leaves are simple and green. 'Sunburst' bears brilliant yellow, double flowerheads, with uneven cut petals, and orangish-yellow centers.

Coreopsis grandiflora Sunfire

Plant in:

Sun

Tickseed

Yellow Red Center

Height: 18-24"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

Featuring an all-summer supply of large, yellow blooms with burgundy-red centers, the flowers of 'Sunfire'. This tickseed will bloom two weeks earlier than most.

Coreopsis grandiflora Sunray

Plant in:

Sun

Tickseed

Golden Yellow

Height: 18-24"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

This plant features golden-yellow, daisy-like, double flowers that are present all summer. The flowering clumps of attractive, lance-shaped, deep green leaves complete a stunning selection.

Coreopsis lanceolata Baby Sun

Plant in:

Sun

Tickseed

Red-Golden Yellow

Height: 8-10"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

A multitude of golden-yellow daisy blooms sits atop thready foliage from late spring to late summer if deadheaded promptly.

Coreopsis pubescens Sunshine Superman

Plant in:

Sun

Tickseed

Yellow

Height: 8-14"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

Sunshine superman is a low growing, fuzzy looking plant with golden yellow blooms with orange centers that open from June thru frost.

Coreopsis rosea

Plant in:

Sun

Tickseed

Pink

Height: 8-10"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

The light pink, petite, flowers with light yellow centers are magical during late May to June. Late summer blooms will appear after deadheading. Airy, dainty, thread like foliage.

Coreopsis verticillata Alba

Plant in:

Sun

Tickseed

White

Height: 8-10"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

Yellow-eyed white flowering form. free flowering - continuously in bloom from early summer right into fall. Makes a good cut flower with its unusual narrow tapered foliage.

Coreopsis verticillata Golden Showers

Plant in:

Sun

Tickseed

Yellow

Height: 24-30"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

Coreopsis 'Golden Showers' has bright yellow blooms on top of tall and sturdy stems with threadlike green foliage. Plant will form a nice size clump, that will fill any area with beautiful color.

Coreopsis verticillata Moonbeam

Plant in:

Sun

Tickseed

Lt Yellow

Height: 8-12"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

'Moonbeam' features small, pale yellow flowers that emerge above dark green, ferny foliage that creates a mounding habit. This variety will bloom all summer!

Coreopsis verticillata Route 66

Plant in:

Sun

Tickseed

Red Yellow

Height: 8-12"

Width: 18-24"

Flower

Months: Summer-Fall

Zone:

Route 66' features big, bold, blooms. A rich ring of burgundy surrounding the flower center bleeds out to the very tips of the yellow petals. Narrow, deep-green foliage forms vigorous, mounded clumps.

Coreopsis verticillata Zagreb

Plant in:

Sun

Tickseed

Yellow

Height: 18-30"

Width: 18-40"

Flower

Months: Summer-Fall

Zone:

Zagreb coreopsis features golden yellow flowers that appear week after week in June and July on an upright plant with medium green, fern-like foliage

Coronilla varia

Plant in:

Sun

Crown Vetch

Lt Purple

Height: 12-30"

Width: 24-45"

Flower

Months: Late Spring- Ea

Zone:

Small, round, pinkish-white flowers appear in June over the elegant, pea-like foliage that provides the plant with a billowy look and feel.

Dahlia

Orange

Height: 12-16"

Width: 8-10"

Flower

Months: Early Summer

Zone:

Large, decorative, vibrant, orange flowers that bloom until frost. Removing dead blooms will encourage more blooms. Dahlia bulbs will need protection from frost, pull from the ground and store in a dry location.

Dahlia Babylon

Plant in:

Zone:

This species forms a low mat of succulent, evergreen leaves, bearing loads of small starry yellow flowers in late spring. Ice Plant is a perennial evergreen succulent from South Africa. This is a great groundcover for rock gardens or for slopes. It takes heat well and needs very little water to keep looking good.

Delphinium Belladonna

Plant in:

Sun Part Sun

Larkspur

Blue

Height: 3-4'

Width: 12-18"

Flower

Months: Spring Summer

Zone:

These vigorous, long-lived plants produce luminous, true pale blue, airy flower spikes in summer and then again in late summer fall.

Delphinium belladonna Bellamosum

Plant in:

Sun Part Sun

Larkspur

Pale Blue

Height: 2-3'

Width: 2-4'

Flower

Months: Spring Summer

Zone:

Bellamosum produces a mix of airy flower spikes during June in lovely clear colors ranging from light blue to white and everything in between. Heavily divided foliage on compact plants that doesn't require staking completes this variety.

Delphinium grandiflorum Butterfly Blue

Plant in:

Sun Part Sun

Larkspur

Blue

Height: 14-18"

Width: 12-14"

Flower

Months: Spring Summer

Zone:

The deep blue flowers of this selection are produced in abundance all summer over fern-like foliage that can be cut back severely and fertilized to encourage a rebloom.

Larkspur

Light blue

Height: 2-3'

Width: 3-4'

Flower

Months: Spring Summer

Zone:

Connecticut Yankees' produces a mix of airy flower spikes during June in lovely clear colors ranging from light blue to white and everything in between. Heavily divided foliage on compact plants that doesn't require staking completes this variety.

Delphinium nudicaule Laurin

Plant in:

Sun Part Sun

Larkspur

Red

Height: 12-18"

Width: 12-18"

Flower

Months: Spring Summer

Zone:

This is a selection of the red-flowered delphinium. It has long-spurred, scarlet, tubular flowers on foot tall stems that are popular with hummingbirds.

Delphinium elatum Magic Fountain Dark Blue Dk B

Plant in:

Sun Part Sun

Larkspur

Blue Purple

Height: 24-36"

Width: 12-16"

Flower

Months: Spring Summer

Zone:

Spikes of dark violet-blue flowers with dark centers appear on compact plants that usually do not require staking. Shear after initial flowering and fertilize richly for an all summer show!

Larkspur

Blue White Center

Height: 24-36"

Width: 12-16"

Flower

Months: Spring Summer

Zone:

Spikes of dark purple-blue flowers with white centers will bloom continuously all summer if properly fertilized and deadheaded. The compact habit of this variety will rarely need staking.

Delphinium elatum Magic Fountain Mid Blue White B

Plant in:

Sun Part Sun

Larkspur

Blue with White Eye

Height: 30-36"

Width: 18-24"

Flower

Months: Spring Summer

Zone:

Semi-dwarf plants produce beautiful two-foot flower spikes of sky blue flowers with white eyes. The strong stems need no staking.

Larkspur

Light Purple

Height: 3-4'

Width: 24-36"

Flower

Months: Spring Summer

Zone:

The unique, broad white edges to the blue petals of 'Delft Blue' give it a striped effect and makes for a wonderful and long lasting cut flower variety. This selection will bloom all summer when fertilized and cut back after flowering.

Larkspur

Pink

Height: 2-3'

Width: 2-3'

Flower

Months: Spring Summer

Zone:

Cherry Blossom Delphinium never needs support! Flowers crowded all along the spike for a very bushy, colorful effect. The only choice for the front of the border or for smaller gardens, where vertical color without too much height is appreciated!

Delphinium elatum Magic Fountain Lilac Pink

Plant in:

Sun Part Sun

Larkspur

Light pink

Height: 2-3'

Width: 1-2'

Flower

Months: Spring Summer

Zone:

Semi-double to double flowers of lilac-pink flowers with white centers on 10-20" long spikes

Delphinium elatum Magic Fountain White Dark B

Plant in:

Sun Part Sun

Larkspur

White black center

Height: 2-3'

Width: 1-2'

Flower

Months: Spring Summer

Zone:

Semi-double to double flowers with white blooms and black centers on 10-20" long spikes. Great cutting flower.

Larkspur

White

Height: 2-3'

Width: 1-2'

Flower

Months: Spring Summer

Zone:

Semi-double to double flowers with pure white blooms on 10-20" long spikes. Great cutting flower.

Delphinium elatum Pacific Giants Astolat

Plant in:

Sun Part Sun

Larkspur

Pink

Height: 4-6'

Width: 18-24"

Flower

Months: Spring Summer

Zone:

One of the Pacific Giant delphiniums, Astolat bears blooms in delicate shades of lavender and pink. The Pacific Giant hybrids are the tallest and showiest of all delphiniums, producing spikes that can reach heights of 8 feet.

Larkspur

Dark Blue

Height: 40-60"

Width: 16-24"

Flower

Months: Spring Summer

Zone:

Black Knight' features abundant amounts of deep violet spikes of flowers with black centers. It will flower all summer when well fertilized and cut back heavily after the initial flowering.

Delphinium elatum Pacific Giants Blue Bird

Plant in:

Sun Part Sun

Larkspur

Blue White

Height: 3-5'

Width: 24-30"

Flower

Months: Spring Summer

Zone:

Blue Bird' is a Pacific Hybrid delphinium grown as biennial. Its mid-blue flowers have white centers. Grow at the back of a border or in the middle of an island bed. There is nothing quite like delphiniums in the garden.

Larkspur

Blue

Height: 5-6'

Width: 1-2'

Flower

Months: Spring Summer

Zone:

This variety produces large spikes of mid-blue flowers with dark centers (or "bees") in abundance during June. You can encourage further blooms by severe pruning.

Delphinium elatum Pacific Giants Galahad

Plant in:

Sun Part Sun

Larkspur

White

Height: 40-60"

Width: 14-18"

Flower

Months: Spring Summer

Zone:

Clear white spikes of flowers with greenish centers will last all summer when cut back severely after the initial flowering and properly fertilized.

Delphinium elatum Pacific Giants Guinevere

Plant in:

Sun Part Sun

Larkspur

Light Purple

Height: 40-60"

Width: 14-24"

Flower

Months: Spring Summer

Zone:

Spikes of soft lavender flowers with a white center will bloom all summer on this stunning selection. To encourage more blooms, cut it back severely after the initial offerings and fertilize properly.

Delphinium elatum Pacific Giants King Arthur

Plant in:

Sun Part Sun

Larkspur

Blue Violet

Height: 40-60"

Width: 14-24"

Flower

Months: Spring Summer

Zone:

Abundant spikes of blue-violet flowers with a white center will bloom all summer if they're cut back after the initial flowering and properly fertilized.

Larkspur

Light blue

Height: 36-48"

Width: 18-24"

Flower

Months: Spring Summer

Zone:

Summer Skies' will produce immense yet graceful light to medium blue spikes with white "bees" that appear during the summer and last until the first frost with proper care.

Delphinium grandiflorum Summer Blues

Plant in:

Sun Part Sun

Larkspur

Blue

Height: 12-16"

Width: 12-14"

Flower

Months: Spring Summer

Zone:

Unlike other tall spiky cultivars, this little beauty forms compact mounds of well-branched foliage covered by sky blue, 1 1/2" flowers all summer. More heat tolerant and earlier blooming than other delphiniums.

Delphinium grandiflorum Summer Cloud

Plant in:

Sun Part Sun

Larkspur

Blue White

Height: 10-14"

Width: 10-14"

Flower

Months: Spring Summer

Zone:

'Summer Cloud' offers electric bi-color flowers of blue and white from summer to late summer amid fern-like, deep green, heat tolerant foliage on a compact plant.

Delphinium grandiflorum Summer Morning

Plant in:

Sun Part Sun

Larkspur

Pink

Height: 10-14"

Width: 12-16"

Flower

Months: Spring Summer

Zone:

Trusses of light pink flowers appear from June to September on this dwarf plant with very dark green, delicately cut foliage. A lovely color breakthrough!

Delphinium grandiflorum Summer Nights

Plant in:

Sun Part Sun

Larkspur

Dark Blue

Height: 10-14"

Width: 12-16"

Flower

Months: Spring Summer

Zone:

Summer Nights' features short mounds of well-branched flower scapes with satiny midnight blue flowers that bloom from summer through fall amid delicate fern-like foliage.

Delphinium grandiflorum Summer Stars

Plant in:

Sun Part Sun

Larkspur

White

Height: 10-12"

Width: 8-10"

Flower

Months: Spring Summer

Zone:

Delphinium Summer Stars, Delphinium 'Summer Stars', is graced with elegant white star-shaped flowers nearly all summer long.

Dianthus barbatus Amazon Neon Duo

Plant in:

Sun Part Sun

Carnation

Pinks Mix

Height: 18-36"

Width: 10-12"

Flower

Months:5-8

Zone:

Deep green, glossy foliage gives rise to an abundance of sweetly fragrant purple-pink fringed flowers that appear in early summer on long stems that are great for cutting.

Dianthus amurensis Siberian Blue

Plant in:

Sun Part Sun

Carnation

Blue

Height: 12-16"

Width: 12-20"

Flower

Months:6-7

Zone:

Jazz up the Dianthus bed with this richly colored, long-blooming Siberian Blue! From late spring well into fall, masses of lavender-pink blooms with blue over-tones arise in big clusters on tough, vigorous plants

Dianthus barbatus Barbarini Purple Bicolor

Plant in:

Sun Part Sun

Carnation

Pink

Height: 6-8"

Width: 12-18"

Flower

Months:5-7

Zone:

Attractive full-sized head of deep purple flowers with a lighter edge bloom on a compact, uniform plant over a long season. Great selection for border fronts or in mixed containers

Carnation

Green Foliage, Purple and White Flowers

Height: 8-12”

Width: 8-12”

Flower

Months:5-7

Zone: 5

Blooming from late spring through midsummer, it bears large, fragrant clusters of fringed, deep lavender-purple flowers with contrasting white edges. They rise on short, sturdy stems amid tufts of narrow, deep green foliage, and are visited by bees and butterflies.

Carnation

Green foliage, Red Flowers

Height: 8-12"

Width: 8-12"

Flower

Months:5-7

Zone: 5

Attractive full-sized head of deep red flowers with a lighter edge bloom on a compact, uniform plant over a long season. Great selection for border fronts or in mixed containers

Dianthus barbatus Barbarini Red Picotee

Plant in:

Sun Part Sun

Carnation

Red

Height: 8-10"

Width: 12-18"

Flower

Months: 5-7

Zone: 5

Wonderful mound- or mat-forming plants that have tremendous spring bloom. Well-drained soil, full sun, and slightly alkaline (add lime) soil. Use near the front of the border or in rock gardens.

Dianthus barbatus Indian Carpet Mix

Plant in:

Sun Part Sun

Carnation

Pinks Mix

Height: 12-18"

Width: 12-14"

Flower

Months: 6-7

Zone:

A wide color range of fragrant, mostly bicolored flowers appear in June on this variety that has a compact habit.

Dianthus barbatus Pinnochio

Plant in:

Sun Part Sun

Carnation

Red Pink

Height: 6-18"

Width: 5-12"

Flower

Months:6-7

Zone:

A wide color range of fragrant, mostly bicolored flowers appear in June on this variety that has a compact habit.

Dianthus gratianopolitanus Baths Pink

Plant in:

Sun Part Sun

Carnation

Light Purple

Height: 10-14"

Width: 1-3'

Flower

Months:6-7

Zone:

The soft pink, lightly fragrant, 1" single fringed flowers of 'Bath's Pink' emerge in June on long airy stems that make great cut flowers. Soft low mounds of gray-green foliage complete this outstanding selection.

Dianthus barbatus Bedazzled

Plant in:
Sun Part Sun

Carnation

Red

Height: 4-8"

Width: 18"

Flower

Months: June – September

Zone:

The red, lightly fragrant, 1" single fringed flowers of 'Bedazzled' emerge in June on long airy stems that make great cut flowers. Soft low mounds of gray-green foliage complete this outstanding selection.

Dianthus barbatus Bouquet Purple

Plant in:

Sun Part Sun

Carnation

Vibrant Pink

Height: 18-24"

Width: 10-12"

Flower

Months: June – September

Zone:

Deep green, glossy foliage gives rise to an abundance of sweetly fragrant purple-pink fringed flowers that appear in early summer on long stems that are great for cutting.

Dianthus deltooides Brilliant Star

Plant in:
Sun Part Sun

Carnation

White Ruby Center

Height: 7"

Width: 7"

Flower

Months: June – September

Zone:

Deep green, glossy foliage gives rise to an abundance of sweetly fragrant semi-double white with ruby center fringed flowers that appear in early summer on long stems that are great for cutting.

Dianthus deltoides Confetti Mix

Plant in:
Sun Part Sun

Carnation

Pinks Reds Whites

Height: 4-6"

Width: 8-12"

Flower

Months: June – September

Zone:

Perfect for rock gardens and along walkways. Low spreading mounds of tidy moss-like foliage send up constellations of small carnations in white, reds, pinks and bicolors. A superb new kind of Maiden Pink.

Dianthus deltooides Arctic Fire

Plant in:
Sun Part Sun

Carnation

White Vibrant Pink Center

Height: 6-8"

Width: 12-24"

Flower

Months: June – September

Zone:

White blooms with a glowing deep pink eye edged in red bloom for an extended period in June through July over dainty green-gray foliage.

Dianthus deltooides Brilliant

Plant in:
Sun Part Sun

Carnation

Vibrant Pink

Height: 6-8"

Width: 12-24"

Flower

Months: June – September

Zone:

Deep green, glossy foliage gives rise to an abundance of sweetly fragrant vibrant-pink fringed flowers that appear in early summer on long stems that are great for cutting.

Dianthus deltooides Flashing Light

Plant in:
Sun Part Sun

Carnation

Salmon Scarlet

Height: 6-12"

Width: 9-12"

Flower

Months: June – September

Zone:

Hardy, mat-forming perennial with bright-green leaves and salmon-scarlet flowers. Showy ground or bank cover and useful as edging plants. Evergreen perennial.

Dianthus deltooides Mountain Mist

Plant in:

Sun Part Sun

Carnation

Pink

Height: 6-8"

Width: 6"

Flower

Months: June – September

Zone:

The Dianthus 'Mountain Mist, is a beautiful smoky pink flower that can be somewhat lacy and fringed. With its grassy blue-gray foliage and profuse blooming time, 'Mountain Mist is one not to miss.

Dianthus deltoides Rainbow Loveliness

Plant in:

Sun Part Sun

Carnation

Rainbow Pinks

Height: 12-18"

Width: 9-12"

Flower

Months: June – September

Zone:

Rainbow Loveliness' is a clump-forming flower that forms a foliage mound of narrow, linear, bluish-green leaves rising. Masses of heavily fringed, very fragrant, single flowers cover the foliage mound in spring in a mixture of colors.

Dianthus deltoides Zing Rose

Plant in:

Sun Part Sun

Carnation

Bright Pink

Height: 6-10"

Width: 2-3'

Flower

Months: June – September

Zone:

Zing Rose' produces large, bright rose flowers that will bloom heavily from June to July and then sporadically until fall. The blooms provide dramatic, vivid color.

Dianthus deltoides Zing Salmon

Plant in:
Sun Part Sun

Carnation

Salmon

Height: 6-10"

Width: 2-3'

Flower

Months: June – September

Zone:

'Zing Salmon' is similar in habit to 'Zing Rose' but features lovely salmon flowers that bloom heavily from June to July and sporadically thereafter.

Dianthus Dessert Cranberry Ice

Plant in:
Sun Part Sun

Carnation

Pinks with swirls

Height: 10-14"

Width: 10-14"

Flower

Months: June – September

Zone:

Compact foliage with delightful flowers that look good enough to eat!

Dianthus Dessert Raspberry Swirl

Plant in:

Sun Part Sun

Carnation

Pinks with swirls

Height: 10-14"

Width: 10-14"

Flower

Months: June – September

Zone:

Compact foliage with delightful flowers that look good enough to eat!

Dianthus Dessert Strawberry Sorbet

Plant in:

Sun Part Sun

Carnation

Pinks with swirls

Height: 10-14"

Width: 10-14"

Flower

Months: June – September

Zone: 5

Compact foliage with delightful flowers that look good enough to eat!

Dianthus hybrida Eastern Star

Plant in:
Sun Part Sun

Carnation

Dark Pink

Height: 10"

Width: 12"

Flower

Months: June – September

Zone:

Eastern Star' Dianthus has clean, blue-green, grass-like foliage and large, spice scented red flowers with a distinctive maroon red center and soft pink highlights along the petals' edge.

Dianthus hybrida Fire Star

Plant in:
Sun Part Sun

Carnation

Red

Height: 6-8"

Width: 12-18"

Flower

Months: June – September

Zone:

Fire Star Dianthus is an evergreen, glaucous gray-green foliage provides a wonderful background for the mounds of vivacious, bright red flowers. Deeper red eyes make this a saturated red bicolor

Dianthus hybrida First Love

Plant in:
Sun Part Sun

Carnation

Light Purple

Height: 6-8"

Width: 12-18"

Flower

Months: June – September

Zone:

Sweetly fragrant flowers that change from pure white to deep rose, April to frost. The foliage is mounding and is attractive, even in the winter.

Dianthus gratianopolitanus Firewitch

Plant in:

Sun Part Sun

Carnation

Pink

Height: 6-8"

Width: 12-18"

Flower

Months: June – September

Zone:

'Firewitch is superb for both its gray-blue foliage and its bouquet of single hot-pink flowers. Blooming in late spring

Dianthus hybrida Raspberry Surprise

Plant in:

Sun Part Sun

Carnation

Pink White

Height: 4-6"

Width: 6-12"

Flower

Months: June – September

Zone:

Tiny bright-pink flowers appear in abundance during June over compact mounds of evergreen foliage.

Dianthus gratianopolitanus Tiny Rubies

Plant in:

Sun Part Sun

Carnation

Pink

Height: 4-6"

Width: 6-12"

Flower

Months: June – September

Zone:

Tiny bright-pink white flowers appear in abundance during June over compact mounds of evergreen foliage.

Dianthus alwoodii Helen

Plant in:

Sun Part Sun

Carnation

Pink

Height: 10-16"

Width: 1-2'

Flower

Months: June – September

Zone:

Double, medium salmon-pink carnations in June produce a lovely clove-like scent over blue-green clumps of evergreen foliage.

Dianthus knappi Yellow Harmony

Plant in:

Sun Part Sun

Carnation

Pale Yellow

Height: 12-16"

Width: 10-16"

Flower

Months: June – September

Zone:

Yellow Harmony features unique flowers of pale, creamy yellow which bloom atop slender, branched stems in summer

Dianthus hybrida Melody Rose

Plant in:

Sun Part Sun

Carnation

Rose

Height: 10-12"

Width: 12-18"

Flower

Months: June – September

Zone:

Melody Series of pinks scoff at frosty temperatures and keep blooming into the heat of summer

Dianthus hybrida Neon Star

Plant in:
Sun Part Sun

Carnation

Neon Pink

Height: 6-12"

Width: 9-12"

Flower

Months: June – September

Zone:

A compact, mounding plant with excellent foliage, 'Neon Star' blooms all season with the heaviest flowering of day-glow pink flowers occurring from June to July.

Dianthus hybrida Shooting Star

Plant in:

Sun Part Sun

Carnation

Purple

Height: 6-8"

Width: 12-18"

Flower

Months: June – September

Zone:

The flowers of 'Shooting Star' have overlapping petals of vibrant magenta purple with plum rings around the centers and a spicy clove scent. Blooming heavily in June and sporadically in fall, the blooms contrast with the eye-catching, gray-blue foliage

Dianthus hybrida Spangled Star

Plant in:
Sun Part Sun

Carnation

Pink White

Height: 6-12"

Width: 18-24"

Flower

Months: June – September

Zone:

The red flowers of 'Spangled Star' are spotted and edged in pink. They bloom for a long period in June and July, providing an extended vibrancy in the garden.

Dianthus superbis Spooky Mix

Plant in:

Sun Part Sun

Carnation

Pinks Mix

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

Large fringed and deeply divided lacy petals perfume the landscape with sweet a fragrance. Named Spooky for the unusual shaped blooms that to some look slightly sinister

Dicentra formosa Aurora

Plant in:

Shade

Bleeding Heart

White

Height: 12-15"

Width: 1-2'

Flower

Months: Spring

Zone:

The gray-green foliage of 'Aurora' gives rise to white flowers that are produced all summer. This plant is an excellent choice for edging in a semi-shaded garden or woodland setting.

Dicentra formosa Bacchanal

Plant in:

Shade

Bleeding Heart

maroon

Height: 12-18"

Width: 2-4'

Flower

Months: Spring

Zone:

Bacchanal's heart-like flowers are a deep maroon, held above finely cut, gray-green leaves.

Bleeding Heart

Pink

Height: 12-18"

Width: 2-4'

Flower

Months: Spring

Zone:

The Bleeding Heart Luxuriant, 'Dicentra 'Luxuriant, is a fast-growing perennial with pink, heart-shaped flowers. The blooms look wonderful against its grayish foliage

Bleeding Heart

Pink

Height: 8-10"

Width: 1-2'

Flower

Months: Spring

Zone:

Features very floriferous, rosy-pink flowers that will bloom from late spring thru fall above cut gray-green foliage.

Dicentra spectabilis Alba

Plant in:

Shade

Bleeding Heart

White

Height: 30-36"

Width: 2-4'

Flower

Months: Spring

Zone:

A pure white form of Old Fashioned Bleeding Heart, this is an excellent moon garden plant.

Dicentra spectabilis

Plant in:

Shade

Bleeding Heart

Pink

Height: 30-36"

Width: 2-4'

Flower

Months: Spring

Zone:

Chartreuse leaves and peach colored stems give a new twist to this old fashioned plant. Plants display a lovely chain of pink and white "hearts" in late May to June like other Dicentra varieties.

Digitalis ambigua Yellow

Plant in:

Sun Part Sun

Foxglove

Yellow

Height: 2-4'

Width: 2-5'

Flower

Months: Spring Summer

Zone:

A true perennial with large pale yellow flowers, brown veining, and glossy green foliage

Digitalis purpurea Camelot Cream

Plant in:

Sun Part Sun

Foxglove

Yellow

Height: 3-4'

Width: 12-18"

Flower

Months: Spring Summer

Zone:

Tall, broad spikes of cream flowers with burgundy spotting on the interior of each individual bloom encircle the stems of this excellently branched plant that will produce from June until September.

Digitalis purpurea Camelot Lavender

Plant in:

Sun Part Sun

Foxglove

Lavender Purple

Height: 3-4'

Width: 12-18"

Flower

Months: Spring Summer

Zone:

Tall, broad spikes of lavender flowers with burgundy spotting on the interior of each individual bloom encircle the stems of this excellently branched plant that will produce from June until September.

Digitalis purpurea Camelot Rose

Plant in:

Sun Part Sun

Foxglove

Rose

Height: 3-4'

Width: 12-18"

Flower

Months: Spring Summer

Zone:

Tall, broad spikes of rose flowers with burgundy spotting on the interior of each individual bloom encircle the stems of this excellently branched plant that will produce from June until September.

Digitalis purpurea Camelot White

Plant in:
Sun Part Sun

Foxglove
White

Height: 3-4'

Width: 12-18"

Flower

Months: Spring Summer

Zone:

Tall, broad spikes of white flowers with burgundy spotting on the interior of each individual bloom encircle the stems of this excellently branched plant that will produce from June until September.

Digitalis mertonensis Strawberry

Plant in:

Sun Part Sun

Foxglove

Pink

Height: 2-3'

Width: 1-2'

Flower

Months: Spring Summer

Zone:

A hybrid between digitalis purpurea and digitalis grandiflora, this selection will have a more perennial nature and produce flower spikes the color of crushed strawberries and cream.

Digitalis obscura Sunset

Plant in:

Sun Part Sun

Foxglove

Sunset colors

Height: 12-18"

Width: 12-15"

Flower

Months: Spring Summer

Zone:

This foxglove has long-lasting flowers in seductive shades of burnt umber. Its glossy, linear leaves are evergreen in mild climates, but turn brown in colder climates.

Digitalis purpurea Apricot

Plant in:
Sun Part Sun

Foxglove

Apricot

Height: 3-5'

Width: 12-15"

Flower

Months: Spring Summer

Zone:

Apricot Beauty' produces soft apricot flowers continuously from May to August. An excellent woodland colonizer!

Digitalis purpurea Foxy

Plant in:

Sun Part Sun

Foxglove

Pink

Height: 24-36"

Width: 14-16"

Flower

Months: Spring Summer

Zone:

Foxy' features a mix of carmine, pink, cream and white blooms with dark maroon speckles. In late fall, apply straw to the crown of the plant as a protective winter mulch.

Digitalis purpurea Giant Shirley Mix

Plant in:

Sun Part Sun

Foxglove

Mixed Pastels

Height: 3-5'

Width: 14-16"

Flower

Months: Spring Summer

Zone:

With large flowers in a soft range of colors on a more dainty spike, you can count on 'Giant Shirley' to re-seed itself. Provide a mulch of straw to the crown of the plant in late fall for maximum winter protection.

Digitalis purpurea Excelsior Mix

Plant in:
Sun Part Sun

Foxglove

Mixed Pinks

Height: 3-5'

Width: 14-16"

Flower

Months: Spring Summer

Zone:

Colorful spikes of flowers in pastel shades appear in June and continue through July. Held horizontally, these flowers provide the best interior reveal of the digitalis varieties. For added protection, apply straw to shield the crown in winter.

Digitalis purpurea Thapsi

Plant in:

Sun Part Sun

Foxglove

Rose

Height: 3-4'

Width: 12-14"

Flower

Months: Spring Summer

Zone:

A lovely smaller foxglove with rose-pink flowers, the first one to bloom in our garden, in late May. Self-seeds modestly for us

Doronicum orientale Finesse

Plant in:

Sun Part Sun

Leopard's Bane

Yellow

Height: 18-20"

Width: 12-20"

Flower

Months: 5-6

Zone:

The radiant yellow flowers of 'Finesse' appear on long stems and resemble single star bursts, which is very unique looking for the species. The blooms appear in early June above neat clumps of triangular, deep green, toothed leaves.

Doronicum orientale Little Leo

Plant in:

Sun Part Sun

Leopard's Bane

Yellow

Height: 12-14"

Width: 14-16"

Flower

Months: 5-6

Zone:

Bright yellow, daisy-like flowers appear in late May and June amid tidy mounds of toothed, triangular foliage.

Coneflower

Green Foliage, Gold Flowers

Height: 30-36"

Width: 24"

Flower
Months: 6-8

Zone:

The fragrant flowers of Harvest Moon are completely golden yellow from their conical centers to the tips of their petals. Coneflowers all attract bees and butterflies and provide seeds for hungry birds in the fall and winter months. Use these perennials in flower borders, in meadow or in a sunny container.

Coneflower

Green Foliage, Orange Flowers

Height: 30-36”

Width: 24”

Flower

Months:6-8

Zone:

This remarkable hybrid Coneflower features deep burnt-orange petals surrounding a large cinnamon brown button-shaped cone. Coneflowers all attract bees and butterflies and provide seeds for hungry birds in the fall and winter months. Use these perennials in flower borders, in meadow or in a sunny container.

Coneflower

Green foliage, Yellow Flowers

Height: 30-36"

Width: 24"

Flower
Months:6-8

Zone:

Large and rose-scented flowers have soft creamy-yellow petals surrounding a central cone that begins green, later changing to golden orange. Coneflowers all attract bees and butterflies and provide seeds for hungry birds in the fall and winter months. Use these perennials in flower borders, in meadow or in a sunny container.

Coneflower

Oranges

Height: 36"

Width: 36"

Flower

Months:6-8

Zone:

This is a breathtaking plant. The flowers emerge yellow and then darken to red as they mature, leaving a beautiful kaleidoscope of color on one plant.

Echinacea pallida

Plant in:

Sun

Coneflower

Soft Purple

Height: 24-36"

Width: 18-24"

Flower

Months:6-8

Zone:

Pale Purple Coneflower with it's tall slender stems topped with large daisy-like flowers with drooping purple-pink petals makes it an excellent flower for the cutting garden.

Echinacea purpurea Prairie Splendor

Plant in:

Sun

Coneflower

Pink

Height: 24"

Width: 18-24"

Flower

Months:6-8

Zone:

Prarie Splendor Coneflower is the earliest blooming Echinensisacea with large daisy-like purple-pink flowers. This is an excellent flower for the cutting garden.

Echinacea purpurea Bravado

Plant in:

Sun

Coneflower

Rosy Pink

Height: 4-5'

Width: 5-10"

Flower

Months:6-8

Zone:

Glorious rosy-pink blooms on top of green foliage. Unlike other Echinaceas, Bravado holds its extra-wide petals out flat, offering up even more color from late spring until frost.

Echinacea purpurea Double Decker

Plant in:

Sun

Coneflower

Pink

Height: 38-40"

Width: 1-2'

Flower

Months:6-8

Zone:

A set of shorter petals sprout from atop the cone while a "skirt" of rose-pink petals emerges from the bottom of the cone. 'Double Decker' blooms continuously from July to September.

Echinacea purpurea Kims Knee High

Plant in:

Sun

Coneflower

Pink

Height: 18-24"

Width: 18-24"

Flower

Months:6-8

Zone:

A well branched and compact plant, 'Kim's Knee High' features light pink flowers with drooping petals from July until frost.

Echinacea purpurea Magnus

Plant in:

Sun

Coneflower

Pink

Height: 36-40"

Width: 1-2'

Flower

Months:6-8

Zone:

The deep pink flowers of 'Magnus' feature lavender undertones and large golden brown cones that create a flower form that is flatter than the species. These vigorous plants will bloom from July until frost.

Echinacea purpurea Primadonna White

Plant in:

Sun

Coneflower

White

Height: 30-36"

Width: 24"

Flower
Months:6-8

Zone:

Pure white flowers with wide petals surround a deep golden-brown cone. 'Primadonna White' will bloom continuously from July until October.

Echinacea purpurea Ruby Star

Plant in:

Sun

Coneflower

Pink

Height: 30-36"

Width: 24"

Flower

Months:6-8

Zone:

Deep pink flowers that are flat in form and can reach 6" across emerge on strong stems and feature a unique cone that is deep red. 'Ruby Star' blooms all summer until frost.

Echinacea purpurea White Swan

Plant in:

Sun

Coneflower

White

Height: 24-36"

Width: 1-2'

Flower

Months:6-8

Zone:

White Swan' is a perennial garden favorite thanks to white flowers with flatter petals than the species, golden yellow cones, and blooms that last all summer until fall.

Echinacea purpurea

Plant in:

Sun

Coneflower

Pink

Height: 24-36"

Width: 1-2'

Flower

Months:6-8

Zone:

This echinacea has deep pink flowers with lavender undertones centered with brown cones that create a flower form that is flatter than the species. These vigorous plants will bloom from July until frost.

Echinops ritro

Plant in:

Sun

Globe Thistle

Light blue

Height: 2-3'

Width: 2-3'

Flower

Months:6-8

Zone:

With larger and brighter flowers than the species and a more compact habit. The blooms last from July to September over heavily divided gray-green foliage.

Fleabane Daisy

Blue

Height: 23-27"

Width: 18-23"

Flower

Months:6-8

Zone:

Fleabane Daisies produce a showy summer-long display. This selection has double lavender-blue flowers for many weeks, over a bushy clump of green foliage. Excellent cut flowers for the summer border.

Erinus alpinus

Plant in:

Fairy Foxglove

Light Purple

Height: 2-3"

Width: 12-18"

Flower

Months:6-8

Zone:

Tufted groundcover with violet red flowers May-July. Sun to part shade, gritty, well drained soil. Flowers in spring and self seeds. Use in troughs, rock gardens, crevices, rock walls, along paths. Hardy

Erodium chamaedryoides

Plant in:

Sun Part Sun Shade

Alpine geranium

Dark Pink

Height: 1-6"

Width: 2-3'

Flower

Months: Spring

Zone:

Alpine geranium forms very compact mats of dark green leaves and has double flowers of a deep rose pink. Drought tolerant, great ground cover.

Sea Holly

Lt Blue

Height: 2-3'

Width: 2-3'

Flower

Months: Summer

Zone:

Pressing upward through fine saw-toothed, green succulent-like leaves, an abundance of multibranched pewter-blue stems yields shimmering blue pincushions perched on spiny collars. Flower spikes make long lasting cut flowers.

Sea Holly

Deep Blue

Height: 10-12"

Width: 12-18"

Flower

Months: Summer

Zone:

Sea Holly features open umbels of prickly steel-blue flowers, which are a favourite for cutting, fresh or dried. This unique dwarf strain is ideal for the front of a sunny border or in mixed containers. The short stems produce metallic-blue sprays that remain attractive for weeks.

Wall Flower

Orange

Height: 12-18"

Width: 18-24"

Flower

Months: Summer

Zone:

Long clusters of fragrant, gold-orange flowers and narrow, oblong foliage with a round, bushy habit. Grows up to 18" tall. It will glow in the spring border!

Euonymus fortunei Colorata

Plant in:

Wintercreeper

Green

Height: 6-12"

Width: 24-36"

Flower

Months: Summer

Zone:

The hardiest of the many selection of wintercreeper. Plants form a dense carpet of dark green leaves with a coarse to medium texture. Foliage turns dusky purple during the colder months but remains evergreen except in very cold regions. Does not flower

Eupatorium altissimum Prairie Jewel

Plant in:

Sun Part Sun

Joe Pye Weed

White

Height: 24-36"

Width: 36-48"

Flower

Months: Summer

Zone:

Clusters of lovely white flowers adorn this handsome, rugged, pest-free Prairie Jewel.

Joe Pye Weed

Red

Height: 24-36"

Width: 36-48"

Flower

Months: Summer

Zone:

Choice selection with clusters of red flowers July-September. Coarsely toothed foliage with wine red stems. Prefers rich, moist soil.

Joe Pye Weed
White

Height: 24-36"

Width: 36-48"

Flower

Months: Summer

Zone:

Striking bronze-purple foliage. Creamy-white flower panicles in late summer-early fall.

Euphorbia dulcis Chameleon

Plant in:

Sun Part Sun

Spurge

Green yellow

Height: 12-18"

Width: 18-24"

Flower

Months: Spring

Zone:

A great foliage accent, especially with silver leaved plants, the deep purple leaves and flower stalks of 'Chameleon' are infused with green while offering tiny purple-green flower clusters. Shear after flowering to encourage a dense mound.

Euphorbia myrsinites

Plant in:

Sun Part Sun

Donkey Tail Spurge

Yellow

Height: 4-6"

Width: 9-12"

Flower

Months: Spring

Zone:

Whorled blue-green rosettes and an unusual prostrate habit makes this plant a glorious trailer around the patio or a sprawling groundcover in the border. The blue-green stems will be topped with yellow flowers in June.

Euphorbia polychroma

Plant in:

Sun Part Sun

Cushion Spurge

Light yellow

Height: 9-12"

Width: 12-24"

Flower

Months: Spring

Zone:

A herald of spring, this tough, mound-shaped plant offers chartreuse flowers that will bloom for a long period in May and foliage that turns dark red in the fall. To encourage a full habit, shear back after flowering.

Athyrium filix-femina Frizelliae

Plant in:

Part Sun Shade

Fern

Green

Height: 12-18"

Width: 15"

Flower

Months: Spring - Fall

Zone:

Athyrium 'Frizelliae', has archinensisg fronds made up of rolled and whorled pinnae giving it the look of little beads strung together on each stem.

Athyrium filix-femina

Plant in:

Part Sun Shade

Fern

Green

Height: 12-18"

Width: 2-3'

Flower

Months: Spring - Fall

Zone:

A vigorous clump forming fern which has frilly "leaflets" on the end of each frond, 'Cristata' was part of the Victorian "fern passion" of the 1800's.

Athyrium Ghost

Plant in:

Part Sun Shade

Fern

Green

Height: 2-3'

Width: 2-3'

Flower

Months: Spring - Fall

Zone:

A beautiful, clump forming, rigidly upright fern, 'Ghost' features unique silver-gray foliage and can be planted anywhere in the shade garden - even in rather dry conditions.

Athyrium filix-femina Lady in Red

Plant in:

Part Sun Shade

Fern

Green

Height: 2-3'

Width: 2-3'

Flower

Months: Spring - Fall

Zone:

A naturalistic yet eye-catching variety! The bright medium green fronds with beautiful burgundy colored stems will look lovely paired with burgundy heuchera foliage.

Athyrium nipponicum Pictum

Plant in:

Part Sun Shade

Fern

Green

Height: 18-20"

Width: 18-28"

Flower

Months: Spring - Fall

Zone:

Add excitement to shady spots with this unique Japanese Painted Fern! The evergreen foliage is lush green for the first two seasons before changing to shimmering fronds of silver and burgundy.

Athyrium nipponicum Red Beauty

Plant in:

Part Sun Shade

Fern

Green

Height: 18-24"

Width: 18-28"

Flower

Months: Spring - Fall

Zone:

A vigorous grower, the silvery-green fronds will develop bright red stems and veins over time as its broad habit spreads out and creates an excellent groundcover for moist, shady areas.

Dryopteris erythrosora Autumn

Plant in:

Part Sun Shade

Fern

Green

Height: 18-24"

Width: 24-36"

Flower

Months: Spring - Fall

Zone:

New growth is copper-pink but matures to a lustrous medium green. New copper growth continues through the summer and adds interest to the semi-evergreen fronds.

Matteuccia struthiopteris Ostrich

Plant in:

Part Sun Shade

Fern

Green

Height: 36-60"

Width: 3-5"

Flower

Months: Spring - Fall

Zone:

A large and showy native grower, this is the "fiddlehead" fern. The graceful light green fronds get gigantic and will be tolerant of sun as long as there's an adequate amount of moisture.

Filipendula hexapetala

Plant in:

Sun Part Sun

Meadowsweet

White

Height: 2-3'

Width: 18-36"

Flower

Months:6

Zone:

Elegantly divided deep green leaves and creamy-white flowers are borne on graceful feathery plumes. Requires no care whatsoever.

Filipendula vulgaris Kakome

Plant in:

Sun Part Sun

Dropwort

Rosy Pink

Height: 12-15"

Width: 2-4'

Flower

Months:6

Zone:

Compact mounds of deep green, crinkled foliage give rise to cloud-like, rosy-pink flowers. This dwarf plant will also withstand drier soils.

Filipendula purpurea

Plant in:

Sun Part Sun

Meadowsweet

Pink

Height: 2-3'

Width: 18-36"

Flower

Months:6

Zone:

A plant that will spread rapidly to colonize naturalistic and wet areas, will produce tall, foamy, fragrant masses of pink tinged white flowers from June to July.

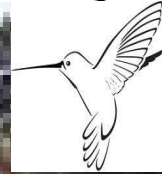

Filipendula rubra Venusta

Plant in:

Sun Part Sun

Queen of the Prairie

Peach

Height: 4-7'

Width: 3-6'

Flower

Months:6

Zone:

Masses of cloud-like, peach-pink flowers appear in June to July on plants that spread quickly by underground runners.

Hedera helix English

Plant in:

Sun

English Ivy

Green

Height: 12”

Width: 24-36”

Flower

Months:N/A

Zone:

English ivy is an evergreen vine. Leaves are dark-green and waxy with palmate veins. Leaf shape is very variable, but commonly occurs as a 3-5 lobed leaf with a heart-shaped base

Hedera helix Thorndale

Plant in:

Sun

English Ivy

Green

Height: 3-5”

Width: 24-36”

Flower

Months:N/A

Zone:

Vigorous, evergreen, self-clinging or trailing vine with 3- to 5-lobed, glossy leaves. Very hardy and trouble-free, it should be used as a ground cover.

Fragaria Lipstick

Plant in:

Sun

Strawberry

Height: 8"

Width: 18"

Flower

Months:5-6

Zone:

Plant Strawberries in full sun to partial shade in fertile well drained soil.

Gaillardia aristata Arizona Red Shades

Plant in:

Sun Part Sun

Blanket Flower

Orange Red

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

Well-branched, uniform plants produce masses of brick red blooms with darker central cones throughout the summer.

Gaillardia grandiflora Arizona Sun

Plant in:
Sun Part Sun

Blanket Flower

Orange Red

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

Fiery orange-red petals tipped in rich yellow are produced continuously all summer.

Gaillardia grandiflora Burgundy

Plant in:
Sun Part Sun

Blanket Flower

Burgundy

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

Claret-red, semi-double flowers appear all summer long on this drought tolerant plant that makes an excellent addition to any perennial garden.

Gaillardia grandiflora Dazzler

Plant in:
Sun Part Sun

Blanket Flower

Red Yellow

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

This "dazzling" variety features scarlet-red flowers with bright yellow tips that will provide vibrant color all summer long!

Gaillardia grandiflora Fanfare

Plant in:

Sun Part Sun

Blanket Flower

Red Yellow

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

Fanfare' will form a neat, compact habit and flower all summer with trumpet-shaped scarlet florets that are tipped in yellow. The flowers flare out from a deep scarlet center disk and bloom all summer with deadheading.

Gaillardia grandiflora Goblin

Plant in:
Sun Part Sun

Blanket Flower

Red Yellow

Height: 12-15"

Width: 12-15"

Flower

Months: June – September

Zone:

Scarlet-red petals with sunny yellow tips surround the reddish-brown, button-like center of this variety and are highly valued for their hot red and yellow hues that attract butterflies.

Gaillardia grandiflora Golden Goblin

Plant in:

Sun Part Sun

Blanket Flower

Yellow

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

A low maintenance and compact plant, masses of golden yellow daisy-like flowers bloom all summer on this variety that not only tolerates dry soils but will actually thrive on neglect!

Gaillardia grandiflora Mesa Yellow

Plant in:

Sun Part Sun

Blanket Flower

Yellow

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

A low maintenance and compact plant, masses of golden yellow daisy-like flowers bloom all summer on this variety that not only tolerates dry soils but will actually thrive on neglect!

Gaillardia grandiflora Monarch Strain

Plant in:

Sun Part Sun

Blanket Flower

Red and yellow

Height: 18-24"

Width: 18-24"

Flower

Months: June – September

Zone:

Monarch' is a Gaillardia strain featuring mixed red and yellow bicolor blooms. This is the large cultivar growing to 36". 'Monarch has an extremely long bloom period with attractive flowers from

Galium odoratum

Plant in:

Sun Part Sun Shade

Sweet Woodruff

White

Height: 2-3"

Width: 4-6'

Flower

Months: April – June

Zone:

Sweet woodruff is a mat-forming perennial that is most often grown as a ground cover in shady areas. Small, fragrant, 4-petaled, white flowers appear in spring.

Gaura lindheimeri Siskiyou Pink

Plant in:

Sun Part Sun

Butterfly Flower

Pink

Height: 12-16"

Width: 12-16"

Flower

Months: April – September

Zone:

A flurry of white flowers with a hint of pink dance like butterflies on graceful stems that emerge pink changing to green.

Gaura lindheimeri Whirling Butterflies

Plant in:

Sun Part Sun

Butterfly Flower

Pink

Height: 3-4'

Width: 3-4'

Flower

Months: April – September

Zone:

The tall wispy stems of this variety showcase pink buds that open to white flowers flushed barely pink from June until frost. Delicate foliage of deep green.

Gaura lindheimeri The Bride

Plant in:

Sun Part Sun

Butterfly Flower

White

Height: 2-4'

Width: 2-4'

Flower

Months: April – September

Zone:

Gaura 'The Bride' forms a mat of soft foliage that contrasts beautifully with the delicate white flowers held on long thin stems

Geranium cantabrigiense Biokovo

Plant in:

Sun Part Sun

Cranesbill

Reddish Pink

Height: 10-12"

Width: 1-3'

Flower

Months: April – September

Zone:

White flowers flushed with a beautiful shade of reddish-pink appear in June over fragrant, deep green, waxy foliage that will turn excellent shades of red-orange in the fall.

Geranium endressii Wargrave Pink

Plant in:

Sun Part Sun

Cranesbill

Pink

Height: 18-24"

Width: 18-24"

Flower

Months: April – September

Zone:

Popular, vigorous variety forming clumps of light green foliage. Pink flowers held well above foliage.

Geranium Johnsons Blue

Plant in:
Sun Part Sun

Cranesbill

Purple

Height: 24-36"

Width: 24-36"

Flower

Months: April – September

Zone:

A tall, old-fashioned variety with large, rich, purple-blue flowers that appear in June over soft billowy mounds of gray-green, quilted foliage.

Geranium Orkney Cherry

Plant in:

Sun Part Sun

Cranesbill

Pink

Height: 10-12"

Width: 24"

Flower

Months: April – September

Zone:

A tall, old-fashioned variety with large, rich, pink flowers that appear in June over soft billowy mounds of gray-green, quilted foliage.

Geranium sanguineum Pink Candy

Plant in:

Sun Part Sun

Cranesbill

Pink

Height: 12-18"

Width: 1-3'

Flower

Months: April – September

Zone:

Bright pink flowers bloom all summer long over this variety's small, deeply divided foliage that will form a spreading mound. Excellent fall color will provide extended interest.

Geranium sanguineum Max Frei

Plant in:

Sun Part Sun

Cranesbill

Pink

Height: 6-8"

Width: 1-2'

Flower

Months: April – September

Zone:

The deep magenta flowers of 'Max Frei' bloom all summer over low, compact mounds of deep green, heavily divided foliage.

Geranium sanguineum Striatum

Plant in:

Sun Part Sun

Cranesbill

Pink

Height: 6-8"

Width: 1-2'

Flower

Months: April – September

Zone:

Light pink flowers with dark veining are produced in abundance all summer long on this variety that forms a compact mound of deeply divided, dark-green foliage.

Geranium sanguineum Vision Light Pink

Plant in:

Sun Part Sun

Cranesbill

Pink

Height: 6-8"

Width: 10-14"

Flower

Months: April – September

Zone:

Shell-pink flowers bloom all summer over small, deeply divided, deep green foliage that will create a low mound and offer good red fall color.

Geranium sanguineum Vision Violet

Plant in:

Sun Part Sun

Cranesbill

Purple

Height: 1-2'

Width: 1-2'

Flower

Months: April – September

Zone:

Vivid masses of purple-pink blooms are produced all summer over a sprawling mound of deep green, heavily divided foliage.

Geranium sanguineum

Plant in:

Sun Part Sun

Cranesbill

Magenta

Height: 12-18"

Width: 1-3'

Flower

Months: April – September

Zone:

Bright magenta flowers bloom all summer long over this variety's small, deeply divided foliage that will form a spreading mound. Excellent fall color will provide extended interest.

Geranium striatum Splish Splash

Plant in:
Sun Part Sun

Cranesbill

Blue

Height: 26-30"

Width: 18-24"

Flower

Months: April – September

Zone:

Splish Splash is a fantastic newer hybrid, and grows into a larger plant than most, reaching 30 inches. And the flowers are unique--like white petunias with splashes of blue ink--real beauties.

Geranium Tiny Monster

Plant in:

Sun Part Sun

Cranesbill

Magenta

Height: 12-18"

Width: 1-3'

Flower

Months: April – September

Zone:

Bright magenta flowers bloom all summer long over this variety's small, deeply divided foliage that will form a spreading mound. Excellent fall color will provide extended interest.

Geum coccineum Cooky

Plant in:

Sun

Avens

Orange

Height: 12-14"

Width: 8-12"

Flower

Months:6-7

Zone:

Cooky' features vibrant orange flowers from May to August that are elegantly branched on low-growing rosette plants with attractive, tufted leaves.

Geum flora plena Double Bloody Mary

Plant in:

Sun

Avens

Red

Height: 12-14"

Width: 12-14"

Flower

Months:6-7

Zone:

Double red flowers. Grown for attractive hairy foliage and long blooming cheerful flowers in summer. Saucer shaped flowers are held high above foliage on long erect stems.

Avens

Yellow

Height: 12-14"

Width: 12-14"

Flower

Months:5-6

Zone:

Grown for attractive hairy foliage and long blooming cheerful yellow flowers in summer. Saucer shaped flowers are held high above foliage on long erect stems.

Geum triflorum

Plant in:

Sun

Avens

Pink

Height: 6-24"

Width: 6-24"

Flower

Months:6-7

Zone:

Perhaps the most distinguishing feature of this North American native prairie plant is not the reddish pink to purplish, nodding, globular flowers that bloom in late spring, but the fruiting heads which follow

Andropogon gerardii Big Blue Stem

Plant in:

Sun

Turkey's foot grass

Green Maroon

Height: 36"

Width: 16-18"

Flower

Months: 7-8

Zone:

Big Bluestem is a perennial bunchgrass with blue-green stems. The seedhead is usually branched into three parts and resembles a turkey's foot. Fall color is maroonish-tan.

Prairie Blue Grass

Blue Green

Height: 20-24"

Width: 20-24"

Flower

Months: 7-8

Zone:

Prairie Blues forms dense and tidy high clumps of upright, stiff, thin, ribbon-like, greyish-blue foliage. Its leaves turn orange red in fall.

Sideoats Grass

Green Tan

Height: 2-3'

Width: 3-6'

Flower

Months: 7-8

Zone:

Side-oats grama is a bunchy or sod-forming grass with wiry clumps. Purplish, oat-like spikelets uniformly line one side of the stem, bleaching to a tan color in the fall.

Carex comans Bronzita

Plant in:

Sun

Dead Head Sedge

Brown

Height: 1-2'

Width: 2-3'

Flower

Months:6-7

Zone:

Long thin, arching foliage is evergreen and an unusual bronze color. Great in mass or specimen.

Leatherleaf Sedge

Orange Brown

Height: 1-2'

Width: 2-3'

Flower

Months:6-7

Zone:

The foliage is an orange-brown to a copper- bronze color, giving this grass a dried look when it is actually actively growing.

Carex testacea Prairie Fire

Plant in:

Sun

Prairie Fire Sedge

Green Bronze

Height: 8-10"

Width: 4-8'

Flower

Months:6-9

Zone:

Carex Prairie Fire has attractive green/bronze foliage that erupts into a gorgeous red color resembling burning embers.

Wild Oats

Green

Height: 2-3'

Width: 1-3'

Flower

Months: 6-7

Zone:

Drooping seed heads in late June hang in clusters from arching stems topping an upright clump of bamboo-like foliage. Green leaves turn copper in fall and the seed heads emerge green but turn purplish bronze by late summer then dry to a straw color.

Northern Sea Oats

Variegated

Height: 30-36"

Width: 24-36"

Flower

Months:6-7

Zone:

River Mist is a new introduction that provides a striking green and white variegated foliage that is second to none

Erianthus ravennae

Plant in:

Sun

Ravennae Grass

Green

Height: 9-12'

Width: 6-8'

Flower

Months: 7-8

Zone:

Ravenna Grass is a very tall, large plant. Large, plume-like flowers form in late summer and these can be dried for indoor arrangements

Festuca Festina

Plant in:

Sun Part Sun

Blue Fescue

Green

Height: 1-2'

Width: 1-2'

Flower

Months:6-7

Zone:

an evergreen ornamental bunch grass

Festuca glauca Boulder Blue

Plant in:

Sun

Blue Fescue

Blue Green

Height: 1-2'

Width: 1-2'

Flower

Months:6-7

Zone:

an evergreen ornamental bunch grass

Festuca glauca Elijah Blue

Flower

Months:6-7

Zone:

an evergreen ornamental bunch grass

Isolepsis cernua Live Wire

Plant in:

Sun

Fiber Optic Grass

Lime Green

Height: 1-2'

Width: 1-2'

Flower

Months:5-10

Zone:

A grass-like rush relative with very fine bright green leaves that are hairlike

Juncus effusus Big Twister

Plant in:

Sun Part Sun

Common Rush

Green

Height: 2-3'

Width: 1-2'

Flower

Months:N/A

Zone:

grown for its stiff, upright, blue-green foliage Leaves are round and stem-like, with a unique corkscrew spiral.

Juncus effusus Spiralis

Plant in:

Sun Part Sun

Common Rush

Green

Height: 2-3'

Width: 1-2'

Flower

Months:N/A

Zone:

grown for its stiff, upright, blue-green foliage Leaves are round and stem-like, with a unique corkscrew spiral.

Juncus inflexus Blue Arrows

Plant in:

Sun

Common Rush

Green

Height: 2-3'

Width: 1-2'

Flower

Months:6-7

Zone:

Grown for its stiff, upright, blue-green foliage, Blue Arrows is well-suited to annual bedding and mixed containers

Koeleria glauca Coolio

Plant in:

Sun

Koeleria

Light Green

Height: 1-2'

Width: 1-2'

Flower

Months:6-7

Zone:

Plants produce a small, blue-green "ball" of foliage topped by wheatlike plumes in mid-Summer. Stands up to drought well.

Bunny Tails

Green

Height: 3-4'

Width: 3-4'

Flower

Months:6-7

Zone:

Ornamental grass 12 to 10 inches tall, 12 inches wide, with soft, fluffy 2½-inch light green blooms that turn tan in fall

Milium effusum Aureum

Plant in:

Sun Part Sun

Golden Millet

Green

Height: 24-30"

Width: 16-24"

Flower

Months:N/A

Zone:

Aureum' is a lovely shade tolerant grass with delicate yellow blades in spring that change to lime in summer. Interesting airy seedheads provide extended interest.

Striped Grass

Striped Green

Height: 4-5'

Width: 3-4'

Flower

Months:7-9

Zone:

Gold Bar is a clump-forming grass that is noted for its horizontally banded yellow and green foliage, dense-upright-rigid growth habit, compact shape and late flowering

Miscanthus sinensis

Plant in:

Sun

Japanese Silver Grass

Green

Height: 3-8'

Width: 3-5''

Flower

Months:7-9

Zone:

This grass has a medium to thin blade that tends to arch to the ground appearing to be fountain like at the top. Foliage from green, to silver blue to white and yellow variegation. Spectacular feather flower plumes appear in late summer.

Switch Grass

Green Bronze

Height: 5-7'

Width: 2-4'

Flower

Months: 7-9

Zone: 5

Cloud Nine' features light metallic blue blades that are wider than other Panicums and amber colored, cloud-like seed heads in September. It will grow very tall and form clumps over time.

Fountain Grass

Burgundy Pink

Height: 3-6'

Width: 1-3'

Flower

Months:6-9

Zone:

Pennisetum 'Fireworks' is the first variegated purple fountain grass. The midvein is the typical burgundy color and is flanked by hot pink

Pennisetum setaceum Rubrum

Plant in:

Sun

Fountain Grass

Maroon Pink

Height: 30-36"

Width: 18-24"

Flower

Months:6-9

Zone:

Upright arching. Waves of gracefully nodding soft purple plumes arch up and out from burgundy-tinted foliage in true fountain grass form.

Phalaris arundinacea Feeseys

Plant in:

Sun Part Sun

Love Grass

Green Pink

Height: 2-4'

Width: 2-6'

Flower

Months:6-9

Zone:

Feeseys is called weeping love grass with green and white striped foliage is blushed with pink and burgundy

Phalaris arundinacea Ribbon var Picta

Plant in:

Sun Part Sun

Ribbon Grass

Variegated

Height: 2-4'

Width: 2-6'

Flower

Months:6-9

Zone:

Cool season grass; white striped leaves; spreads by rhizomes can be grown as a ground cover or container plant

Little Bluestem

Purple to blue

Height: 40-48"

Width: 20-24"

Flower

Months: 8-10

Zone:

Little Bluestem is a warm-season grass. Warm-season grasses won't start growing until mid to late spring or even early summer. Beautiful foliage colors that change with the weather

Little Bluestem

Purple to Blue

Height: 2-4'

Width: 2-4'

Flower

Months: 8-10

Zone:

Delicate and inconspicuous inflorescence in late summer; becomes silvery when dried; remains attractive in winter

Indian Grass

Green to Blue

Height: 4-5'

Width: 24"

Flower

Months: 7-9

Zone:

Indian Grass features upright clumps of slender, blue-green leaves that turn golden yellow in fall. Stiff, vertical flowering stems topped with 12" long, narrow, auburn flower heads rise well above the foliage in late August.

Prairie Dropseed

Green

Height: 12-20"

Width: 18"

Flower

Months:6-7

Zone:

Prairie dropseed is a perennial, warm season grass which produces a mophead of emerald green, hair-like foliage accompanied by tall airy stems of fragrant pink flowers in late summer.

Stipa tenuissima Pony Tails

Plant in:
Sun Part Sun

Pony Tails

Height: 36”

Width: 18-24”

Flower

Months:6-7

Zone:

Fountains of hair-like green leaves topped by silver blooms. Shade and drought tolerant.

Gypsophila Pacifica Pink

Plant in:

Babys Breath

Pale Pink

Height: 3'

Width: 3'

Flower

Months: 6-7

Zone:

Gypsophila pacifica makes a great filler between roses, shrubs and large perennials. The airy sprays of flowers are good for fresh or dried arrangements.

Gypsophila paniculata Snow White Double

Plant in:

Sun Part Sun

Babys Breath

White

Height: 3'

Width: 3'

Flower

Months: June-July

Zone:

The double white flowers of 'Snow White' emerge in June through July over a compact mound of gray-green foliage.

Gypsophila repens Rosea

Plant in:
Sun Part Sun

Babys Breath

Rose Pink

Height: 3'

Width: 3'

Flower

Months: June-July

Zone:

This semi-evergreen mat former will produce loose panicles of star-shaped pink flowers for up to two months! An excellent choice for the front of the border or a rock garden.

Gypsophila repens White

Plant in:
Sun Part Sun

Babys Breath

White

Height: 2-4"

Width: 1-3'

Flower

Months: June-July

Zone:

This semi-evergreen mat former will produce loose panicles of star-shaped white flowers for up to two months! An excellent choice for the front of the border or a rock garden.

Gypsophila fastigiata Silverstar

Plant in:

Sun Part Sun

Babys Breath

White

Height: 3'

Width: 3'

Flower

Months: June-July

Zone:

This semi-evergreen creeper will produce loose panicles of star-shaped white flowers for up to two months! An excellent choice for the front of the border or a rock garden.

Helenium autumnale Helena Mix

Plant in:

Sun Part Sun

Helena Flower

Redish Orange

Height: 2-3'

Width: 2-3'

Flower

Months: June - August

Zone:

'Helena Mix' is a deciduous perennial with green leaves, countless small red, bronze and golden-yellow flowers on well-branched, upright stems from summer to autumn.

Sun Rose

Green foliage, Pink Flowers

Height: 10”

Width: 18”

Flower

Months:6-7

Zone:

The fragile, crinkly blooms of rockrose look like small, delicate, roses, but this tough, shrubby perennial can stand up to considerable heat and drought. It has a low, spreading habit and fine stems lined with small, fuzzy, gray-green leaves that resist water loss.

Orange Sunflower

Green Foliage, Yellow Flowers with Brown Eye

Height: 36-48"

Width: 24"

Flower

Months:6-7

Zone:

These golden yellow flowers with deep mahogany centers appear over dark red stems with dark foliage. leave the seed-filled flower heads to attract wild birds in fall.

Orange Sunflower

Green Foliage, Yellow Flowers with Brown Eye

Height: 36-48"

Width: 18"

Flower

Months:6-7

Zone:

Plants form a tall, bushy clump of dark green leaves, bearing branching heads of large 4 inch golden-yellow daisy flowers, semi-double in this selection. Outstanding cut flowers

Hemerocallis Autumn Red

Plant in:
Sun Part Sun

Daylily

Red

Height: 36"

Width: 24-36"

Flower

Months: Summer

Zone:

Deep red blooms with yellow-orange throat begin mid-summer. Tall, Repeat bloomer that holds its color well.

Hemerocallis Bonanza

Plant in:

Sun Part Sun

Daylily

Maroon and gold

Height: 24-36"

Width: 24-36"

Flower

Months: Summer

Zone:

Maroon and gold blooms appear atop tall stalks in the middle of the summer. A nice contrast in the perennial garden and a good rebloomer.

Hemerocallis Breathless Beauty

Plant in:
Sun Part Sun

Daylily

Red/Purple

Height: 24-36"

Width: 24-36"

Flower

Months: Summer

Zone:

This daylily features red and purple blooms for a nice contrast in mid-summer. Though not known for its reblooming capacity, it does enjoy a fairly extensive 6-8 week blooming period.

Hemerocallis Catherine Woodbury

Plant in:

Sun Part Sun

Daylily

Pale Pink

Height: 24-36"

Width: 24-36"

Flower

Months: Summer

Zone:

A mid to late season bloomer, this daylily offers a soft touch with its pale pink blooms. Works well in conjunction with other daylilies of sharper or brighter color in mass plantings.

Hemerocallis Chicago Picotee Lace

Plant in:

Sun Part Sun

Daylily

Lavender

Height: 18-24"

Width: 18-24"

Flower

Months: Summer

Zone:

Lavender blooms with a cream throat adorn this daylily in midsummer and usually last until frost. Relatively dwarf for a daylily, this variety could be used as a suitable border or edge.

Daylily

Pink

Height: 24-36”

Width: 24-36”

Flower

Months: Summer

Zone:

This daylily is a medium grower with a soft cotton candy bloom. One of the earliest spring bloomers and will rebloom into the summer.

Hemerocallis Double Dream

Plant in:
Sun Part Sun

Daylily

Apricot

Height: 12-18”

Width: 18-24”

Flower

Months: Summer

Zone:

Small apricot double blooms dot this daylily early in spring with a steady rebloom into summer. As a modestly dwarf plant, it can be used in mass or as a border plant.

Hemerocallis Double Talk

Plant in:
Sun Part Sun

Daylily

Yellow

Height: 18-24”

Width: 24-36”

Flower

Months: Summer

Zone:

Golden to almost orange blooms on this daylily appear in late season, middle to late August. It does rebloom well until frost.

Hemerocallis Evening Gown

Plant in:
Sun Part Sun

Daylily

Apricot

Height: 24-36"

Width: 24-36"

Flower

Months: Summer

Zone:

Single apricot blooms come on in late season and will show color until frost.

Hemerocallis Frans Hals

Plant in:

Sun Part Sun

Daylily

Bicolor, red and gold

Height: 22"

Width: 24"

Flower

Months: Summer

Zone:

Bicolor, red and gold, and slightly fragrant blooms atop this clumping low-maintenance perennial. Late summer bloomer.

Hemerocallis Gentle Shepherd

Plant in:

Sun Part Sun

Daylily

White

Height: 24-36"

Width: 18-24"

Flower

Months: Summer

Zone:

Gentle Shepherd is fairly upright for a daylily. Medium sized with bright white single blooms. Early season bloomer.

Hemerocallis George Caleb Bingham

Plant in:

Sun Part Sun

Daylily

Pink/Purple

Height: 24-36”

Width: 24-36”

Flower

Months: Summer

Zone:

Pink to purple striped single blooms come on midseason for a splash of color in the perennial garden. Its bladelike foliage offers a strong presence as well.

Hemerocallis Halls Pink

Plant in:
Sun Part Sun

Daylily

Pink

Height: 24-36"

Width: 15-18"

Flower

Months: Summer

Zone:

Soft pink blooms on grasslike foliage are small and particularly good in mass plantings. Though tall themselves, these daylilies are good companion plants for even taller shrubs. Good late season color.

Daylily

Lemon-yellow

Height: 15”

Width: 18”

Flower

Months: Summer

Zone:

This relatively low growing daylily sports bright lemon-yellow blooms from early summer until September.

Hemerocallis Hyperion

Plant in:

Sun Part Sun

Daylily

Yellow

Height: 36"

Width: 30"

Flower

Months: Summer

Zone:

Yellow blooms appear over grasslike foliage from June to early August. This daylily is a taller variety and could be enjoyed as much for its ornamental grass look as the bloom.

Hemerocallis Lilac Beauty

Plant in:
Sun Part Sun

Daylily

Lilac

Height: 30-34"

Width: 18-24"

Flower

Months: Summer

Zone:

Five inch lilac rose bloom with slightly darker watermark, faint pink ruffled edge and chartreuse throat has almost perfect round form. Ruffled. Very fragrant. Extended bloom

Daylily

Red

Height: 12-15”

Width: 15-18”

Flower

Months: Summer

Zone:

Perhaps the most dwarf form of daylily we carry, Little Business carries its raspberry blooms starting in early summer and reblooming throughout. A great edge and border plant.

Hemerocallis Mary Reed

Plant in:

Sun Part Sun

Daylily

Lavender/Purple

Height: 12-18"

Width: 9-12"

Flower

Months: Summer

Zone:

A dwarf variety that can fill spaces in the perennial garden with lavender to purple blooms in midsummer. They do rebloom and show color throughout the summer months.

Hemerocallis Mini Eenie Allegro

Plant in:
Sun Part Sun

Daylily

Pink

Height: 12”

Width: 12”

Flower

Months: Summer

Zone:

A compact dwarf perennial with showy pink blooms from late spring into summer. Erect, grasslike blades are great in containers or as a border.

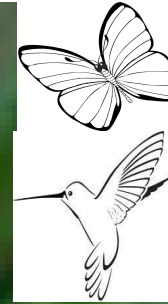

Hemerocallis Pardon Me

Plant in:

Sun Part Sun

Daylily

Pink/Purple

Height: 12-18"

Width: 15-18"

Flower

Months: Summer

Zone:

A reliable dwarf size daylily with pink to purple blooms. Color from summer to fall looks great as a filler in containers or in your perennial garden.

Hemerocallis Petite Ballet

Plant in:
Sun Part Sun

Daylily
Light yellow

Height: 18-24"
Width: 18-24"
Flower
Months: Summer
Zone:

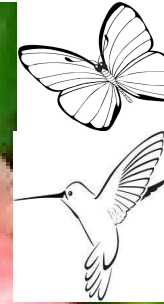

This daylily is a midseason bloomer with a soft yellow flower. It's very nice in a mass planting or as a centerpiece in a large container.

Hemerocallis Prairie Bella

Plant in:
Sun Part Sun

Daylily

Pink

Height: 24-36”

Width: 24-36”

Flower

Months: Summer

Zone:

This pink to rose daylily gives a soft midseason bloom that provides a nice contrast in any perennial garden. A somewhat large bloom stands out in any perennial garden.

Hemerocallis Prairie Blue Eyes

Plant in:
Sun Part Sun

Daylily

Lavender

Height: 28"

Width: 32"

Flower

Months: Summer

Zone:

Bi-color bloomer with striking lavender petals and yellow throats. A mid-summer bloomer of medium size.

Hemerocallis Pretty Woman

Plant in:
Sun Part Sun

Daylily

Soft pink

Height: 24-36"

Width: 24-36"

Flower

Months: Summer

Zone:

A medium-sized midseason bloomer, this soft pink flower will add a comforting splash of color from summer until frost.

Hemerocallis Purple D'Oro

Plant in:
Sun Part Sun

Daylily

Bi-color, lavender and chartreuse

Height: 14”

Width: 12”

Flower

Months: Summer

Zone:

Lavender flowers with chartreuse throats repeat bloom throughout the summer beginning in June. This compact daylily can be used for borders or in containers.

Hemerocallis Rajah

Plant in:

Sun Part Sun

Daylily

Orange/pink

Height: 24-36"

Width: 18-24"

Flower

Months: Summer

Zone:

A striking orange to pink bloom with a yellow throat covers this reliable perennial in summer. The fine grasslike foliage provides a simple contrast in the perennial garden.

Hemerocallis Stella D'Oro

Plant in:
Sun Part Sun

Daylily

Yellow

Height: 18"

Width: 12"

Flower

Months: Summer

Zone:

Bright yellow blooms start in May and last throughout the summer on this consistent performer.

Hemerocallis Vera Bigelow

Plant in:

Sun Part Sun

Daylily

Rose pink

Height: 28"

Width: 32"

Flower

Months: Summer

Zone:

Deep rose pink blooms with a green and yellow throat. This daylily is a mid- to late summer bloomer that add a spark to any perennial garden.

Hemerocallis Whimsical

Plant in:

Sun Part Sun

Daylily

Lavender/pink

Height: 24-36"

Width: 18-24"

Flower

Months: Summer

Zone:

A beautiful striped single bloom of lavender to pink adorns this perennial all summer long. A fairly upright daylily with nice bladelike foliage.

Hemerocallis Wine Delight

Plant in:
Sun Part Sun

Daylily

Pink/Purple

Height: 12-18"

Width: 15-18"

Flower

Months: Summer

Zone:

A pleasant pink to purple single daylily that blooms midseason atop grasslike foliage. A good filler that brings sharp color.

Heuchera Crimson Curls

Plant in:

Sun Part Sun

Heuchera, Coral Bells

Burgundy Foliage, White Flowers

Height: 15”

Width: 12”

Flower

Months:6-7

Zone:

This selection has ruffled and curled bronzy-brown foliage, the contrasting crimson undersides displaying well. Sprays of small creamy-white flowers appear in late spring and summer. Excellent in the border, for edging, or in tubs and mixed containers. Foliage may be tidied up in spring by removing any withered or tired-looking leaves.

Heuchera, Coral Bells

White

Height: 12-18”

Width: 18-24”

Flower

Months: Spring

Zone:

A nice mottled ground cover with white flowers in late spring. Great in mass plantings and can take some heat.

Heuchera, Coral Bells

Light pink

Height:

Width:

Flower

Months: Summer

Zone:

New yellow leaves in spring mature to a rich chartreuse in summer on this ground cover. Longlasting light pink flowers appear in summer.

Heuchera Harvest Silver

Plant in:
Part Sun Shade

Heuchera, Coral Bells

White

Height: 12-18”

Width: 18-24”

Flower

Months: Spring

Zone:

Great mounding perennial with silvery foliage that will brighten any shady spot. Prefers partial-shade or shady areas. White flowers in early summer.

Heuchera Marvelous Marble

Plant in:
Part Sun Shade

Heuchera, Coral Bells

White

Height: 12-18”

Width: 18-24”

Flower

Months: Spring

Zone:

New foliage emerges purple and matures to a mottled deep green. In early summer, becomes dotted with white to lavender flowers that are great for cutting.

Heuchera micrantha Palace Purple

Plant in:
Part Sun Shade

Heuchera, Coral Bells

White

Height: 12-18”

Width: 18-24”

Flower

Months: Spring

Zone:

Dense ground cover also used as edging, this heuchera features deep purple foliage and white flowers in early summer.

Heuchera Plum Pudding

Plant in:
Part Sun Shade

Heuchera, Coral Bells

White

Height: 12-18”

Width: 18-24”

Flower

Months: Spring

Zone:

Foliage emerges a soft purple in spring and matures to a mottled gray-green through the season. Sprays of white flowers in early summer.

Heuchera, Coral Bells

Pink to Red

Height: 18-24"

Width: 10-16"

Flower

Months: Spring

Zone:

Soft green foliage that is slightly more erect than most heuchera. Pink to red blooms in early summer.

Heuchera sanguineum Firefly

Plant in:

Part Sun Shade

Heuchera, Coral Bells

Red

Height: 12-18”

Width: 18-24”

Flower

Months: Spring

Zone:

A sturdy perennial noted mainly for its bright red flowers standing out on bright green foliage in summertime. A big draw for hummingbirds.

Heuchera sanguineum Ruby Bells

Plant in:

Part Sun Shade

Heuchera, Coral Bells

Red

Height: 12-18"

Width: 18-24"

Flower

Months: Spring

Zone:

Compact mounding perennial with deep green foliage. Bright red flowers in early summer stand high on this nice edging or filler plant.

Heuchera Silver Scrolls

Plant in:

Part Sun Shade

Heuchera, Coral Bells

White

Height: 12-18"

Width: 18-24"

Flower

Months: Spring

Zone:

Silver foliage with deep green veins on this compact perennial. White flowers in spring.

Heuchera Stormy Seas

Plant in:
Part Sun Shade

Heuchera, Coral Bells

White

Height: 12-18”

Width: 18-24”

Flower

Months: Spring

Zone:

Purple foliage in early spring matures to grey-purple mottled foliage. White shaded flowers stand above in early summer.

Heucherella alba Bridget Bloom

Plant in:
Part Sun Shade

Heucherella

Pink

Height: 12”

Width: 12”

Flower

Months: Spring

Zone:

Light green foliage with dark centers on this dwarf perennial. Pink flowers in late spring mark the beauty of this edging plant.

Hosta August Moon

Plant in:

Part Sun Shade

Hosta

White

Height: 18-20"

Width: 28-30"

Flower

Months: Summer

Zone:

Low mounding perennial for shade with cupped heart-shaped, golden-yellow leaves. White flowers a show in summer.

Hosta Blue Angel

Plant in:

Part Sun Shade

Hosta

Lavender

Height: 30-36”

Width: 42-48”

Flower

Months: Summer

Zone:

Huge, heart-shaped leaves with a puckered texture. Pale lavender flowers in summer over blue-green foliage. Great for shade.

Hosta Christmas Tree

Plant in:

Part Sun Shade

Hosta

Light lavender

Height: 20-24"

Width: 20-24"

Flower

Months: Summer

Zone:

This perennial for shade features a thin cream edge on deep green rounded, corrugated foliage. Dense and clumping, it can be used in groups or on its own. Blooms in mid-July.

Hosta fortunei Antioch

Plant in:

Part Sun Shade

Hosta

Light lavender

Height: 32-36”

Width: 36-42”

Flower

Months: Summer

Zone:

This shade perennial has green leaves with a striking white edge. It has a fairly loose form and pale lavender flowers in early August.

Hosta fortunei Aureomarginata

Plant in:

Part Sun Shade

Hosta

Pale lavender

Height: 16-18”

Width: 18-20”

Flower

Months: Summer

Zone:

Low mounding perennial with dark olive-green leaves and fairly thin gold margins. Consistent performer.

Hosta fortunei Francee

Plant in:

Part Sun Shade

Hosta

White and lavender

Height: 21-24"

Width: 30-36"

Flower

Months: Summer

Zone:

Medium to low mounding perennial with dark green centers and white margins. Reliable performer.

Hosta fortunei Gold Standard

Plant in:
Part Sun Shade

Hosta

Light lavender

Height: 18-20"

Width: 28-30"

Flower

Months: Summer

Zone:

Mounding perennial for shade. Medium height. Green leaves with dark green margins. Centers brighten to gold in summer.

Hosta fortunei Minuteman

Plant in:
Part Sun Shade

Hosta

Pale lavender

Height: 20-24"

Width: 42-48"

Flower

Months: Summer

Zone:

Slightly cupped, heart-shaped leaves with dark green centers and white margins. Fleshy foliage, and pale lavender flowers in summer.

Hosta fortunei Patriot

Plant in:

Part Sun Shade

Hosta

Lavender

Height: 24-30"

Width: 24-30"

Flower

Months: Summer

Zone:

With bold white margins, this shade perennial has spectacular color and a great mounding form. Lavender blooms in August.

Hosta Golden Tiara

Plant in:

Part Sun Shade

Hosta

Lavender

Height: 24-30"

Width: 24-30"

Flower

Months: Summer

Zone:

Shade perennial with green foliage and a bold golden edge. Medium spreader with tall lavender flowers in August.

Hosta Guacamole

Plant in:

Part Sun Shade

Hosta

Light lavender to blue

Height: 28-32”

Width: 42-48”

Flower

Months: Summer

Zone:

A wide spreading shade perennial, Guacamole sports a green edge with a light gold center that intensifies as the season progresses. Blooms with big light lavender to white fragrant stalks in early August.

Hosta Krossa Regal

Plant in:

Part Sun Shade

Hosta

Pale lavender

Height: 30-36"

Width: 36-48"

Flower

Months: Summer

Zone:

A dependable shade perennial with large lightly blue foliage. Fairly upright with tall pale lavender spikes of blooms in late July.

Hosta Night Before Christmas

Plant in:

Part Sun Shade

Hosta

Lavender

Height: 18-20”

Width: 24-30”

Flower

Months: Summer

Zone:

Fairly low-growing for a hosta, this shade perennial features large 8” long, 3” wide leaves. Dark green edges surrounds a bright white center with lavender flowers in late July and August.

Hosta Royal Standard

Plant in:

Part Sun Shade

Hosta

White

Height: 24"

Width: 18"

Flower

Months: Summer

Zone:

Shade perennial with deeply veined heart-shaped leaves. Fairly contained and upright with white flowers in August.

Hosta Shade Fanfare

Plant in:

Part Sun Shade

Hosta

Lavender

Height: 24-30"

Width: 30-36"

Flower

Months: Summer

Zone:

This mounding shade perennial features pleasant green foliage with a cream edge. Blooms lavender flowers in August.

Hosta sieboldiana Elegans

Plant in:

Part Sun Shade

Hosta

Light lavender

Height: 36"

Width: 30"

Flower

Months: Summer

Zone:

Thick blue-gray foliage is features on this shade perennial. Stocky and mounding with light lavender flowers in August.

Hosta sieboldiana Frances Williams

Plant in:

Part Sun Shade

Hosta

White

Height: 32-36”

Width: 36-42”

Flower

Months: Summer

Zone:

A classic, this shade perennial has large blue-green leaves with sharp golden borders. Tall spikes with white flowers appear in early August.

Hosta sieboldiana

Plant in:

Part Sun Shade

Hosta

White

Height: 36"

Width: 30"

Flower

Months: Summer

Zone:

A standard, this shade perennial is a reliable performer with full green foliage and white flowers in early August.

Hosta Stained Glass

Plant in:

Part Sun Shade

Hosta

Pale lavender

Height: 15-18”

Width: 30-40”

Flower

Months: Summer

Zone:

A shade perennial with brilliant gold foliage and a wide dark green margin. Fragrant pale lavender flowers are borne on tall spikes in August.

Hosta Sum and Substance

Plant in:

Part Sun Shade

Hosta

Light lavender

Height: 30”

Width: 24”

Flower

Months: Summer

Zone:

Very large-leaved shade perennial makes an explosive impact in the landscape. Light lavender flowers in early August. This hosta can tolerate more sun than most.

Hosta tardiana Halcyon

Plant in:

Part Sun Shade

Hosta

Bluish lavender

Height: 30-36”

Width: 36-42”

Flower

Months: Summer

Zone:

A reliable shade perennial with blue colored foliage.
Dense spreader with bluish lavender flowers in August.

Hosta undulata Albomarginata

Plant in:
Part Sun Shade

Hosta

Lavender

Height: 24-30"

Width: 30-36"

Flower

Months: Summer

Zone:

A standard shade perennial with deep green with white edges. Medium sized, dense spreader that blooms lavender in August.

Hosta undulata Mediovariegata

Plant in:
Part Sun Shade

Hosta

Light lavender

Height: 24-30"

Width: 30-36"

Flower

Months: Summer

Zone:

Dense, clumping shade perennial that grows to a medium height. Features slightly contorted leaves with white centers and green margins. Blooms light lavender flowers in early August.

Hosta Wheaton Blue

Plant in:

Part Sun Shade

Hosta

Lavender

Height: 15-18"

Width: 30-36"

Flower

Months: Summer

Zone:

Low spreading shade perennial with blue-green foliage.
Blooms light lavender flowers on tall stalks in August.

Hosta Wide Brim

Plant in:

Part Sun Shade

Hosta

Lavender

Height: 15-18"

Width: 21-24"

Flower

Months: Summer

Zone:

Perennial for shade with large blue-green foliage and creamy yellow borders. Dense and low spreading with lavender flowers that open in late August.

Houttuynia cordata

Plant in:

Sun Part Sun

Chameleon Plant,

Variegated Foliage, White Flowers

Height: 6-12”

Width: 15-20'

Flower

Months:5-7

Zone:

‘Chameleon Plant is one of the most popular ground covers around. Small white flowers appear from July to August, but sometimes are hard to see because of its foliage. Being similar in shape to English Ivy, it features boldly variegated leaves of red, pink, white, green, and yellow. Can be aggressive if not controlled.

Hypericum calycinum

Plant in:

Sun Part Sun

Rose of Sharon

Green foliage, Yellow Flowers

Height: 12”

Width: 12”

Flower

Months:6-7

Zone:

Intense yellow flowers appear above the dark green, low-growing foliage with silvery undersides on their leaves. A nice shrubby habit for a ground cover.

Hypericum moserianum Tricolor

Plant in:

Sun Part Sun

St. John's Wort

Yellow

Height: 24-36"

Width: 18-24"

Flower

Months: Spring/Summer

Zone:

Low but spreading perennial with gorgeous display of yellow flowers from spring to summer. Lovely pink, cream and green foliage is a dense presence until frost.

Iberis sempervirens Alexanders White

Plant in:

Sun Part Sun

Candytuft

White

Height: 8-10"

Width: 12-24"

Flower

Months: Spring

Zone:

A reliable perennial prized for its foliage as well as the tufts of white flowers in spring. A fine edge or ground cover that tolerates dry areas.

Iberis sempervirens Snowflake

Plant in:

Sun Part Sun

Candytuft

White

Height: 6-12"

Width: 12-15"

Flower

Months: Spring

Zone:

A true ground cover that can fill spaces in the perennial garden with sprays of bright white flowers. Tolerates dry areas.

Iris pallida Albo Variegated

Plant in:

Sun Part Sun

Variegated Iris

Lavender

Height: 18”

Width: 12-24”

Flower

Months: Spring-Summer

Zone:

Cream striped variegated blades stand tall throughout the season and into frost. Large lavender blooms with yellow throats adorn in summer. A great texture to have in your perennial garden.

Iris sibirica Blue King

Plant in:

Sun Part Sun

Siberian Iris

Purple

Height: 30"

Width: 18-24"

Flower

Months: Spring-Summer

Zone:

A sturdy and tall perennial with blue/purple and white laced blooms late spring into summer. Good for wet areas.

Iris sibirica Butter Sugar

Plant in:

Sun Part Sun

Siberian Iris

Blend (yellow and white)

Height: 24-36"

Width: 18-24"

Flower

Months: Spring-Summer

Zone:

A tall perennial with yellow and white mixed blooms. (Surprise!) Great summer color from a reliable performer.

Iris sibirica Caesars Brother

Plant in:

Sun Part Sun

Siberian Iris

Violet

Height: 30-36"

Width: 18-24"

Flower

Months: Spring-Summer

Zone:

Fine tall blades display deep violet blooms in early summer. A great contrast in the perennial garden that can handle wet or dry areas.

Iris sibirica Lavender Queen

Plant in:

Sun Part Sun

Siberian Iris

Lavender

Height: 36-48"

Width: 15-18"

Flower

Months: Spring-Summer

Zone:

Tall blades that hold violet to lavender blooms high. A siberian iris with some yellow and white color.

Iris sibirica Painted Desert

Plant in:

Sun Part Sun

Siberian Iris

Purple

Height: 36-48"

Width: 15-18"

Flower

Months: Spring-Summer

Zone:

The variety of blue, purple and white in the blooms of this tall perennial will certainly draw notice. A strong bloomer in early summer, it can handle a wide range of environments.

Iris sibirica Ruffled Velvet

Plant in:

Sun Part Sun

Siberian Iris

Purple

Height: 24-30”

Width: 24-30”

Flower

Months: Spring-Summer

Zone:

A thin erect foliage showcases deep purple blooms through summer. This steady performer can take a wide range of environs and give consistent color.

Iris sibirica Silver Edge

Plant in:

Sun Part Sun

Siberian Iris

Blue and White

Height: 24-30”

Width: 20-24”

Flower

Months: Spring-Summer

Zone:

This iris has a deep blue bloom with white flourish with wispy but profuse color. Blooms in early summer.

Iris sibirica Sky Wings

Plant in:

Sun Part Sun

Siberian Iris

Light lavender

Height: 30-36"

Width: 24"30"

Flower

Months: Spring-Summer

Zone:

Soft lavender blooms relax a perennial garden with sharp colors. A summer bloomer of very low maintenance.

Iris sibirica Snow Queen

Plant in:

Sun Part Sun

Siberian Iris

White

Height: 18-24"

Width: 18-24"

Flower

Months: Spring-Summer

Zone:

A loose grassy iris with plentiful white blooms and yellow centers. A good mass planter for open areas in the perennial garden.

Iris sibirica Super Ego

Plant in:

Sun Part Sun

Siberian Iris

Blue

Height: 24-30"

Width: 15-18"

Flower

Months: Spring-Summer

Zone:

The most blue iris we grow, Super Ego can take hold of the perennial garden with its summer bloom. Tall but not overwhelming, this is a great perennial in mass or even in a large container.

Iris sibirica White Swirl

Plant in:

Sun Part Sun

Siberian Iris

White

Height: 36-42"

Width: 24-30"

Flower

Months: Spring-Summer

Zone:

A tall perennial with a pure white bloom (small yellow center) coloring the garden in midsummer. A great filler, it's a consistent bloomer to brighten any space.

Jasione perennis

Plant in:

Sun

Sheep's Bit

Green foliage, Blue Flowers

Height: 15-20"

Width: 12"

Flower

Months:6-7

Zone:

Excellent round clusters of sky-blue flowers are striking against the greyish-green leaves. Has a great low growing habit, which makes it perfect for containers. Flowers are on tall slender stems and are similar to those of scabiosa. Makes a wonderful cut flower.

Crimson Scabiosa

Green Foliage, Pink to Red Flowers

Height: 36-48"

Width: 24"

Flower

Months:6-7

Zone:

Upright stems bear loads of small pincushion flowers atop a bushy clump of grey-green foliage throughout the summer and into autumn, in a range of shades from crimson through soft mauve and baby pink. This species is especially useful in warm summer regions, growing well in well-drained sunny sites

Crimson Scabiosa

Green foliage, Red Flowers

Height: 20-36"

Width: 12"

Flower

Months:6-7

Zone:

Upright stems bear loads of small crimson red pincushion flowers atop a bushy clump of grey-green foliage throughout the summer and into autumn. This species is especially useful in warm summer regions, growing well in well-drained sunny sites

Red Hot Poker

Green Foliage, Red Orange and Yellow Flowers

Height: 24-32”

Width: 18-24”

Flower

Months:6-7

Zone:

The colorful Flamenco Mix is distinguished by its vibrant spikes of orange, orange-red and yellow flowers that appear in early to midsummer. The densely packed flowers are tubular and appear atop long stems. Bees and hummingbirds will frequent the drooping flowers for nectar and pollen. When not in bloom its bold clumps of linear, coarsely textured, arching leaves add texture to the garden.

Lamium galeobdolan Hermann's Pride

Plant in:

Part Sun Shade

Spotted Deadnettle

Green and Silver Foliage, Yellow Flowers

Height: 12"

Width: 20"

Flower

Months:5-6

Zone:

An oldie but a goodie, this plant is the right answer for shady areas. The deep yellow flowers smother the eye-catching silver and green checkered foliage in spring. The plants superbly ornamental foliage keeps its area looking bright.

Lamium galeobdolan Variegatum

Plant in:

Part Sun Shade

Width: 12-24"

Flower

Months: April - September

Zone:

Lamium is a perennial with densely-packed, ground-covering, bright-green foliage with occasional white markings. In summer, it produces spikes of purple, pink or white flowers.

Lamium maculatum Red Nancy

Plant in:
Part Sun Shade

Spotted Deadnettle

Red

Height: 1"

Width: 12-24"

Flower

Months: April - September

Zone:

Lamium is a perennial with densely-packed, ground-covering, bright-green foliage with occasional white markings. In summer, it produces spikes of purple, pink or white flowers.

Lamium maculatum Shell Pink

Plant in:
Part Sun Shade

Spotted Deadnettle

Pale Pink

Height: 1"

Width: 12-24"

Flower

Months: April - September

Zone:

Lamium is a perennial with densely-packed, ground-covering, bright-green foliage with occasional white markings. In summer, it produces spikes of purple, pink or white flowers.

Lamium maculatum White Nancy

Plant in:

Part Sun Shade

Spotted Deadnettle

White

Height: 1"

Width: 12-24"

Flower

Months: April - September

Zone:

Lamium is a perennial with densely-packed, ground-covering, bright-green foliage with occasional white markings. In summer, it produces spikes of purple, pink or white flowers.

Lathyrus latifolius Mix

Plant in:
Sun Part Sun

Sweet Pea

Pinks Mix

Height: 4-8'

Width: 3-8'

Flower

Months: May - July

Zone:

Pea-like flowers in shades of pink, deep pink and white bloom in August on vigorous gray-green vines.

Lavandula angustifolia Lady

Plant in:

Sun Part Sun

Lavender

Purple

Height: 4-18"

Width: 2-4'

Flower

Months: May - August

Zone:

These compact, bushy plants are uniform in size and shape, making them an excellent variety for edging. Dark blue flowers complete the look.

Lavandula angustifolia Munstead

Plant in:

Sun Part Sun

Lavender

Purple

Height: 4-18"

Width: 2-4'

Flower

Months: May - August

Zone:

Munstead Lavender is a fragrant robust lavender that makes a great hedge. It flowers profusely in the spring, after which a good pruning will provide an attractive gray bush with highly aromatic leaves.

Lavandula angustifolia Vera

Plant in:

Sun Part Sun

Lavender

Purple

Height: 4-18"

Width: 2-4'

Flower

Months: May - August

Zone:

'Vera' is a bushy, evergreen shrub with grey-green foliage. In summer it bears long, slender spikes of fragrant, dark blue-purple flowers. Leaves in the 'Dutch' group tend to be larger than most lavenders

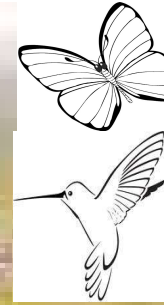

Lavandula angustifolia Hidcote Blue

Plant in:

Sun Part Sun

Lavender

Purple

Height: 4-18"

Width: 2-4'

Flower

Months: May - August

Zone:

A dwarf variety of lavender, 'Hidcote' offers blue-gray foliage and dark violet blue flowers.

Lavandula angustifolia Jean Davis

Plant in:

Sun Part Sun

Lavender

Pink

Height: 4-18"

Width: 2-4'

Flower

Months: May - August

Zone:

Light pink flowers emerge on these dwarf plants that boast silvery gray foliage.

Leontopodium alpinum Edelweiss

Edelweiss Lady's mantle

White

Plant in:
Sun Part Sun

Height: 2-4"

Width: 8-10"

Flower

Months: May - August

Zone:

Edelweiss is a small perennial with grey-green leaves and clusters of small yellow flowers surrounded by that bloom from late spring to early summer

Leucanthemum superbum Aglaia

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 20-24"

Width: 1-2'

Flower

Months: May - August

Zone:

One of the longest blooming daisies, this selection features semi-double white flowers with yellow centers and uniquely fringed petals.

Leucanthemum superbum Alaska

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 20-24"

Width: 1-2'

Flower

Months: May - August

Zone:

Alaska' is a clump-forming, perennial with glossy, cut leaves. In summer, large, single, white daisy-like flowers with yellow centres.

Leucanthemum superbum Becky

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 28-36"

Width: 1-2'

Flower

Months: May - August

Zone:

The classic Shasta Daisy and a former Perennial Plant of the Year, 'Becky' produces a heavy, repeating bloom on vigorous plants with an equally vigorous habit.

Leucanthemum superbum Brightside

Plant in:

Sun Part Sun

Shasta Daisy

Height: 33-34"

Width: 2-4'

Flower

Months: May - August

Zone:

The large, pure white flowers of this variety have yellow centers and act as "butterfly candy" while blooming for up to 2 months with deadheading. The blooms appear over vigorous plants with disease resistant, emerald green foliage.

Leucanthemum superbum Clara Curtis

Plant in:

Sun Part Sun

Shasta Daisy

Pink

Height: 18-24"

Width: 2-4'

Flower

Months: May - August

Zone:

Pretty in pink, this single-flowered daisy is a late bloomer, waiting until the end of summer to enliven the garden with masses of lightly fragrant flowers

Leucanthemum superbum Crazy Daisy

Plant in:

Sun Part Sun

Shasta Daisy

Height: 24-28"

Width: 2-4'

Flower

Months: May - August

Zone:

No two blooms are just alike! A froth of white petals and varying flower shapes add interest to any border or bouquet. 'Crazy Daisy' will bloom prolifically from late June to July.

Leucanthemum superbum Marconi Giant Double

Plant in:

Sun Part Sun

Shasta Daisy

Height: 2-4'

Width: 3-5'

Flower

Months: May - August

Zone:

Marconi' has double white flowers with gold centers . Clump-forming perennial. Fleshy leaves are toothed and glossy, dark-green. Flowers begin blooming in May, with largest show around early June, then continue sporadically until frost.

Leucanthemum superbum May Queen

Plant in:

Sun Part Sun

Shasta Daisy

Height: 20-24"

Width: 1-2'

Flower

Months: May - August

Zone:

'May Queen' produces early, single, "wild looking" white daisies that are excellent for naturalizing.

Shasta Daisy

Height: 2-4'

Width: 4'

Flower

Months: May - August

Zone:

Montauk has white flowers with gold centers . Clump-forming perennial. Fleshy leaves are toothed and glossy, dark-green. Flowers begin blooming in late August and bloom till frost.

Leucanthemum superbum Old Court

Plant in:

Sun Part Sun

Shasta Daisy

Height: 18-24"

Width: 1-2'

Flower

Months: May - August

Zone:

Boasting an unusual flower form, 'Old Court' will produce a large amount of white flowers with very narrow, curling petals around a small yellow center from June to July.

Leucanthemum superbum pacificum

Plant in:

Sun Part Sun

Shasta Daisy

Yellow

Height:

Width:

Flower

Months: May - August

Zone:

pacificum is a low-growing, spreading perennial grown for its dusky grey-green foliage trimmed with silver and late yellow flower clusters.

Leucanthemum superbum Silver Princess

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 18-24"

Width: 1-2'

Flower

Months: May - August

Zone:

Semi-double white flowers with a yellow center emerge on upright stems over the dwarf, bushy habit of this plant.

Shasta Daisy

White

Height: 18-24"

Width: 1-2'

Flower

Months: May - August

Zone:

Single white flowers with yellow centers emerge on this vigorous yet compact plant.

Leucanthemum superbum Snow Lady

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 18-24"

Width: 1-2'

Flower

Months: May - August

Zone:

'Snow Lady' produces dwarf plants that are covered in white daisies with yellow centers in June and continue into late August. Dark green, basal foliage and a tidy growth habit complete the look.

Leucanthemum superbum Snowcap

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 12-18"

Width: 1-2'

Flower

Months: May - August

Zone:

Single white flowers with yellow centers emerge on this vigorous yet compact plant.

Leucanthemum weyrichii

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 12-18"

Width: 1-2'

Flower

Months: May - August

Zone:

Single white flowers with yellow centers emerge on this vigorous yet compact plant.

Leucanthemum superbum White Knight

Plant in:

Sun Part Sun

Shasta Daisy

White

Height: 20-24"

Width: 1-2'

Flower

Months: May - August

Zone:

'White Knight' is a upright, clump-forming perennial with narrow, lance-shaped, toothed, dark green leaves and strong stems bearing large, single, white flowers with yellow-green centres in summer.

Lewisia cotyledon Mix Special

Plant in:
Sun Part Sun

Bitterroot

Mixed Colors

Height: 6-8"

Width: 8-12"

Flower

Months: May - August

Zone:

A lovely mix of shades ranging from pink to coral orange, stripes to solids and anything in between! Strap-like, leathery, mid-green leaves form interesting clumps and blooms appear in late June to July.

Liatris spicata Floristan White

Plant in:
Sun Part Sun

Gayfeather

White

Height: 30-36"

Width: 1-2'

Flower

Months: May - August

Zone:

Long spikes made up of tiny, frothy, clear white flowers appear in July on this drought tolerant plant.

Liatris spicata

Plant in:

Sun Part Sun

Gayfeather

Purple

Height: 18-24"

Width: 1-2'

Flower

Months: May - August

Zone:

A drought tolerant selection, 'Kobold' features vibrant magenta-purple flower spikes that emerge in July on a compact plant.

Ligularia stenocephala Little Rocket

Plant in:

Part Sun Shade

Ragwort

Green foliage, Yellow Flowers

Height: 36-40”

Width: 24-36”

Flower

Months:6-8

Zone:

Freely forming many flowerspikes of golden yellow, daisy blossoms above the mid-green, coarse foliage, Little Rocket ragwort blooms in mid to late summer. A clump-forming, hardy perennial 'Little Rocket' grows best in partial sun to partial shade in cool, moist, deep, fertile soils.

Lilium Casablanca

Plant in:

Sun

Oriental Lily

Green foliage, White Flowers

Height: 36-48”

Width: 9-12”

Flower

Months:7-8

Zone:

This is the world-famous lily variety that sports enormous pure white flowers of incredible beauty! With a marvelous fragrance and robust, broad-leaved stems, 'Casablanca' has been a garden favorite for years and years. Oriental lilies are renowned for their large, flaring, bowl-shaped blooms. The blooms are often spotted, intensely fragrant and have distinctive hairs at the base of the tepals. They are borne atop upright stems lined with glossy green, narrow, lance-shaped leaves.

Oriental Lily

Green Foliage, Salmon Flowers

Height: 24-36”

Width: 12-24”

Flower

Months: 7-8

Zone:

The tall Oriental lily ‘Salmon Star’ has white tepals with a broad salmon-pink stripe down the center of each. The highly fragrant blooms face upwards and outwards and first appear in midsummer. Oriental lilies are renowned for their large, flaring, bowl-shaped blooms. The blooms are often spotted, intensely fragrant and have distinctive hairs at the base of the tepals. They are borne atop upright stems lined with glossy green, narrow, lance-shaped leaves.

Oriental Lily

Green Foliage, Pink and White Flowers

Height: 36-60”

Width: 9-12”

Flower

Months:7-8

Zone:

Oriental lilies are renowned for their large, wide-flaring, bowl-shaped, often intensely fragrant flowers that typically occur late in the season. The Oriental lily 'Stargazer' is widely grown for its highly fragrant, up-facing, crimson flowers that are strikingly ornamented with maroon spots and pale pink margins. The late-summer blooms are held tall on sturdy stems. Plant where its fragrance can be appreciated,

Lilium Black Bird

Plant in:

Sun

Asiatic Lilly

Green Foliage, Red Flowers with Black Highlights

Height: 16-20"

Width: 10-12"

Flower

Months:6-7

Zone:

The compact Asiatic lily 'Black Bird' has upward-facing, deep red blooms accented with satiny black highlights. The rich color of the flowers is intensified by dark red anthers. It blooms from early to midsummer and makes a wonderful cut flower. Probably the most commonly and easily grown type of hybrid lily, Asiatic lilies typically bear clusters of scentless, wide-flaring flowers atop strong stems set with narrow, lance-shaped, glossy green leaves.

Lilium Lollypop

Plant in:

Sun

Asiatic Lilly

Green Foliage, White Flowers with Pink Tips

Height: 23-27”

Width: 12-18”

Flower

Months:6-7

Zone:

This selection features large, upfacing flowers, the white petals boldly flushed with rose-purple towards the tips. Probably the most commonly and easily grown type of hybrid lily, Asiatic lilies typically bear clusters of scentless, wide-flaring flowers atop strong stems set with narrow, lance-shaped, glossy green leaves.

Lilium Matrix

Plant in:

Sun

Asiatic Lilly

Green Foliage, Orange Flowers

Height: 18-24”

Width: 9-12”

Flower

Months:6-7

Zone:

‘Matrix is a compact Asiatic hybrid with up-facing, fiery scarlet blooms with orange centers in early summer. Probably the most commonly and easily grown type of hybrid lily, Asiatic lilies typically bear clusters of scentless, wide-flaring flowers atop strong stems set with narrow, lance-shaped, glossy green leaves.

Lilium Mount Duckling

Plant in:

Sun

Asiatic Lilly

Green foliage, Pink Flowers

Height: 18-24”

Width: 14-16”

Flower

Months:6-7

Zone:

The vigorous Asiatic lily 'Mount Duckling' has huge upward-facing, lavender-pink flowers that bloom from the end of June into July on a sturdy compact plant. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium New Wave

Plant in:

Sun

Asiatic Lilly

Green foliage, White Flowers

Height: 10-16”

Width: 10-12”

Flower

Months:6-7

Zone:

The vigorous Asiatic lily ‘New Wave’ has big upward-facing deep flowers of white with light freckling. This compact selection produces loose clusters of blooms from early to midsummer. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Partner

Plant in:

Sun

Asiatic Lilly

Green foliage, Red Flowers

Height: 16-18"

Width: 12-15"

Flower

Months:6-7

Zone:

'Partner' is a dwarf Asiatic hybrid with up-facing, glossy flame-red blooms in early summer. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Pixie Bright

Plant in:

Sun

Asiatic Lilly

Green foliage, Light Yellow Flowers

Height: 16-18”

Width: 12-15”

Flower

Months:6-7

Zone:

The easy to grow 'Bright Pixie' is a terrific, tough, dwarf Asiatic lily. Its big, open blooms are clear bright yellow. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Pixie Butter

Plant in:

Sun

Asiatic Lilly

Green foliage, Yellow Flowers

Height: 16-18”

Width: 12-15”

Flower

Months:6-7

Zone:

The cute and easy to grow 'Butter Pixie' is a terrific, tough, dwarf Asiatic lily. Its big, open blooms are vivid yellow and virtually spotless. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Pixie Crimson

Plant in:

Sun

Asiatic Lilly

Green foliage, Red Flowers

Height: 16-18”

Width: 12-15”

Flower

Months:6-7

Zone:

The vibrant and easy to grow 'Crimson Pixie' is a terrific, tough, dwarf Asiatic lily. Its big, open blooms are vivid red to orange-red and virtually spotless. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Pixie Orange

Plant in:

Sun

Asiatic Lilly

Green Foliage, Orange Flowers

Height: 16-18”

Width: 12-15”

Flower

Months:6-7

Zone:

The easy to grow 'Orange Pixie' is a terrific, tough, dwarf Asiatic lily. Its blooms are golden-orange with maroon speckling at the center of its 6-7” flowers. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Pixie Painted

Plant in:

Sun

Asiatic Lily

Green Foliage, Yellow Flowers with Red Centers

Height: 16-18”

Width: 12-15”

Flower

Months:6-7

Zone:

The vigorous Asiatic lily ‘Painted Pixie has big upward-facing flowers of deep yellow with a red spot at the base of each petal. It is a compact selection that produces blooms from early to midsummer. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Pixie Pink

Plant in:

Sun

Asiatic Lilly

Green foliage, Pink Flowers

Height: 16-18”

Width: 12-15”

Flower

Months:6-7

Zone:

The colorful and easy to grow 'Pink Pixie' is a lovely, tough, dwarf Asiatic lily. Its big, open blooms are deep pink with a touch of cream at their throats. Asiatic lilies are probably the most common and easily grown type of hybrid lily. They typically bear clusters of wide-flaring flowers atop strong stems. The upright stems are lined with glossy green, narrow, lance-shaped leaves.

Lilium Reinesse

Plant in:

Sun

Asiatic Lilly

Green foliage, White Flowers

Height: 24-36”

Width: 14-18”

Flower

Months:6-7

Zone:

The robust 'Reinesse has an abundant supply of huge, upward-facing blooms of white with no speckling. The bright blooms appear in atop tall vigorous plants in mid-June and make wonderful cut flowers. A very heavy bloomer, 'Reinesse' will fill your garden borders and summer bouquets with classic beauty.

Sea Lavender

Green foliage, light blue flowers

Height: 23-29”

Width: 23-27”

Flower

Months:6-7

Zone:

Sea Lavender is one of the best perennials for using as a cut flower, especially for drying. This forms a low mound of large, leathery green leaves, bearing upright branchinensig heads of tiny, pale-blue flowers, giving a misty, cloud-like effect. The overall effect is billowing and delicate. Very tolerant of hot, dry sites once established. Dislikes being moved or divided. Flowers are attractive to butterflies

Linaria purpurea

Plant in:

Sun Part Sun

Toadflax

Green foliage, Purple Flowers

Height: 20"

Width: 12"

Flower

Months:5-7

Zone:

Tiny, violet-purple, snapdragon-like flowers appear amid fine, thin grey-green foliage and stems that give the entire plant an airy texture. A drought tolerant selection, it self-sows readily if happy. Shear after the initial flowering to promote a second bloom.

Linum flavum Compactum

Plant in:

Sun Part Sun

Golden Flax

Green foliage, Yellow Flowers

Height: 10"

Width: 15"

Flower

Months:5-6

Zone:

This superb perennial covers itself with showy 1-1.5 inch cheerful golden-yellow flowers all summer long. Compact growing to 10 inches tall with dark green narrow lance-shaped leaves. An exceptional plant which deserves to be planted much more frequently. Use in borders, rock gardens or containers

Linum perenne Blue

Plant in:

Sun Part Sun

Flax

Green foliage, Blue Flowers

Height: 16-24"

Width: 18"

Flower

Months:5-6

Zone:

Masses of single, sky-blue flowers emerge in July and August above gray-green, thread-like foliage. A drought tolerant plant, shear after flowering to encourage a bushy habit and a late bloom. Excellent for edging, in the rock garden, or in mixed containers.

Linum perenne Blue Sapphire

Plant in:

Sun Part Sun

Flax

Green foliage, Blue Flowers

Height: 10-12”

Width: 12”

Flower

Months:5-7

Zone:

Blue Flax is a favorite perennial, performing especially well in hot, sunny areas. This compact selection forms a bushy mound of small, ferny green leaves, bearing loads of small sky-blue flowers for weeks on end. Trim plants back in midsummer to encourage repeat blooming in the autumn. Excellent for edging, in the rock garden, or in mixed containers.

Lobelia

Green foliage, Red Flowers

Height: 36”

Width: 12”

Flower

Months:6-7

Zone:

Cardinal red flower spikes form a spectacular contrast with the dark green foliage. Excellent for the back of beds, borders or at the edge of a pond.

Lobelia cardinalis Queen Victoria

Plant in:

Sun Part Sun

Cardinal Flower

Maroon Foliage, Red Flowers

Height: 36-48”

Width: 12-16”

Flower

Months:6-8

Zone:

Queen Victoria cardinal flower is a perennial selection native to eastern North America. Its glossy maroon, slightly toothed leaves and stems add bold garden impact. In summer, scarlet flowers open successively from the bottom to the top of tall spikes, attracting hummingbirds and butterflies

Lobelia syphilitica Great Blue

Plant in:
Sun Part Sun

Cardinal Flower

Green foliage, Blue Flowers

Height: 24-36"

Width: 12-24"

Flower

Months:5-7

Zone:

Longer lived than other Cardinal Flowers this plant blooms in late summer, producing spikes of deep blue flowers and attracts hummingbirds. A clump forming plant that thrives in almost any situation, 'Great Blue' features thick stems that are topped with lavender blue, lipped flowers from July until frost. It will self-sow readily.

Lonicera brownii Dropmore Scarlet

Plant in:

Sun Part Sun

Trumpet Honeysuckle

Green foliage, Red Flowers

Height: 12'

Width: 2'

Flower

Months:5-7

Zone:

Dropmore Scarlet trumpet honeysuckle is a vigorous semi-evergreen climber that is fast growing and boasts beautiful scarlet trumpet-shaped flowers, which bloom all summer, and pretty blue-green foliage. Hummingbirds are particularly attracted to its profuse bright scarlet flowers.

Lonicera japonica Halliana

Plant in:
Sun Part Sun

Japanese Honeysuckle

Green Foliage, White to Yellow Flowers

Height: 20'

Width: 2'

Flower

Months: 5-7

Zone:

Hall's Honeysuckle is a semi-evergreen vine. It has light to dark green leaves and highly fragrant tubular white flowers that age to creamy yellow. These bloom from spring to early summer and are followed by red to orange berry-like fruit that is attractive to birds.

Lunaria annua Honesty

Plant in:

Sun Part Sun

Money Plant

Green Foliage, Purple or White Flowers, Silvery Seed Pods

Height: 24-36"

Width: 12"

Flower

Months:6-7

Zone:

Also known as Honesty, this is a favorite old-fashioned biennial. Showy sprays of pretty purple or white flowers in spring are followed by interesting papery silver dollar sized seedpods. The branches of translucent dried pods are excellent for dried arrangements, after the husks are removed in late summer. Plants usually self-seed and appear here and there in the garden, but happiest in a moist shady area. Flowers may attract butterflies.

Lupine

Green foliage, Red Flowers

Height: 30”

Width: 18”

Flower

Months:6-7

Zone:

Large stalks of fragrant, rich cherry red flowers on deep red stems brighten the landscape in early summer. Count on even the youngest plants to produce flowers. A memorable sight for any garden lover, lupines are among the most desirable and distinguished perennials on the market today. These beautiful plants grow into well-established clumps, with several stems rising up out of a single base. A bouquet of Lupines has no equal.

Lupine

Green foliage, Blue Flowers

Height: 20”

Width: 18-24”

Flower

Months:5-7

Zone:

The intense blue coloring and strong upstanding flower spires of lupine 'Gallery Blue' add both a formal and country casual look to the garden. The individual flowers of this dwarf hybrid are two-tone, each combining iridescent indigo with snow white for an exciting color contrast. The colorful spikes of Lupines are an unforgettable sight in the early summer border. Plants grow best in a deep, rich soil, slightly on the acidic side.

Lupinus polyphyllus Gallery Pink

Sun

Lupine

Green foliage, Pink Flowers

Height: 20"

Width: 18-24"

Flower

Months: 5-7

Zone:

The extra showy, two tone flowers of lupine 'Gallery Pink' are very hot, rosy pink, brightly contrasted with white. An excellent choice for fleshing out the front or middle of the perennial border, these dwarf lupines also look charming spotted in among flagstone walkways or massed into a formal composition. The colorful spikes of Lupines are an unforgettable sight in the early summer border. Plants grow best in a deep, rich soil, slightly on the acidic side.

Lupinus polyphyllus Gallery Red

Plant in:

Sun

Lupine

Green foliage, Red Flowers

Height: 20”

Width: 18-24”

Flower

Months:5-7

Zone:

The vivid, solid, red to magenta flowers of lupine ‘Gallery Red pack a powerful punch in the garden. An excellent choice for fleshing out the front or middle of the perennial border, The colorful spikes of Lupines are an unforgettable sight in the early summer border. Plants grow best in a deep, rich soil, slightly on the acidic side.

Lupine

Green foliage, White Flowers

Height: 20”

Width: 18-24”

Flower

Months:5-7

Zone:

The snowy, pure white spires of hybrid lupine 'Gallery White' are as ideal for a formal wedding garden as they are in a casual country composition. The colorful spikes of Lupines are an unforgettable sight in the early summer border. Plants grow best in a deep, rich soil, slightly on the acidic side.

Lupine

Green foliage, Yellow Flowers

Height: 20”

Width: 18-24”

Flower

Months:5-7

Zone:

The brilliant spires of hybrid lupine ‘Gallery Yellow mingle bright yellow with snowy white, bringing a cheerful light to stodgy flower beds. The colorful spikes of Lupines are an unforgettable sight in the early summer border. Plants grow best in a deep, rich soil, slightly on the acidic side.

Lychnis coronaria Angel Blush

Plant in:

Sun Part Sun

Rose Campion

Silvery Foliage, Pink Flowers

Height: 24-36"

Width: 18"

Flower

Months: 6-7

Zone:

It is grown for its old-fashioned, small, flat, magenta to red flowers. The flowers appear in late spring or summer on tall branchinensisg stems above basal clumps of downy, silver-gray leaves. Completely remove spent flowering stems to encourage repeat bloom and to keep the plant looking neat. Plant rose campion in groups in the mixed border or cottage garden. It self-sows abundantly.

Lychnis arkwrightii Orange Gnome

Plant in:

Sun Part Sun

Dwarf Campion

Bronze Foliage, Orange Flowers

Height: 8"

Width: 12"

Flower

Months: 6-7

Zone:

This compact-growing Campion is a useful edging variety for the early summer border. It forms a low, bushy mound of bronzy-purple leaves, topped with clusters of scarlet-orange flowers in summer. This colour combination really stands out in the border or in containers. Short enough to include in the sunny rock garden. Deadhead regularly to encourage more buds to form. Flowers are attractive to butterflies and hummingbirds.

Lychnis chalcedonica Maltese Cross

Plant in:

Sun Part Sun

Maltese Cross

Green foliage, Red Flowers

Height: 24-30"

Width: 15"

Flower

Months:5-6

Zone:

There may be no perennial more attractive to hummingbirds than Maltese Cross, with its globular clusters of scarlet flowers atop tall, unbranched, hairy stems. In early to midsummer, the stems are topped by domed clusters of five-petaled, scarlet to red-orange flowers. Both butterflies and hummingbirds will pay visits. After flowering, cut back plants severely to coax a second flush of bloom weeks later.

Campion

Bronze Foliage, Red Flowers

Height: 12”

Width: 10”

Flower

Months:6-7

Zone:

This plant catches everyones eyes with its contrasting dark leaves and bright red flowers. From mid-to-late summer the stems are topped by loose, rounded clusters of flowers that are attractive to butterflies. Sites with full sun or partial shade are fine, but bear in mind that flower color fades in too much direct light and some shade is best in hot sites. Cut off spent flower stems to encourage a second round of flowering weeks later.

Campion

Green Foliage, Orange Flowers

Height: 12”

Width: 10”

Flower

Months: 5-6

Zone:

Compact and sweetly flowered, 'Lumina Salmon'; campion has bright, lance-shaped, mid-green leaves and blooms with salmon-pink flowers in summer. From mid- to late summer the stems are topped by loose, rounded clusters of butterfly attracting flowers. Light salmon-pink red, each petal is lobed in a V shape, with tiny, hair-like teeth on its edges. Sites in full sun to partial shade are fine, but bear in mind that the flower color fades in too much direct light

Lychnis viscaria Visca Fire

Plant in:

Sun

Catchfly

Green foliage, Red Flowers

Height: 12-18”

Width: 12-15”

Flower

Months:5-6

Zone:

Two inch balls of deep purple-red flower clusters on mat-forming plants. Excellent as a ground cover, to fill in around the base of taller plants, or in rock gardens. Excellent for cutting. Deadhead faded blooms to encourage prolonged flowering. Attractive to butterflies.

Lysimachia atropurpurea Beaujolais

Plant in:

Sun Part Sun

Burgundy Gooseneck Loosestrife

Silver Foliage, Burgundy Flowers

Height: 24-36”

Width: 12-18”

Flower

Months:6-7

Zone:

This is a biennial or short-lived perennial just recently introduced to gardens. Flowers are similar to the white Gooseneck Loosestrife but in a rich burgundy-purple shade with contrasting grey-green leaves. Blooms appear in midsummer. Plants do not spread at the root or become invasive, though they may self seed a little. Should not be confused with the noxious weed Purple Loosestrife. Wonderful for cutting. Attractive to butterflies.

Lysimachia ciliata Firecracker

Plant in:

Sun Part Sun

Loosestrife, Fringed Loosestrife

Burgundy Foliage, Yellow Flowers

Height: 18-24"

Width: 16"

Flower

Months:6-7

Zone:

Slightly nodding, yellow star-shaped flowers appear in midsummer atop the rich burgundy-purple foliage of the Firecracker fringed loosestrife. The leaves emerge dark wine-purple and mature to a deep green with an overcast of burgundy to dark purple. From midsummer onwards, the stem tips are filled with solitary or pairs of star-shaped, yellow flowers that have a rusty-sienna center. The flowers face outwards or slightly downwards. Full sun often accentuates the foliage's rich tones, but partia

Lysimachia clethroides

Plant in:

Sun Part Sun

Gooseneck Loosestrife

Green foliage, White Flowers

Height: 36"

Width: 30"

Flower

Months:6-7

Zone:

Gooseneck Loosestrife produces unique spikes of white flowers that are bent like a gooses neck and all point in the same direction creating a lovely effect, appearing in late summer. Wonderful for cutting. Plants quickly spread to form a wide patch, so allow it room. Foliage develops good red fall color, particularly when grown in full sun. New growth is late to emerge from the ground, often waiting until well into May. Attractive to butterflies. Gooseneck Loosestrife should not be confused w

Lysimachia punctata

Plant in:

Sun Part Sun

Yellow Loosestrife

Green foliage, Yellow Flowers

Height: 18-24"

Width: 24"

Flower

Months:5-6

Zone:

Not to be confused with the noxious weed Purple Loosestrife. This is a vigorous species that has been grown in gardens since Victorian times. Plants form a bushy, fast-spreading clump of green leaves, with loose spikes of bright-yellow starry flowers appearing in early to mid summer. Attractive to butterflies. Nice for cutting.

Matricaria parthenium Golden Ball

Plant in:

Sun

Tanacetum, Feverfew

Green foliage, Yellow Flowers

Height: 12”

Width: 15”

Flower

Months:6-7

Zone:

Feverfew forms a low bushy mound of fragrant green leaves, and is included in both the flower and herb garden. Leaves have been used quite widely in recent years in a wide range of natural remedies, particularly for treating migraine headaches. This selection bears double golden-yellow pompon flowers beginning in mid summer, the effect is like little yellow buttons. Excellent as a cut flower.

Matricaria parthenium Tetra White

Plant in:

Sun

Tanacetum, Feverfew

Green foliage, White Flowers

Height: 36"

Width: 24"

Flower
Months:6-7

Zone:

Feverfew Tetra White has charming little button clusters of white blooms that are perfect in bouquets and in the garden. These precious blooms are tinged with yellow in the center and sit above bushy, lacy foliage. Excellent for cutting, beds, and borders.

Mazus reptans

Plant in:

Sun Part Sun

Creeping Mazus

Green foliage, Purple Flowers

Height: 3"

Width: 12"

Flower
Months: 5-6

Zone:

Creeping mazus is a semi-evergreen hardy plant with small toothed or smooth leaves of green that appear along long stems that hug the ground and root as they go. Beginning in late spring, many lipped blue-purple flowers appear. This is a great groundcover for shaded rock gardens or for planting between stepping stones as it needs some protection from scorching sun. It does spread so only plant it if you want it in your garden for the long haul.

Monarda didyma Adam

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green foliage, Red Flowers

Height: 30-48"

Width: 18-24"

Flower

Months:6-7

Zone:

The cherry-red flowered 'Adam' is a tough and pretty Monarda for the sunny summer garden. This tall hybrid cultivar has deep green leaves. In summer it produces many radial clusters of showy red flowers that stand tall atop strong upright stems. These draw hummingbirds and butterflies in droves. The flowers are highly fragrant as is the foliage.

Monarda didyma Blue Stocking

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green foliage, Purple Flowers

Height: 24-36”

Width: 18-24”

Flower

Months:6-7

Zone:

Blue Stocking's name is a little misleading- the flowers are by no means considered to be in the blue range, they are however a very nice shade of violet-purple that is unique in Bee Balms. The nectar rich blossoms are a magnet for hummingbirds and butterflies who literally zoom in and out of the garden once they discover the plants. Blue Stocking has proven to be more heat and drought tolerant than other forms of Monarda.

Monarda didyma Cambridge Scarlet

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green foliage, Red Flowers

Height: 36-48”

Width: 18-24”

Flower

Months:6-7

Zone:

An older beebalm cultivar still popular for its bright red flowers, 'Cambridge Scarlet' makes a nice addition to the garden. In summer this hardy herbaceous perennial produces fragrant tubular flowers in frilly starburst heads that perch atop strong upright stems. Beneath each head is a conspicuous ruff of maroon bracts. The flowers draw hummingbirds and butterflies alike. The paired narrowly oval leaves have a pungent scent that's pleasant to humans but undesirable to browsing pests like deer.

Monarda didyma Grand Marshall

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green foliage, Pink Flowers

Height: 22”

Width: 24”

Flower

Months:6-7

Zone:

Luminous fuchsia-pink flower clusters cover the plant in mid-summer. This vigorous new hybrid creates a compact, cold hardy, large flowered Bee Balm variety with mildew resistant minty-scented foliage. The flowers draw hummingbirds and butterflies alike. The paired narrowly oval leaves have a pungent scent that's pleasant to humans but undesirable to browsing pests like deer.

Monarda didyma Panorama Mix

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green Foliage, Assorted Flowers

Height: 24-36"

Width: 24"

Flower

Months: 6-7

Zone:

Every year in June and July Panorama Mix produces shaggy semi-double blooms in intense shades of pink, salmon, red, scarlet and crimson. Butterflies and hummingbirds find them irresistible. Leaves are mint scented are mildew resistant, and thrive in full sun or part shade. A good cut-flower. Deer resistant.

Monarda didyma Gardenview Scarlet

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green foliage, Red Flowers

Height: 36”

Width: 24”

Flower

Months:6-7

Zone:

Brilliant red flowers, exceptional cold-hardiness, and moderately mildew-resistant foliage make 'Gardenview Scarlet' one of the most desirable beebalms for the garden. In summer this hardy herbaceous perennial produces fragrant tubular flowers in frilly starburst heads that perch atop tall square stems. The flowers draw hummingbirds and butterflies alike. The paired narrowly oval leaves have a spicy scent that's pleasant to humans but undesirable to browsing pests like deer.

Monarda didyma Marshall's Delight

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green foliage, Pink Flowers

Height: 30-36"

Width: 18"

Flower
Months:6-7

Zone:

Clear pink flowers differ from most Bee Balm, with full round flower ball shape. A beebalm widely grown for its vigor, mildew resistance, exceptional cold-hardiness, and beautiful pink flowers, 'Marshall's Delight' makes a splendid perennial for full or part sun. In summer this hybrid Monarda produces fragrant tubular flowers in frilly starburst heads that stand tall atop strong upright stems. The flowers draw hummingbirds and butterflies alike. The paired narrowly oval leaves have a pungent s

Monarda x hybrida Petite Delight

Plant in:
Sun Part Sun

Bee Balm, Bergamot

Green foliage, Pink Flowers

Height: 15”

Width: 20-24”

Flower
Months:6-9

Zone:

This wonderful Bee Balm has lavender-rose flowers that appear on very compact mounds of dark green crinkled foliage. As with all Monarda the hummingbirds and butterflies flock to it all summer. It is one of the smallest Monarda in its family and has the darkest foliage. If deadheaded, longer bloom times will be encouraged. Monarda needs to be planted in full sun, but will tolerate afternoon shade. Highly mildew resistant.

Monarda punctata Dotted Mint

Plant in:
Sun Part Sun

Bee Balm, Bergamot

Green to Pink Foliage, Yellow Flowers

Height: 12-20"

Width: 18"

Flower

Months:6-7

Zone:

The unusual plant has yellow flowers dotted with purple which are nearly hidden by the very decorative display of foliage held in tiered whorls of pink to light green. Very attractive to butterflies. Likes sandy soil.

Monarda x hybrida Raspberry Wine

Plant in:

Sun Part Sun

Bee Balm, Bergamot

Green Foliage, Raspberry Flowers

Height: 36-40”

Width: 24”

Flower
Months:6-9

Zone:

A beebalm widely grown for its vigor, mildew resistance, prolonged bloom, and beautiful raspberry-red flowers, 'Raspberry Wine' makes a splendid perennial for full or part sun. In summer this Monarda produces fragrant tubular flowers in frilly starburst heads that stand tall atop strong upright stems. Beneath each head is a showy ruff of maroon bracts. Flowering continues after most other beebalms have stopped blooming. The flowers draw hummingbirds and butterflies alike. 'Raspberry Wine' also

Nepeta faassenii Blue Wonder

Plant in:

Sun

Catmint

Green-Grey Foliage, Purple Flowers

Height: 12-14”

Width: 8”

Flower
Months:6-7

Zone:

The uniformly mounded plants of 'Blue Wonder' have fuzzy heart-shaped leaves with scalloped edges that are medium to grey-green. The drier the growing conditions, the greyer the foliage. In summer, it produces upright clusters of small, tubular, lavender-blue flowers. These attract bees and butterflies and will continue to bloom most heavily if regularly deadheaded or lightly sheared after the first flush of blooms. This is a carefree and easy perennial for sunny spots.

Catmint

Green-Grey Foliage, Purple Flowers

Height: 18-24”

Width: 18”

Flower
Months:5-9

Zone:

The compact catmint, 'Walker's Low', is a super tough summer perennial for full sun. This aromatic, blue-flowered beauty produces a neat bushy mound of small, gray-green, scalloped leaves that are slightly hairy. By early summer, it offers many loose, upright spikes of violet-blue flowers. These are highly attractive to bees and will reliably re-bloom if spent flower stems are pinched. The toughness of this perennial cant be beat. It is both heat and drought tolerant once established. It is a t

Nepeta mussinii

Plant in:

Sun

Catmint

Green-Grey Foliage, Purple Flowers

Height: 18-24”

Width: 18”

Flower

Months:5-9

Zone:

The fragrant, furry foliage of Persian catmint is pleasing to smell and see, as are the short spikes of tiny lavender blossoms that appear in summer, attracting bees and butterflies. The leaves are rounded, scalloped, heart-shaped and slightly gray-green because of the tiny hairs on their surfaces. In summer, whorled clusters of small trumpet-like lavender, light blue or blue-violet flowers bloom on upright stems. Seeds germinate readily producing a silvery ground cover.

Nepeta subsessilis Sweet Dreams

Sun

Catmint

Green foliage, Pink Flowers

Height: 12-24"

Flower
Months: 8-9

Zone:

Upright, clumping stems lined with serrated foliage provide a lush background for the fat, cylindrical spikes of long, trumpet-shaped two-toned pink flowers. Distinguished by eye-catching dark burgundy floral bracts and larger, deep green leaves, 'Sweet Dreams' continues to bloom if deadheaded, and likes moist soil.

Oenanthe fistulosa Flamingo

Plant in:

Sun Part Sun

Water Dropwort, Water Parsley, Water Celery

Green Foliage with Pink Tinge, White Flowers

Height: 15”

Width: 18-24”

Flower

Months:7-8

Zone:

Fern-like foliage that is variegated ivory, pink and light green makes 'Flamingo' a highly ornamental selection of water parsley. The leaves are edible and it has flat, branched clusters of starry white flowers adding interest in late summer. A water-loving tender perennial, it spreads as its horizontal stems touch moist soil.

Evening Primrose

Silver Foliage, Yellow Flowers

Height: 6-10”

Width: 16-20”

Flower

Months:6-7

Zone:

‘Shimmer is about foliage, flowers, texture and an exciting new look in the world of native plants. A burst of 3” diameter, lemon-yellow flowers lights up the plant in late spring, followed by flushes of flowers throughout the summer. The extremely narrow gray-green, almost silver leaves on wine-red stems have such incredible texture that it is invaluable when contrasting with other colors and types of foliage. Pinch in the spring to shorten and thicken the plant.

Evening Primrose

Green Foliage, Yellow to Peach Flowers

Height: 40"

Width: 18"

Flower

Months:5-6

Zone:

This beautiful fragrant evening primrose blooms in early summer with soft yellow flowers that age to peachy red. The fragrant flowers open in the evening, staying open until the following afternoon.

Oenothera macrocarpa missouriensis

Plant in:

Sun

Evening Primrose

Green foliage, Yellow Flowers

Height: 10-12”

Width: 20”

Flower

Months:5-6

Zone:

One of the most beautiful varieties, its elegant, lemon-yellow flowers, which grow up to 5 inches wide, are followed by winged seed pods. Very long blooming variety - blooms over and over all summer long. A long lived perennial that forms a very large tuber to keep itself thriving in the garden it's excellent in borders and in rock gardens.

Oenothera pilosela Yella Fella

Plant in:

Sun

Primrose, Sundrops

Green foliage, Yellow Flowers

Height: 15-18”

Width: 12”

Flower

Months:6-7

Zone:

This sundrop has large, lightly scented, orange buds that open to bright yellow flowers that open during the day and bloom from June through August. The hairy foliage develops attractive reddish overtones in the fall.

Evening Primrose

Green foliage, Pink Flowers

Height: 10"

Width: 20"

Flower

Months:5-6

Zone:

A mass of 2" cup shaped pink flowers with white centers all summer. A lovely groundcover for a sunny spot. Fills in even in poor or dry soils. Flowers open late in the day and close the following morning. Avoid wet feet. Good for hot dry spots and as a ground cover.

Oenothera tetragona fruticosa Sundrops

Plant in:

Sun

Primrose, Sundrops

Green foliage, Yellow Flowers

Height: 15-20”

Width: 12”

Flower

Months:6-7

Zone:

Sundrops is a cheerful perennial forming clumps one to two feet tall and blooming in early summer. Two inch bright yellow 4-petaled flowers clustered at the ends of stems are open during the day unlike those of the related Evening Primrose. The rich dark green leaves turn bronze for the winter.

Oenothera versicolor Sunset Boulevard

Width: 12”

Flower

Months:5-6

Zone:

This yellow strain bears sparkling flowers of delicate, airy and fragrant clear yellow blooms. Easy to grow, these charmers produces small rosettes of blue green foliage. They are truly fabulous bloomers. Held well above the foliage atop hairy leafless stems, the globular flower buds open to large bowl-shaped flowers with crinkly petals that resemble crushed silk. Good drainage is a must – avoid mulch where possible.

Icelandic Poppy

Green Foliage, White to Bright Orange Flowers

Height: 12-15”

Width: 12”

Flower

Months:5-6

Zone:

Champagne Bubbles' bears sparkling flowers in often pastel shades of orange, pink, scarlet, apricot, yellow and white. Easy to grow, these charmers produces small rosettes of blue green foliage. They are truly fabulous bloomers. Held well above the foliage atop hairy leafless stems, the globular flower buds open to large bowl-shaped flowers with crinkly petals that resemble crushed silk. Good drainage is a must – avoid mulch where possible.

Papaver glaucum Tulip

Plant in:

Sun

Tulip Poppy, Turkish Poppy

Green Foliage, Orange Flowers

Height: 16-18”

Width: 16-18”

Flower

Months:6-7

Zone:

Enhance your garden with these tulip-like Poppies, blooming prolifically throughout the summer they are a must in every border. They produce huge showy, single scarlet flower heads with distinctive black centres on top of bending stems. The flowers are upright and cup-shaped, rather than flat like most other poppies.

Papaver orientale Allegro

Plant in:

Sun

Oriental Poppy

Green Foliage, Orange Flowers

Height: 16”

Width: 16”

Flower

Months:6-7

Zone:

The cultivar 'Allegro' is a dwarf selection with magnificent orange-red blooms borne on long stems that dance above toothed hairy leaves. Its foliage dies back after plants bloom and then re-emerges in the fall. The oriental poppy is a clump-forming perennial that blooms in early summer. Provide these plants with full to part sun and well drained average soil. Plant them in clusters in mixed beds

Oriental Poppy

Green foliage, Red Flowers

Height: 30-36”

Width: 20”

Flower

Months:6-7

Zone:

This aptly named variety bears huge glowing brilliant red flowers with black central blotches. Remarkable not only for their size and hue but also for their crinkled tissue-like flowers, the glorious bowl-shaped flowers open from large globose buds atop tall prickly stems. The foliage dies back in early summer, re-emerging in fall.

Papaver orientale Orange Scarlet

Sun

Oriental Poppy

Green Foliage, Orange Flowers

Height: 30-36"

Width: 20"

Flower

Months: 6-7

Zone:

Orange-scarlet blooms with a black eye add an exotic feeling to any sunny area in the perennial flower garden. Hairy foliage emerges early in the spring and quickly reaches maturity. Oriental poppy will go dormant after it blooms, so plant among other later emerging sun-loving perennials that will fill the space.

Papaver orientale Pizzicato

Plant in:

Sun

Oriental Poppy

Green Foliage, White to Bright Orange Flowers

Height: 24"

Width: 20"

Flower

Months: 6-7

Zone:

A prolifically blooming variety that spans the entire color range (red, scarlet, orange, salmon, mauve, pink and white) of oriental poppies, 'Pizzicato' carries its immense 6-8" flowers on sturdy semi-dwarf stems that rarely need staking. Remarkable not only for their size and hue but also for their crinkled tissue-like flowers, the glorious bowl-shaped flowers open from large globose buds atop tall prickly stems. The foliage dies back in early summer, re-emerging in fall.

Papaver orientale Princess Victoria Louise

Plant in:

Sun

Oriental Poppy

Green Foliage, Apricot Flowers with Black Centers

Height: 30”

Width: 24”

Flower

Months:6-7

Zone:

Long prized for its immense rich salmon-pink flowers, 'Princess Victoria Louise' is among the most familiar of the many poppy cultivars around. The satiny blooms of this striking perennial are one of the highlights of the late spring and early summer garden. Remarkable not only for their size and hue but also for their crinkled tissue-like flowers, the glorious bowl-shaped flowers open from large globose buds atop tall prickly stems. The foliage dies back in early summer, re-emerging in fall.

Papaver orientale Royal Wedding

Sun

Oriental Poppy

Green Foliage, White Flowers with Black Centers

Height: 30"

Width: 20"

Flower

Months: 5-6

Zone:

A snowy alternative to the hot reds and oranges of most other oriental poppy cultivars, 'Royal Wedding' bears immense white flowers with black-purple central blotches. The bristly, green, deeply dissected leaves form neat rosettes that hug the ground. The foliage dies back in early summer, re-emerging in fall.

Papaver nudicaule Pacino

Plant in:

Sun

Icelandic Poppy

Green foliage, Yellow Flowers

Height: 6-8"

Width: 4"

Flower

Months:5-6

Zone:

Pacino' is a dwarf plant which bears soft yellow flowers on dwarf stems, making it a charming addition to rock and patio gardens. Easy to grow, these charmers produce small rosettes of blue green foliage. They are truly fabulous bloomers. Held well above the foliage atop hairy leafless stems, the flower buds open to large bowl-shaped flowers with crinkly petals that resemble crushed silk.

Icelandic Poppy

Green Foliage, Assorted Flowers

Height: 12"

Width: 12"

Flower

Months:6-7

Zone:

With over 35 blooms per plant ranging in color from pale yellow to scarlet orange, this plant blooms like crazy on hairy-leaved 12" mounds. It is a very hardy and long lived plant, excellent for mass plantings in the hot full sun. Later bloom time than the Wonderland Mix.

Papaver nudicaule Wonderland Mix

Plant in:

Sun

Icelandic Poppy

Green Foliage, Assorted Flowers

Height: 10”

Width: 8-12”

Flower

Months:5-6

Zone:

A dwarf cultivar of this short-lived, tufted perennial, 'Wonderland has short-stalked, brightly colored flowers in, red, orange, yellow, and white up to 3 inches wide. It thrives in cool weather. It will always remain popular for its gorgeous, papery blooms. Good drainage is a must – avoid mulch where possible.

Pardancanda norisii Candy Lily

Plant in:
Sun Part Sun

Candy Lily

Green Foliage, Assorted Flowers

Height: 36”

Width: 24”

Flower
Months:6-9

Zone:

The iris-like blooms of these exotic rainbow lilies are produced in abundance, in a mix of vivid shades atop the fans of sword-shaped leaves. Each bloom lasts for just one day, but is immediately replaced by more and more vibrant flowers as the season progresses. This unusual hardy perennial tolerates heat and drought with surprising resilience, and the exquisite blooms

Parthenocissus quinquefolia

Plant in:

Sun Part Sun

Virginia Creeper

Green Foliage

Height: 50'

Width: 2-8'

Flower
Months:N/A

Zone:

Virginia Creeper is a prolific climber, attaching to smooth surfaces using small forked tendrils tipped with small strongly adhesive pads. The leaves are comprised of five leaflets and a toothed margin, which makes it easy to distinguish from poison-ivy, which has three leaflets with smooth edges. In early fall the flowers mature into small hard purplish-black berries which are poisonous to humans, but an excellent food source for birds.

Parthenocissus tricuspidata Boston

Plant in:

Sun Part Sun

Boston Ivy

Green Foliage

Height: 70'

Width: 1-6'

Flower

Months:N/A

Zone:

Boston Ivy is a deciduous woody vine, with dark green leaves divided into 3 leaflets. It spreads indefinitely and attaches to fences and buildings by suckers. It has a spectacular deep red fall color.

Passiflora caerulea Beckys Blue & White

Plant in:

Sun Part Sun

Passion Flower Vine

Green Foliage, White Flowers with Blue inside

Height: 20'

Width: 5'

Flower

Months:6-9

Zone:

A lovely combination of out-stretched white petals centered by an intricate circle of blue filaments makes this smaller-leaved 20' vine a real summer treat when grown on a trellis or arbor. Shelly's favorite plant.

Passiflora caerulea

Plant in:

Sun Part Sun

Passion Flower Vine

Green Foliage, White Flowers with Blue inside

Height: 20'

Width: 5'

Flower

Months:6-9

Zone:

This variety produces beautiful 4 inch blooms in shades of creamy white to pink and blue. Fruit is non-edible, but gives interest and dimension to this vine which climbs by tendrils. Grown in a sunny, well drained area, has lush green deeply incised foliage and loads of lovely blooms summer through fall.

Penstemon barbatus Jingle Bells

Plant in:

Sun

Beardtongue

Green foliage, Red Flowers

Height: 24"

Width: 24"

Flower
Months:6-8

Zone:

Native to the American West, this easy-growing selection is a picturesque addition to a tall border. In early summer, the 3' tall loose spikes carry bell-shaped flowers of bright scarlet and continue throughout the summer. The tubular flowers are frequently humming with hummingbird visitors and make an excellent cut flower. Plant in full sun, with well-drained soil.

Penstemon barbatus Rondo

Plant in:
Sun Part Sun

Beardtongue

Green Foliage, Pink, Purple and Lavender Flowers

Height: 16”

Width: 12-18”

Flower
Months:6-8

Zone:

Sparkling jewel tones on 2' stalks in shades of deep lavender, intense pinks, and even some royal purples and blues. The flower trumpets hold up to wind and rain well and draw hummingbirds like a magnet. Good for hot dry spots, and a good cut flower.

Penstemon digitalis Mystica

Plant in:

Sun

Foxglove Beardtongue

Dark Red Foliage, Pink Flowers

Height: 28-32"

Width: 12"

Flower
Months:6-9

Zone:

The narrow oval leaves of 'Mystica' are deep bronze-red in spring, mature to dark green with red overtones, and turn bright red in fall. In late spring and early summer it bears tall spires of very pale lavender-pink bell-shaped flowers. A favorite of hummingbirds, deadhead after bloom to promote longevity and prevent self-sowing

Penstemon digitalis Husker Red

Plant in:
Sun Part Sun

Foxglove Beardtongue

Dark Red Foliage, White to Pink Flowers

Height: 30-36"

Width: 12"

Flower
Months: 6-8

Zone:

Foxglove beardtongue is a herbaceous perennial native to central and eastern North America. The leaves of the cultivar 'Husker Red' are beet-red in spring, maturing to green with purple tints. In late spring and early summer it bears tall, raceme-like spikes of tubular white flowers tinged with purple. Use it as a cut flower, in the perennial border, or in a wildflower planting.

Beardtongue

Green foliage, Purple Flowers

Height: 24”

Width: 15-18”

Flower

Months:6-8

Zone:

Penstemons are clump-forming herbaceous perennials native to North America. The pretty selection 'Violet Dusk' produces showy spikes of tubular violet-purple flowers from late spring into summer. These appear above rosettes of semi-evergreen leaves. The flowers attract hummingbirds and butterflies.

Russian Sage

Silver Foliage, Blue Flowers

Height: 36”

Width: 24-30”

Flower

Months:7-9

Zone:

Filigran is a tall, shrubby perennial with an airy, open habit. Its fine-textured, lacy, silver foliage contrasts nicely with its numerous tall spikes of small, two-lipped, lavender-purple flowers that appear from midsummer to fall. The stems, leaves, and flower buds are silvery-gray. All parts of the plant release a pungent fragrance when crushed.

Perovskia atriplicifolia Little Spire

Sun

Russian Sage

Silver Foliage, Blue Flowers

Height: 24"

Width: 18-24"

Flower
Months: 6-9

Zone:

This dwarf Perovskia is ideal for smaller garden spaces, unlike the parent species. It forms an upright, bushy clump of slender, lightly branching, leafy stems lined with fragrant, ferny foliage. Tall spikes of small, violet-blue flowers bloom from late summer to early autumn. The stems, leaves, and flower buds are silvery-gray. All parts of the plant release a pungent fragrance when crushed. Unlike standard 'Little Spire' does not become leggy or fall over

Perovskia atriplicifolia Longin

Plant in:

Sun

Russian Sage

Silver Foliage, Blue Flowers

Height: 36-48”

Width: 24-30”

Flower

Months:6-8

Zone:

The neat, upright habit of ‘Longin make this Russian sage an ideal perennial for large sunny borders. Its fine-textured, silver foliage contrasts nicely with its numerous tall spikes of small, two-lipped, lavender-blue flowers that appear from midsummer to fall. It is heat and drought tolerant and makes a fine addition to large, mixed borders. It looks particularly nice when planted in masses with fall bloomers and ornamental grasses

Perovskia atriplicifolia

Plant in:

Sun

Russian Sage

Silver Foliage, Blue Flowers

Height: 30”

Width: 24-30”

Flower

Months:6-9

Zone:

Drought tolerant and vigorous, Russian sage is a perennial that is both tough and beautiful. These shrubby plants are tall, open and airy in appearance. Their fine silver foliage contrasts nicely with the numerous spikes of small, two-lipped, lavender-blue flowers that appear from midsummer to fall. Russian Sage thrives in full sun, and average to poor, well drained soil. Hummingbirds and butterflies love this plant.

Persicaria filiformis Painters Palette

Plant in:

Balloon Flower

Green foliage, White Flowers

Height: 26-32"

Width: 18"

Flower

Months:6-7

Zone:

Balloon shaped buds open to attractive bright white, star shaped flowers over green foliage. The common name balloon flower refers to the balloon shape the flower has before it opens wide in its full splendor. Fun for kids and adults.

Platycodon grandiflora Sentimntal Blue

Plant in:

Sun Part Sun

Balloon Flower

Green foliage, Blue Flowers

Height: 8-10”

Width: 12”

Flower

Months:6-7

Zone:

This balloon flower cultivar is a dwarf selection that features unique, puffy flower buds shaped like hot air balloons which open into 3" diameter, single, blue, upward-facing, bell-shaped flowers with five pointed lobes. Blooms early and for most of the summer. Very low-maintenance. The common name balloon flower refers to the balloon shape the flower has before it opens wide in its full splendor. Fun for kids and adults.

Platycodon Hakone Double Blue

Plant in:

Sun Part Sun

Balloon Flower

Green foliage, Blue Flowers

Height: 24"

Width: 18"

Flower
Months:6-9

Zone:

Glossy, upright foliage topped with 3" double blue flowers that open from buds that expand like balloons. Very low-maintenance. The common name balloon flower refers to the balloon shape the flower has before it opens wide in its full splendor. Fun for kids and adults.

Platycodon Mariesii Blue

Plant in:

Sun Part Sun

Balloon Flower

Green foliage, Purple Flowers

Height: 12-18"

Width: 15"

Flower

Months:6-7

Zone:

Mariesii' is a pleasing cultivar with rich, bright blue, long-lasting flowers. Clump-forming, upright plants have balloon-shaped buds which open to large, bell-shaped flowers. Foliage is blue-green, neatly 'toothed' along the edges. Be patient, Balloonflower are late to break dormancy in the spring.

Polemonium caeruleum Pearl Blue

Plant in:

Part Sun Shade

Jacob's Ladder

Green foliage, Blue Flowers

Height: 16-18"

Width: 12-20"

Flower

Months:5-6

Zone:

A great improvement over the old 'Jacob's Ladder'. It is a long lived plant with blue flowers and the divided foliage attractively arched. Very nice at the base of small shrubs or bush roses. The flower's fragrance draws people to wherever it is planted. Protect from late day sun.

Polemonium carrneun Apricot Delight

Plant in:

Part Sun Shade

Jacob's Ladder

Green Foliage, Apricot Flowers

Height: 15-20"

Width: 12"

Flower

Months:5-7

Zone:

Plants form a low, bushy mound of ferny-looking green leaves, bearing clusters of apricot-salmon flowers with a tinge of lilac-pink, similar to Phlox. Makes an attractive edging plant for sunny or partly shaded borders, also excellent in the rock garden or in tubs. Trim back lightly after blooming.

Jacob's Ladder

Variegated Foliage, Blue Flowers

Height: 20"

Width: 5"

Flower

Months:6-8

Zone:

Green leaves with white margins tinged with pink. Fragrant pale lavender-blue bell-shaped flowers on upright stems, late spring to early summer. Prefers well drained soil in full sun to partial shade. Deadhead regularly.

Polygonum aubertii Silver Lace Vine

Plant in:

Sun

er Lace Vine, Fleece Flower, chinensis Fleece Vine

Green foliage, White Flowers

Height: 20'

Width: 5'

Flower

Months:9-10

Zone:

Vigorous twining vine with bright green foliage. Fragrant greenish white flowers in late summer. New shoots are bronze-red. Hardy, carefree vines are covered with thousands of light fleecy flower sprays from mid-September until fall. The Silver Lace Vine is a perfect cover for porches, breezeways and fences -- anywhere you want a natural cover.

Potentilla astrosanguinea Fireball

Sun

Cinquefoil, Five Finger

Green Foliage, Red, Orange, and Yellow Flowers

Height: 24-36"

Width: 18"

Flower

Months:6-8

Zone:

This Cinquefoil is a low mound or tuft-forming plant, nice for edging or growing in the rock garden. These easy to grow, long-lasting perennial plants will be awash with color all summer. This blend features some unique and exciting doubles, in a range of fiery colors.

Potentilla aurea verna

Plant in:

Sun

Dwarf Cinquefoil, Five Finger

Green foliage, Yellow Flowers

Height: 3”

Width: 20”

Flower

Months:5-6

Zone:

This Cinquefoil is a low mound or tuft-forming plant, nice for edging or growing in the rock garden. Abundant single golden-yellow buttercup flowers nestle among the small shiny-green leaves starting in late spring. Vigorous with very little maintenance required.

Potentilla nepalensis Miss Wilmott

Plant in:

Sun

Cinquefoil

Green foliage, Pink Flowers

Height: 12-16”

Width: 15”

Flower

Months:6-8

Zone:

There are several non-shrubby Cinquefoils that are wonderful additions to the sunny perennial border. Plants form a low mound of strawberry-like leaves, bearing branches of cup-shaped flowers, beginning in early summer. This selection features blooms of deep pink, with a contrasting cherry-red eye. Plants should be sheared back after blooming, to rejuvenate the foliage

Potentilla recta sulphurea

Plant in:

Sun

Cinquefoil, Five Finger

bright yellow flowers

Height: 15”

Width: 18”

Flower

Months:6-8

Zone:

Upright, branchless with bright yellow heart shaped petal flowers over long, thin and deeply toothed leaves. Excellent for the naturalized garden.

Potentilla tonguei

Plant in:

Sun

Cinquefoil, Five Finger

Green Foliage, Apricot Flowers

Height: 24"

Width: 18-24"

Flower

Months:6-8

Zone:

Apricot yellow flowers with striking red centers during most of the summer. Vigorous, long blooming and very hardy with a creeping habit that forms an evergreen groundcover and also makes an ideal addition to the perennial border or rock garden.

Primula cortusoides Primadiente Rose

Plant in:

Sun Part Sun

Siberian Primrose

Green foliage, Pink Flowers

Height: 6-10"

Width: 8-12"

Flower

Months:3-4

Zone:

An unusual Primrose selection, this plant forms a low rosette of medium-green leaves, bearing open heads of star-shaped pink blooms from mid to late spring. Perfect for a moist rock garden or in light shade beside a stream or pond. Best in cool summer regions

Primula polyanthus Pacific Giants Mix

Plant in:

Sun Part Sun

Primrose

Green Foliage, Mixed Flowers

Height: 10"

Width: 8"

Flower
Months: 5-6

Zone:

Large, fragrant flowers carpet the spring garden with vibrant color. Flowers are large and abundant and come in a variety of dynamic colors with yellow eyes. They have a delicate, spicy fragrance and the flower stems are sturdy. Wonderful in woodland settings, along walkways or at water's edge. Best in a rich, moist, organic soil. Great with spring bulbs.

Primula hybrida bulleesiana

Plant in:

Sun Part Sun

Candelabra Primrose

Blue-green Foliage, Pastel Flowers

Height: 18”

Width: 12”

Flower

Months:6-8

Zone:

The glowy candelabra spikes put on a lasting show of sensationally colored flowers. Their rich tones of bright orange, yellow and mauve glow atop the serene blue-green foliage. For full sun or very light shade in moist, humus-rich and cool soil. This hybrid is one of the candelabra primulas that can thrive in damp conditions.

Primula capitata Noverna Deep Blue

Plant in:

Sun Part Sun

Primrose

Green foliage, Blue Flowers

Height: 12-16”

Width: 10”

Flower

Months:5-8

Zone:

In spring, this perennial offers rosettes of oblong green leaves with serrated edges. Its flower stems are dusted with fine white fuzz for increased graphic interest. The flowers of 'Noverna Blue' are cool violet-blue. The rounded clusters of tubular blooms appear in late spring and contrast nicely with the white stems. If promptly deadheaded, they will continue to appear through to early summer.

Primula auricula Pubescens Mix

Plant in:
Sun Part Sun

Primrose

Green Foliage, Mixed Flowers

Height: 8-10"

Width: 8"

Flower
Months:5-6

Zone:

Dwarf growing with unusual colorings of gray's, greens, russets, reds, blue and other shades mostly with yellow center. Large flower clusters appear above the low growing, hairy foliage in mid spring.

Primula littoniana vialii

Plant in:

Sun Part Sun

chinensise Pogoda Primrose

Green foliage, Pink Flowers

Height: 12-24"

Width: 20"

Flower

Months:5-7

Zone:

With a unique looking flower spike that doesn't quite belong on a primrose, chinensise pagoda primrose shows off red buds that open to violet-pink flowers in a cluster shaped like a rocket. The light-green leaves of this species are crinkled with veins and hairy. In late spring to midsummer, stiff stems rise from the base and form a pointed and tufted cluster of blood-red flower buds at their tops. Once formed, the red buds open from the bottom of the cluster upwards, revealing tiny, dainty, l

Prunella grandiflora Bella Deep Rose

Plant in:

Sun Part Sun

Self Heal, Prunella

Green foliage, Pink Flowers

Height: 8-12”

Width: 15-20”

Flower

Months:6-9

Zone:

These little plants are smothered in blooms all summer long! A mat-forming groundcover that rapidly spreads by running roots. In early to midsummer it produces dense, compact whirls of rosy-pink flowers above the medium-green, spear-shaped leaves. Bees and butterflies frequent the blooms.

Prunella grandiflora Freeland Blue

Plant in:

Sun Part Sun

Self Heal, Prunella

Green foliage, Blue Flowers

Height: 6-10”

Width: 15-20”

Flower

Months:6-9

Zone:

This Prunella simply has no idea how to stop flowering! From late spring through the middle of autumn, it sets new clusters of violet-blue blooms all over the place. One of the longest-blooming plants in any garden, its 2-inch bloom clusters attract butterflies and bees. The stems can reach up to 10 inches high, held above the 7-inch-high foliage of dark green. 'Freeland Blue' is a quick spreader, reaching 18 to 24 inches wide to really cover some ground!

Pulmonaria saccharata Dora Bielefeld

Plant in:

Part Sun Shade

ungwort, Jerusalem Cowslip, Bethlehem Sage

Green Foliage with Silver Spots, Pink Flowers

Height: 12-14”

Width: 18-24”

Flower

Months:3-4

Zone:

‘Dora Bielefeld is one of earliest blooming perennials in the garden. Large leaves are silver spotted and mid-green. Abundant clusters of funnel-shape blooms are produced in late winter or early spring. They are clear pink and showy.

Pulmonaria saccharata Little Star

Plant in:

Part Sun Shade

Lungwort, Jerusalem Cowslip, Bethlehem Sage

Green Foliage with Silver Spots, Blue Flowers

Height: 8”

Width: 12”

Flower

Months:3-4

Zone:

With foliage that is more diminutive than other Pulmonarias, this compact Lungwort can easily squeeze into an intimate space. Delicate clusters of blue bell-shaped flowers with pink overtones at the ends of the stems from mid to late spring, which emerge from distinctive hot pink flower buds. It's attractive glossy narrow leaves remain dark green in color with distinctive silver spots throughout the season.

Pulmonaria majeste

Plant in:

Part Sun Shade

Lungwort, Jerusalem Cowslip, Bethlehem Sage

Silver Foliage, Blue Flowers

Height: 8"

Width: 18"

Flower

Months: 5-6

Zone:

majoreste Lungwort features delicate clusters of blue bell-shaped flowers at the ends of the stems from mid to late spring, which emerge from distinctive pink flower buds. It's attractive glossy narrow leaves remain white in color with distinctive dark green veins throughout the season.

Pulmonaria saccharata Mrs Moon

Plant in:

Part Sun Shade

lungwort, Jerusalem Cowslip, Bethlehem Sage

Variegated Foliage, Pink to Blue Flowers

Height: 9-12”

Width: 15-18”

Flower

Months:4-5

Zone:

Mrs. Moon has 12 inch long leaves that are dotted with silvery gray splotches. In very early spring plants send up graceful clusters of rose-pink buds that soon open to reveal deep blue flowers. The exquisite foliage remains beautiful all season

Pulmonaria longifolia Roy Davidson

Plant in:

Part Sun Shade

ungwort, Jerusalem Cowslip, Bethlehem Sage

Variegated Foliage, Pink to Blue Flowers

Height: 8-10”

Width: 18-24”

Flower

Months:4-5

Zone:

Blooming in early spring with showy sprays of bluebell-shaped flowers, this durable groundcover is also valued for its ornamental foliage. ‘Roy Davidson has an attractive mounding habit and long, narrow blue-green leaves speckled with silver. It will carpet the ground in shady beds and under deciduous trees

Pulmonaria saccharata Margery Fish

Plant in:

Part Sun Shade

lungwort, Jerusalem Cowslip, Bethlehem Sage

Variegated Foliage, Pink Flowers

Height: 18"

Width: 24"

Flower

Months:3-5

Zone:

Margery Fish' has long, elliptical, fuzzy leaves of medium green, covered with silvery speckles extending to cover almost the entire leaf surface. It has lovely, coral-pink flowers in early spring, which turn violet with age.

Pulmonaria officinalis Sissinghurst White

Plant in:

Part Sun Shade

lungwort, Jerusalem Cowslip, Bethlehem Sage

Variegated Foliage, White Flowers

Height: 18"

Width: 18-24"

Flower

Months:4-5

Zone:

Fabulous shade plant with large silver spotted foliage which remains attractive throughout the season. Topped by clean white flower bells in early spring. Mounding habit will spread out to make a beautiful foliage display without being aggressive. Works well under deciduous trees and along woodland pathways. Excellent with bulbs or under trees.

Pulmonaria saccharata Smokey Blue

Plant in:

Part Sun Shade

lungwort, Jerusalem Cowslip, Bethlehem Sage

Variegated Foliage, Pink Flowers

Height: 8-12”

Width: 12-18”

Flower

Months:4-5

Zone:

Smokey Blue' will brighten up your shade garden with bright blue flowers in the early spring. Spreading mats of attractive dark green, white-spotted foliage form the backdrop to a beautiful display of flowers that open pink and turn blue as they age. The silvery spotted foliage looks nice all summer and forms a compact, slowly spreading mound. Very floriferous.

Ranunculus repens Buttered Popcorn

Plant in:

Sun

Creeping Buttercup

Variegated Foliage, Yellow Flowers

Height: 8-10"

Width: 24"

Flower

Months: 5-6

Zone:

The 'Buttered Popcorn' is a great ground cover that vigorously spreads to 4'. Its broad finely cut leaves are silvery-green with a variegated chartreuse edge.

Ratibida columnifera Red

Plant in:

Sun

Mexican Hat

Green Foliage, Red and Yellow Flowers

Height: 12-36"

Width: 15"

Flower

Months:6-8

Zone:

It has delicate yellow flowers in late spring but is mostly grown for its striking foliage color. 'Buttered Popcorn' needs to be planted in a full sun location with well-drained soil.

Mexican Hat

Green Foliage, Yellow Flowers with Brown Eye

Height: 12-36”

Width: 15”

Flower

Months:6-8

Zone:

Often described as a tiny sombrero with a drooping yellow brim, Mexican hat is a drought tolerant perennial that produces its hat-like yellow flowers from summer to frost. The drooping petals surround a finger-like cone that is first light green and then becomes brown. Butterflies visit the flowers, as do other small bees and insects. Birds will eat the seeds in autumn. Crush the foliage and a scent that deer despise is released.

Ratibida pinnata Yellow Coneflower

Plant in:

Sun

Prairie Coneflower

Green Foliage, Yellow Flowers with Brown Eye

Height: 48-60"

Width: 27-36"

Flower

Months:6-8

Zone:

Tall and thinly foliated, prairie coneflowers becomes royalty in the meadow from summer to fall as it shows off its yellow petaled flowers. An herbaceous perennial native to central North America, it grows in both fertile and rocky, nutrient poor soils. Stem tips bear an egg-shaped cone that is first silvery green as the yellow petals unfurl around it. With age, the petals become brighter golden yellow and hang more downward as the cone becomes a chocolately brown. Butterflies love this flower.

Rosa chinensis Angel Wings

Plant in:

Sun

Chinese Miniature Rose

Green Foliage, Pink to White Flowers

Height: 10-12”

Width: 18-24”

Flower

Months:6-9

Zone:

Angel Wings miniature rose will begin producing lovely sweetly scented double and semi-double blooms opening in shades of deep rose, light pink, and creamy white. The plant will reach 3' and will bloom nonstop for years. The Angel Wings Rose makes an excellent, reliable and hardy landscape filler and mixed containers as well.

Rudbeckia fulgida Goldsturm

Plant in:

Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Yellow Flowers with Brown Eye

Height: 24-36"

Width: 24"

Flower

Months:6-8

Zone:

Goldsturm is a perennial that everyone knows and loves as it packs a punch of golden garden color in late summer. It is one of the most highly planted perennials on the market today. Basal clumps of hairy, medium green leaves give rise to long leafy stalks topped with golden yellow daisies punctuated with black eyes. Plants spread underground and may form large colonies over time. Many pollinators are drawn to black-eyed Susan flowers, to include butterflies and bees. The dry, black, buttons o

Rudbeckia hirta Goldilocks

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Gold Flowers

Height: 18-24”

Width: 12”

**Flower
Months:6-8**

Zone:

The heavy blooming 'Goldilocks' has dense branching, a compact habit, and sweet semi-double golden orange daisies with dark eyes. It is easy to grow and offers lots of blooms in the heat of summer. It is wonderfully easy to grow and blooms for an extended period of time offering pollen and nectar for bees and butterflies.

Rudbeckia hirta

Plant in:

Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Yellow Flowers with Brown Eye

Height: 36"

Width: 24"

Flower

Months:6-8

Zone:

The rich green leaves of gloriosa daisy are linear, often lance-shaped, leaves have a coarsely hairy surface that's rough to the touch. The leaves form neat basal clumps that send up thick, leafy stems topped with large gold or orange daisies with prominent, raised black-brown centers. Blooming begins in summer and can continue for up to two months with deadheading. The flowers are superb for cutting and attract many pollinators, such as bees and butterflies.

Rudbeckia hirta Cherry Brandy

Plant in:

Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Burgundy Flowers

Height: 24”

Width: 12”

Flower
Months:6-8

Zone:

These single daisies with dark centers and dark red, burgundy, apricot and chocolate ray petals. These sun-loving, short-lived perennials are excellent for cutting and will brighten any sunny flower border. It is a warm season bloomer that forms a clump of foliage from which rises thick, leafy stems topped with large daisies with prominent, raised dark-brown or black centers. These make superb cut flowers and attract many pollinators, such as bees and butterflies.

Rudbeckia hirta Denver Daisy

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Chocolate and Gold Flowers

Height: 20”

Width: 18”

Flower

Months:6-8

Zone:

‘Denver Daisy has large, golden daisies with chocolate brown centers and marks at the base of each petal. This lovely garden flower performs well, is exceptionally heat tolerant and blooms for a long time in summer. It is a warm season bloomer that forms a clump of foliage from which rise thick, leafy stems topped with large daisies.

Rudbeckia hirta Moreno

Plant in:

Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Chocolate and Gold Flowers

Height: 12”

Width: 10-18”

Flower

Months:6-10

Zone:

What a color sensation! The fantastic dark-eyed flowers of ‘Moreno have many pointed petals of russet chocolate dipped in gold. Their deep rich color will add depth to any floral border in need of contrast and interest. It is very compact, easy to grow and offers lots of blooms in the heat of summer.

Rudbeckia hirta Indian Summer

Plant in:

Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green foliage, Yellow Flowers

Height: 26-42”

Width: 24”

Flower

Months:6-8

Zone:

These have some of the largest flowers of all the gloriosa daisies. The enormous golden yellow blooms of 'Indian Summer' have typical “black eyes” and are great for cutting. In summer this clump forming plant puts forth thick leafy stems topped with large daisies with yellow petals and brown-black central cones. These attract many pollinators, such as bees and butterflies.

Rudbeckia hirta Irish Eyes

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Yellow Flowers with Green Eyes

Height: 30”

Width: 18”

Flower

Months:6-8

Zone:

The heavy blooming 'Irish Eyes has fantastic bright yellow and gold daisies with emerald green eyes—a far cry from your typical black-eyed Susan. It is easy to grow, great for cutting and offers lots of blooms in the heat of summer. Throughout the summer, the clump-forming, short-lived perennial puts forth, thick, leafy stems topped with colorful flowers that attract pollinators such as bees and butterflies. If the seed heads are left to dry, they will attract seed eating birds.

Rudbeckia hirta Marmalade

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green foliage, Golden-Yellow Flowers

Height: 16-18”

Width: 18”

Flower
Months:6-8

Zone:

The pretty ‘Marmalade has terrific golden orange daisies with dark eyes. It is easy to grow and offers lots of blooms in the heat of summer. Throughout the summer, this clump-forming, short-lived perennial puts forth, thick, leafy stems topped with large flowers that attract pollinators such as bees and butterflies. Cut its fresh stems or deadhead regularly to encourage continued bloom.

Rudbeckia hirta Maya

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green foliage, Yellow Flowers

Height: 18-20”

Width: 20”

Flower
Months:6-10

Zone:

Maya black-eyed Susan is a double-flowered variety of this clump forming short-lived perennial. Throughout the summer, it bears many beautifully doubled golden daisies with petals so dense they almost look like pincushions. These appear on tall, stout stems lined with hairy dark green leaves and attract many pollinators, such as bees and butterflies. Maya provides superb cut flowers.

Rudbeckia hirta Prairie Sun

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green foliage, Yellow Flowers

Height: 28-36”

Width: 18-24”

Flower

Months:6-9

Zone:

A distinctive cultivar of black-eyed Susan, 'Prairie Sun' has large showy flowers with a pale green central cone and bicolored yellow and orange petals. Throughout the summer, this clump-forming, short-lived perennial puts forth, thick, leafy stems topped with large flowers that attract pollinators such as bees and butterflies. Cut its fresh stems or deadhead regularly to encourage continued bloom.

Rudbeckia hirta Rustic Mix

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green Foliage, Gold and Mahogany Flowers

Height: 24"

Width: 24"

Flower
Months:6-8

Zone:

The warm and inviting flower colors of Rustic Mix are mahogany, bronze-red and gold. Throughout the summer, the clump-forming, perennial puts forth, thick, leafy stems topped with colorful flowers that attract pollinators such as bees and butterflies. The pretty daisies are large, colorful and have dark central cones. Deadhead regularly to encourage continued bloom. These black-eyed Susans are compact, easy to grow and offer lots of blooms in the heat of summer.

Rudbeckia hirta Tiger Eye Gold

Plant in:
Sun Part Sun

Black Eyed Susan, Gloriosa Daisies

Green foliage, Golden-Yellow Flowers

Height: 16-24”

Width: 18”

Flower
Months:6-8

Zone:

Lush and large deep gold petals surround a dark eye. Well branched and compact. You can have them for years, but the original plants will only last a season or two. The plants self-seed readily, and if you learn to recognize the slightly hairy seedlings and allow a few to develop where you want them, you can have as many as you want.

Rudbeckia triloba

Plant in:
Sun Part Sun

Brown Eyed Susan

Green foliage, Yellow Flowers

Height: 2-3'

Width: 18"

Flower

Months:8-10

Zone:

Prized by butterfly and hummingbird gardeners, this three-lobed coneflower is very drought tolerant and produces hundreds of small, deep gold flowers that bloom for almost three months!

Sagina subulata Aurea

Plant in:

Sun Part Sun

Scotch Moss

Golden foliage, white flowers

Height: 2"

Width: 6-8"

Flower

Months: 6-7

Zone:

Sagina looks like a scratch-proof sponge, but feels so much softer. It spreads by creeping stems to form a soft, mounded, mossy carpet. Scotch moss favors clay soil and has a yellow tint to the foliage

Sagina subulata

Plant in:

Sun Part Sun

Irish Moss, Pearlwort

Green foliage, White Flowers

Height: 2"

Width: 6-12"

Flower

Months: 5-6

Zone:

Sagina looks like a scratch-proof sponge, but feels so much softer. Irish Moss is covered in tiny, star-shaped white flowers in spring. It spreads rapidly to form a carpet that looks especially nice against gray stone.

Salvia argentea Artemis

Plant in:

Sun Part Sun

Meadow Sage

Silver Foliage, Pink Flowers

Height: 24-36"

Width: 1-3'

Flower

Months:5-6

Zone:

In the first year plants make unusual dwarf rosettes of soft grey woolly 3' across foliage that is impossible to pass without touchinensig, followed in the second year by tall silver spikes with pinkish-white flowers.

Salvia pratensis Eveline

Plant in:

Sun Part Sun

Meadow Sage

Green foliage, Pink Flowers

Height: 12”

Width: 24”

Flower

Months:6-8

Zone:

This welcome jolt of color and impact stands out among salvias. The tall, upright spikes, boasting outside bicolor flowers of light pink with dark calyces, create a stunning show.

Salvia lyrata Purple Knockout

Plant in:

Sun Part Sun

Meadow Sage

Purple foliage, lavender flowers

Height: 18”

Width: 12”

Flower

Months:6-8

Zone:

Most noted for its attractive foliage, which starts out a bronzy reddish-purple turning shiny purple in summer, then red in fall. Spikes of tiny blue-purple flowers. Striking foliage provides contrast for other plants.

Salvia nemerosa Blue Hills

Plant in:

Sun Part Sun

Meadow Sage

Green foliage, Blue Flowers

Height: 18-24”

Width: 18-24”

Flower

Months:6-8

Zone:

The bluest salvia available, 'Blue Hill' produces lavender blue flowers that appear in late May to June on an upright plant with aromatic green-gray foliage. Very heavy bud count and long bloom time. Feel free to shear back this drought tolerant variety after flowering to encourage new growth

Salvia nemerosa Caradonna

Plant in:
Sun Part Sun

Meadow Sage

Green foliage, Purple Flowers

Height: 18-24”

Width: 18-24”

Flower

Months:6-9

Zone:

‘Caradonna has glowing purple stems loaded with violet-purple flowers that bloom from June to October. With its gray-green aromatic foliage, it makes an attractive accent all summer long. For best performance, shear back this drought tolerant plant after flowering.

Salvia nemerosa East Friesland

Plant in:

Sun Part Sun

Meadow Sage

Green foliage, Purple Flowers

Height: 12-18”

Width: 12”

Flower

Months:6-7

Zone:

East Friesland, *Salvia nemerosa* 'Ostfriesland', has glowing purple stems loaded with violet-purple flowers that bloom from June to October. With its blue-green, lance-shaped aromatic foliage, it makes an attractive accent all summer long. Cut back hard after blooming to force a repeat bloom.

Salvia nemerosa May Night

Plant in:
Sun Part Sun

Meadow Sage

Green foliage, Purple Flowers

Height: 24"

Width: 24"

Flower
Months:6-7

Zone:

A former Perennial Plant of the Year, the aromatic dark green foliage and compact habit of 'May Night' gives rise to very dark purple flower spikes in late May to June. This very popular cultivar will benefit from shearing after flowering.

Salvia nemerosa Rosenwein

Plant in:
Sun Part Sun

Meadow Sage

Green foliage, Pink Flowers

Height: 24”

Width: 24”

Flower
Months:6-7

Zone:

Let this salvia bathe your garden with bright rose-hued flowers! Adorning a low mound of tidy green foliage, the upright leafy spikes are offset by prominent, dark earthy pink calyxes and buds of the same shade

Meadow Sage

Green foliage, White Flowers

Height: 18”

Width: 18”

Flower
Months:6-7

Zone:

Deep purple stems bear hundreds of tiny, puffy white flowers all summer long and into fall. A pleasing combination with its fragrant silver green foliage. Highly resistant to heat, drought and deer, this lovely salvia is attractive to hummingbirds, butterflies and gardeners alike

Salvia nemerosa New Dimension Rose

Plant in:

Sun Part Sun

Meadow Sage

Green foliage, Pink Flowers

Height: 10-12”

Width: 8-10”

Flower

Months:6-7

Zone:

Long lasting spikes of vibrant, rose-purple flowers bloom on compact, well-branched, heavy-blooming, heat tolerant plants growing 8-10” tall. Salvias are long blooming, easy to grow, heat and drought tolerant perennials which can be spectacular. Hummingbirds love their flowers and they are excellent for cutting.

Salvia pratensis Rose Rhapsody

Plant in:
Sun Part Sun

Meadow Sage

Green foliage, Pink Flowers

Height: 20”

Width: 18”

Flower

Months:6-7

Zone:

Enchanting, hooded flowers in shades of pink, bloom on long stems over dark green, aromatic foliage from June to August. May rebloom September to October. if deadheaded.

Salvia pratensis Swan Lake

Plant in:
Sun Part Sun

Meadow Sage

Green foliage, White Flowers

Height: 20"

Width: 18"

Flower

Months:6-7

Zone:

Masses of pure white flowers bloom up and down 20" tall spikes, June-Aug., over mounds of wrinkled, light green foliage. Drought tolerant. Cut back after flowers have almost passed for a second showing.

Salvia pratensis Twilight Serenade

Plant in:

Sun Part Sun

Meadow Sage

Green foliage, Purple Flowers

Height: 20"

Width: 18"

Flower

Months:6-7

Zone:

This new addition to the Ballet Series boasts distinctively hooded, lavish blue-violet blossoms on upright 20 in. green stems above an attractive green rosette of ruffly toothed leaves.

Salvia superba Blue Queen

Plant in:

Sun Part Sun

Meadow Sage

Green foliage, Blue Flowers

Height: 15”

Width: 12”

Flower

Months:6-7

Zone:

Masses of pencil-thin, vibrantly colorful bloomspikes arise on this perennial Sage, so densely set that they present a solid wall of color in the border! The deep blue blooms are richly colorful on dwarf 12-inch plants, blooming in early summer and then repeating their fine show later in the season. A spectacular source of dark, intense color and narrow, vertical form

Salvia superba Plumosa

Plant in:

Sun Part Sun

Meadow Sage

Green foliage, Purple Flowers

Height: 15-18”

Width: 18”

Flower

Months:6-7

Zone:

Distinguished by its unique, astilbe-like plumes, this floriferous salvia delivers eye-catching appeal to the edge of the border. With a chenille velvet texture, the dusky mulberry-purple flowers top aromatic, lance-shaped foliage.

Salvia verticillata Purple Rain

Plant in:

Sun Part Sun

Meadow Sage

Green-Grey Foliage, Lavender Flowers

Height: 18"

Width: 18"

Flower
Months: 6-7

Zone:

This lilac sage cultivar is a compact plant which typically grows only to 24" tall with a somewhat cascading habit. Features whorls of smoky purple flowers on spires atop long arching or drooping stems on coarse, broad, heart-shaped gray-green leaves. Flowers bloom throughout the summer and are attractive to bees and butterflies. 'Purple Rain' will be an excellent rebloomer when sheared after the initial flowering.

Saponaria ocymoides Soapwort

Plant in:

Sun Part Sun

Rock Soapwort

Green foliage, Pink Flowers

Height: 8-10”

Width: 20”

Flower

Months:6

Zone:

Long popular as a rock garden or wall plant, this low, sprawling perennial is a popular old-fashioned plant. From late spring into summer it bears clouds of small, starry, rose-pink or white flowers on purple-flushed stems. The dainty, oval, mid-green leaves are concentrated toward the center of the plant.

Saxifraga arendsii Purple Robe

Plant in:
Sun Part Sun

Rockfoil

Green foliage, Red Flowers

Height: 8"

Width: 12"

Flower

Months: 5-6

Zone:

A mossy saxifrage which forms a dense mound of bright green foliage with a purple wash underneath. It is covered in late spring with small, cup-shaped, deep carmine red flowers held on short, strong stems. For partial shade, in moist but well-drained soil. Good rock garden plant.

Scabiosa columbaria Butterfly Blue

Plant in:

Sun Part Sun

Pincushion Flower

Green-Grey Foliage, Lavender Flowers

Height: 12-15”

Width: 18”

Flower

Months:6-8

Zone:

Butterfly blue pincushion flower is a short lived flowering perennial that produces large violet-blue flowers all summer. These intricate, lacy flowerheads appear atop tall, wiry stems and contrast nicely with its lobed, gray-green leaves. Spent flowers should be removed to ensure continued flowering.

Scabiosa columbaria Pink Mist

Plant in:
Sun Part Sun

Pincushion Flower

Green-Grey Foliage, Pink Flowers

Height: 15”

Width: 12”

Flower

Months:6-9

Zone:

The deeply cut, dark green foliage of 'Pink Mist' will give rise to pink, pincushion-like flowers that will linger all summer long. Remember to plant this variety in freely drained soil for maximum performance.

Pincushion Flower

Green-Grey Foliage, Mixed Flowers

Height: 24-36"

Width: 15"

Flower

Months:6-8

Zone:

Produces a continuous supply of large 3 inch pincushion type flowers on long wiry stems from June right up until frost. They attract butterflies and are superb for cutting. Colors include shades of lavender, light to deep blue and silver-white. Grows 2-3 feet tall.

Scabiosa japonica Blue Diamonds

Plant in:

Sun Part Sun

Pincushion Flower

Green-Grey Foliage, Lilac Blue Flowers

Height: 6-10"

Width: 18"

Flower

Months:6-8

Zone:

The dwarf cultivar 'Blue Diamonds' bears lilac-blue flower heads through much of summer above low clumps of dissected glossy dark green leaves. Held on wiry stems, the disk-shaped flower heads have fringed edges and a central bristle of protruding stamens. Butterflies and hummingbirds flock to the blooms. Deadhead to promote continual blooming.

Scabiosa ochroleuca

Plant in:

Sun Part Sun

Pincushion Flower

Green-Grey Foliage, White to Pale Yellow Flowers

Height: 18-24”

Width: 12-15”

Flower

Months:6-8

Zone:

Pincushion flowers are delightful old-fashioned perennials, suited to any sunny border. This form is rather unique in having soft-primrose yellow flowers, held on branchinensig stems for many weeks. Makes an excellent cut flower. Plants are useful in the garden, acting as a filler among other perennials, the soft color blending well with nearly anything. Tolerant of hot, dry sites.

Sedum acre

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Yellow Flowers

Height: 2-5”

Width: 12”

Flower

Months:5-7

Zone:

Sedum 'Acre' is a ray of sunshine. The small, succulent, egg-shaped leaves are crowded on short stems attached to long trailing arms that root as they go. In late spring and early summer, a dense mass of small bright-yellow star-shaped blossoms cover the foliage, resembling a mound of golden moss.

Sedum acre Golden Carpet

Plant in:

Sun

Sedum, Stonecrop

Golden foliage, Yellow Flowers

Height: 2-6”

Width: 12”

Flower

Months:6-7

Zone:

This mat-forming plant has brilliant yellow-green foliage and bears yellow, star-shaped flowers in summer. A vigorous plant for rock gardens and ground cover.

Sedum album Coral Carpet

Plant in:

Sun

Sedum, Stonecrop

Coral to green Foliage, Pink Flowers

Height: 2-4”

Width: 8-12”

Flower

Months:6-7

Zone:

Coral Carpet' features a mat of tiny, teardrop, succulent leaves that emerge in spring tinged coral before changing to bright green by summer. Tiny white to pale pink, star-like flowers appear in June before the foliage changes again in fall to coral-bronze.

Sedum, Stonecrop

Green foliage, Yellow Flowers

Height: 2-6”

Width: 12”

Flower

Months:6-7

Zone:

Classic evergreen perennial groundcover forms low rosettes of green teardrop-shaped leaves, backing a nice display of white flowers in spring and summer. A perfect choice for the rock garden. Works well in hanging baskets. Attracts butterflies. Drought tolerant once established.

Sedum spectabile Autumn Fire

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Pink Flowers

Height: 24-30”

Width: 8-12”

Flower

Months:8-9

Zone:

An offspring of the famous Autumn Joy, Autumn Fire retains all its parent's best attributes but clicks them up a notch. Stronger, stouter stems, gray-green leaves with wavy-toothed edges, larger, longer lasting flower heads packed with tiny rosy-pink florettes and plants that fade more gracefully into botanical architecture for the winter garden. A very good thing just got better.

Sedum, Stonecrop

Green Foliage, Mauve Flowers

Height: 18”

Width: 12”

Flower

Months:8-9

Zone:

It's no surprise that this is such a stand-by perennial. This plant is as dependable and adaptable as they come. Its flowers bloom from August into November; they open pink and mature to a copper befitting of autumn. It is 2 feet tall and wide, with succulent stems and leaves. 'Autumn Joy' looks great with ornamental grasses. Pinch in late June to prevent flopping and delay flowering.

Sedum Bertram Anderson

Plant in:

Sun

Sedum, Stonecrop

Burgundy Foliage, Burgundy Flowers

Height: 3-6"

Width: 8"

Flower

Months:6-7

Zone:

This variety forms a low carpet of small, burgundy-black leaves, spreading to form a small patch. Clusters of purple-red star flowers appear in late summer. A slow grower, this is well suited to the rock garden, or for edging, also a good choice for tubs and mixed containers.

Sedum reflexum Blue Spruce

Plant in:

Sun

Sedum, Stonecrop

Blue-green Foliage, Yellow Flowers

Height: 6-10”

Width: 8-12”

Flower

Months:6-7

Zone:

Silvery-blue spruce like foliage with bright yellow flowers on a creeping habit. 'Blue Spruce' will generate a mass of spreading, blue, needle-shaped foliage that will thrive in sunny locations and sandy soils. A bonus bloom of yellow flowers will occur in midsummer.

Sedum spurium Bronze Carpet

Plant in:

Sun

Sedum, Stonecrop

Bronze Foliage, Pink Flowers

Height: 4-6”

Width: 8-12”

Flower

Months:6-7

Zone:

Bronze Carpet' contributes seasonal color as well as semi-evergreen cover. New growth is salmon-orange in spring, with the close-set, fleshy leaves maturing to bronzy red, providing an ideal foil to the starry pink flowers that are borne on elevated stalks in early summer. This mat-former is ideal for the rock garden or the front of a sunny border.

Sedum caudicicola Lidakense

Plant in:

Sun

Sedum, Stonecrop

Blue-grey Foliage, Pink Flowers

Height: 10-12”

Width: 12”

Flower

Months:8-9

Zone:

'Lidakense' has round, penny-like blue-gray leaves that grow in a somewhat informal pattern. It also has equally attractive rose-pink flowers in August and September. The foliage takes on bronze-red tones in fall and winter, and it is semi-evergreen.

Sedum dasphyllum

Plant in:

Sun

Sedum, Stonecrop

Grey-Green foliage, White to Pink Flowers

Height: 2-3”

Width: 12”

Flower

Months:6-7

Zone:

Fine blue-gray foliage that is tightly placed along the stem gives rise to clusters of white flowers striped lightly with pink during late August to September. This is one sedum that prefers partial shade.

Sedum kamtshcatium Ellacombianum

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Yellow Flowers

Height: 6”

Width: 20”

Flower

Months:6-7

Zone:

This Sedum forms an attractive mound of vibrant green toothed leaves that stay attractive 3 seasons of the year. Even in fall the foliage takes on a soft pinkish hue. Early summer give way to hundreds of cheerful yellow flowers that smother the foliage.

Sedum ewersii

Plant in:

Sun

Sedum, Stonecrop

Blue-green Foliage, Pink Flowers

Height: 8"

Width: 8-14"

Flower

Months:6-7

Zone:

Creeping wiry stems with bluish-green foliage. Each stem bears rosy-pink flowers mid-summer. It forms a low, non-spreading tuft or mound of rounded, blue-green leaves. Rose-pink star flowers appear in late summer, clustered at the ends of each stem.

Sedum ewersii Mini

Plant in:

Sun

Sedum, Stonecrop

Grey-Purple Foliage, Pink Flowers

Height: 3-4”

Width: 6-8”

Flower

Months:6-7

Zone:

Mini Ewersii' produces adorable, low cushions of gray leaves hazed with purple. As a bonus, the foliage will be covered with pink flowers during late August to September.

Sedum Green Spruce

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Yellow Flowers

Height: 6”

Width: 8-12”

Flower

Months:6-7

Zone:

This sedum features dark green, semi-upright needle-like foliage topped with yellow flowers in mid-summer. Excellent for dry site in rock gardens or as a ground cover.

Sedum hakonense Chocolate Ball

Plant in:

Sun

Sedum, Stonecrop

Brown-red Foliage, Yellow Flowers

Height: 6-8"

Width: 6"

Flower

Months:6-9

Zone:

This unusual sedum has needle shaped foliage that ranges in color from chocolate brown in the spring to a burgundy-brown in the fall. Clusters of bright yellow flowers appear in summer over this self mat-forming sedum.

Sedum hispanicum

Plant in:

Sun

Sedum, Stonecrop

Grey-green Foliage, White Flowers

Height: 2-3”

Width: 6”

Flower

Months:

Zone:

This is a tiny, almost mossy mat-forming plant with glaucous blue leaves. The white to very pale pink six-petalled flowers are produced in early Summer. It spreads freely from small cuttings and will tolerate being walked on occasionally.

Sedum hispanicum Purple Form

Plant in:

Sun

Sedum, Stonecrop

Blue-grey to Purple Foliage, Pink flowers

Height: 2-3”

Width: 12”

Flower

Months:6-7

Zone:

Blue-gray foliage in summer then changing to deep blue and lovely hues of purple in colder weather. In late summer, foliage is completely covered with small pink star-shaped flowers. Extremely heat drought tolerant. A good plant for walkways, rock gardens and container plantings.

Sedum spurium John Creech

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Pink Flowers

Height: 4”

Width: 8”

Flower

Months:6-7

Zone:

Small, scalloped green leaves form a durable, weed smothering semi-evergreen groundcover. Small dark pink flowers in June and July create a layer of color over the lush carpet of foliage. A fine selection for spotting in rock walls and rock gardens.

Sedum kamtschaticum Variegatum

Plant in:

Sun

Sedum, Russian Stonecrop

Variegated Foliage, Yellow Flowers

Height: 5"

Width: 12"

Flower

Months: 6-7

Zone:

This tough, drought-tolerant species has narrow leaves edged in cream which turn pink in the sun. In early summer, half-inch golden yellow flowers that open from pink buds. It grows to about 5 inches tall and a little wider and makes a good groundcover.

Sedum kamtschaticum

Plant in:

Sun

Sedum, Russian Stonecrop

Green foliage, Yellow Flowers

Height: 4-5”

Width: 12-18”

Flower

Months:6-7

Zone:

This tough, drought-tolerant species has glossy deep green narrow leaves and, in early summer, half-inch golden yellow flowers that open from pink buds. It grows to about 5 inches tall and a little wider and makes a good groundcover.

Sedum makinoi Ogon

Plant in:

Sun

Sedum, Stonecrop

Bright Green, Yellow Flowers

Height: 2"

Width: 18-24"

Flower

Months:6-7

Zone:

'Ogon' is perhaps the brightest of our groundcover sedums. Its small, rounded leaves are pure gold flushed pink. This very low growing spreading variety stays full throughout the growing season. It has round, flat, chartreuse to bright yellow leaves. Summer flowers are green-yellow.

Sedum Matrona Maximum

Plant in:

Sun

Sedum, Stonecrop

Green-blue foliage, Pink Flowers

Height: 18-24"

Width: 24"

Flower

Months:7-9

Zone:

This upright, clumping sedum has nice blue-green foliage with rose colored veins and burgundy-rose stems. In late summer they are topped with many light pink flowers. They are quite sturdy and look great in the garden with Russian sage and ornamental grasses.

Plant in:

Sedum sieboldii Mediovariegatum

Sun

Sedum, Stonecrop

Variegated Foliage, Pink Flowers

Height: 16-20”

Width: 12-18”

Flower

Months:6-7

Zone:

This selection is grown mostly for the foliage, the large pea-green leaves bear a striking creamy-yellow blotch in the center. Green broccoli-like buds appear in mid-summer, gradually opening into large white flower heads, tinged with pale pink. In rich soils, plants may be pinched in June to prevent floppiness. Remove any all-green shoots, if they appear.

Sedum spectabile Mini Joy

Plant in:

Sun

Sedum, Stonecrop

Green Foliage, Mauve Flowers

Height: 12-15”

Width: 12-18”

Flower

Months:7-9

Zone:

This scaled-down version of the popular hybrid 'Autumn Joy' fits nicely into smaller garden niches. It forms dense rounded clumps of fleshy oval blue-green leaves from spring until fall. In late summer it bears dense domed broccoli-like heads of small starry rose-pink flowers on compact pink-flushed stems. The flowers deepen in color as they age. After the blooms have faded, the purple-brown seedheads remain, offering winter interest.

Sedum telephium Munstead Dark Red

Plant in:

Sun

Sedum, Stonecrop

Grey-Green foliage, Red Flowers

Height: 18-24”

Width: 20”

Flower

Months:7-9

Zone:

Munstead Dark Red Stonecrop features beautiful clusters of crimson flowers with rose overtones at the ends of the stems from late summer to late fall, which emerge from distinctive dark red flower buds. It's attractive large succulent round leaves remain dark green in color with prominent burgundy tips throughout the season.

Sedum nevii Silver Frost

Plant in:

Sun

Sedum, Stonecrop

Silvery Foliage, White Flowers

Height: 3-6”

Width: 12”

Flower

Months:6-7

Zone:

This plant forms handsome, clumping carpets of tiny silver-gray leaves, which shade to bronze-red in summer. From June to August Silver Frost is covered in clusters of small, white star-shaped flowers. It is covered with creeping rosettes which can grow around rocks or anchor into crevices.

Sedum platycladus

Plant in:

Sun

Sedum, Stonecrop

Bright Green Foliage, Yellow Flowers

Height: 4"

Width: 6"

Flower

Months:6-7

Zone:

This creeping Stonecrop has succulent gray rosettes surrounding pale yellow flowers in mid-summer. Resembles Hens and Chicks in that it is a low-growing succulent ground cover.

Sedum Postman's Pride

Plant in:

Sun

Sedum, Stonecrop

Burgundy foliage, Reddish Flowers

Height: 10-12"

Width: 12-15"

Flower

Months: 7-8

Zone:

Postman's Pride' sedum is a wonderful dark-foliaged plant for sunny, dry locations. It has a semi-upright habit and produces masses of red to purple flowers from late summer through fall. The flowers attract honeybees and butterflies.

Sedum Purple Emperor

Plant in:

Sun

Sedum, Stonecrop

Dark Purple Foliage, Pink Flowers

Height: 16”

Width: 9-12”

Flower

Months:8-9

Zone:

A tall sedum with very dark, almost black foliage on compact purple stems. In the late summer, they are topped with heads of pinkish, purple flowers. Plant with asters or coneflowers for a wonderful autumn display.

Sedum Rosy Glow

Plant in:

Sun

Sedum, Stonecrop

Green-blue foliage, Pink Flowers

Height: 8"

Width: 12"

Flower

Months: 6-7

Zone:

Rosy Glow' is a low, clumping stonecrop that has blue-green succulent-like foliage and in late summer boasts rich ruby-red flower clusters until fall. The small stature of 'Rosy Glow' makes it perfect for edging the garden or border, and is great when used in containers. Flowers are attractive to bees and butterflies. Prune back in early spring

Sedum rupestre Angelina

Plant in:

Sun

Sedum, Stonecrop

Bright Green Foliage, Yellow Flowers

Height: 4-6”

Width: 8-12”

Flower

Months:6-7

Zone:

Chartreuse foliage topped by starry yellow flowers in summer. Plant matures to orange in autumn. 'Angelina' is drought-tolerant, low-growing and fast-spreading.

Sedum sieboldii

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Pink Flowers

Height: 6-10”

Width: 24”

Flower

Months:6-7

Zone:

Fleshy blue-green, nearly round foliage topped with clusters of pink flowers. Slow growing makes it ideal for rock gardens and a non-invasive ground cover.

Sedum spectabile Brilliant

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Pink Flowers

Height: 18”

Width: 8”

Flower

Months:6-7

Zone:

Succulent, gray-green leaves with compact, hand-sized carmine-pink colored flower heads on an upright sedum that can tolerate most any well-drained soil. Leave flower heads on to provide nice winter interest.

Sedum spectabile Frosty Morn

Plant in:

Sun

Sedum, Stonecrop

Variegated Foliage, White to Pink Flowers

Height: 18-24”

Width: 12”

Flower

Months:6-7

Zone:

The foliage is light green with wide, creamy white borders. Plants form broad heads of buds in late August and then open up to reveal lovely flowers in September. The flowers are white in warmer areas, pale pink in cooler areas.

Sedum spectabile Variegated

Plant in:

Sun

Sedum, Stonecrop

Variegated Foliage, Pink Flowers

Height: 12-15”

Width: 12”

Flower

Months:6-7

Zone:

This upright growing sedum has striking, variegated green foliage with creamy white centers. Late summer to mid-autumn's white flower buds open to reveal pale pink centers.

Sedum spurium coccineum Dragons Blood

Plant in:

Sun

Sedum, Stonecrop

Bronze to Green Foliage, Pink Flowers

Height: 4"

Width: 12"

Flower

Months: 6-7

Zone:

The bronzy-green foliage produces clusters of intense rose-red flowers. An excellent ground cover or for use in rock gardens. Attracts bees and butterflies.

Sedum spurium Elizabeth

Plant in:

Sun

Sedum, Stonecrop

Bronze Foliage, Reddish Flowers

Height: 4-6”

Width: 12”

Flower

Months:6-7

Zone:

Elizabeth also known as Sedum Red Carpet, is a wonderful ground cover that is a little different from the rest. With a height of 4-6” and a spread of 18-24”, its red blooms flower from May to September. The foliage is a dark red with green and produces a wonderful fall color.

Sedum spurium Tricolor

Plant in:

Sun

Sedum, Stonecrop

Variegated Foliage, Pink Flowers

Height: 4-6”

Width: 18”

Flower

Months:6-9

Zone:

This fast growing ground cover has stunning tri-colored leaves of pink, white & green and is topped with pink flowers in mid-summer. Sedum Tricolor thrives with little to no care and keeps its colorful foliage show all spring, summer, and fall.

Sedum stoloniferum Green

Plant in:

Sun Part Sun

Sedum, Stonecrop

Green foliage, Pink Flowers

Height: 3-6”

Width: 8-12”

Flower

Months:6-7

Zone:

A low-growing evergreen sedum producing pink tinted flowers in June above bluish-green foliage. Excellent groundcover plant, especially for hot dry places.

Sedum Vera Jameson

Plant in:

Sun

Sedum, Stonecrop

Burgundy foliage, Pink Flowers

Height: 9-12”

Width: 12”

Flower

Months:6-7

Zone:

New growth shows blue-green leaves that slowly turn a powdery mahogany-purple. Dusky-pink starry flowers appear in late summer, clustered at the ends of each stem. This plant resents wet feet, so plant it in a well-drained site.

Sedum floriferum Weihenstephaner Gold

Plant in:

Sun

Sedum, Stonecrop

Green foliage, Yellow Flowers

Height: 6"

Width: 12"

Flower

Months:6-7

Zone:

The plant is among the most popular groundcover sedums with its covering of tiny canary yellow star-shaped flower clusters in late spring. It is a low-growing stonecrop that spreads by trailing stems to form an attractive ground cover. Flowers appear on reddish stems rising above the thick, triangular, succulent green leaves sharply toothed near the ends. The leaves turn purple in fall and into winter and the flowers are very attractive to butterflies and bees.

Semi-Aquilegia ecalcarata

Plant in:

Sun Part Sun

False Columbine

Green foliage, Purple Flowers

Height: 8-12"

Width: 10"

Flower
Months:6

Zone:

A very close cousin to regular Columbine, differing in that the flowers lack the usual spurs at the back. This is a delightful low plant for edging, in the rock garden or bright woodland. It forms a mound of finely divided, ferny-looking leaves, bearing upright stems with graceful nodding flowers in shades of deep violet to wine purple during late spring and early summer. Allow to self seed for successive generations.

Sempervivum braunii

Plant in:

Sun

Hens and Chicks, Common Houseleek

Green with Burgundy Tips

Height: 3-4”

Width: 12”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. Small, dark green leaves covered with fine white hairs form tight rosettes 2 in wide. Their sharply pointed tips are occasionally flushed with red. Color may vary per season. Yellow flowers.

Sempervivum Emerald Empress

Plant in:

Sun

Hens and Chicks, Common Houseleek

Bright Green

Height: 2-4”

Width: 12”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. These vigorous plants have cluster of open large-leaved rosettes in solid gray-green, and purple star-shaped flowers.

Plant in:

Sempervivum Hens & Chicks Mix

Sun

Hens and Chicks, Common Houseleek

Assorted Burgundys and Greens

Height: 3-4”

Width: 15”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. This is an interesting collection of evergreen succulents. Many forms and colorations are mixed together.

Sempervivum Jade Rose

Plant in:

Sun

Hens and Chicks, Common Houseleek

Bright Green

Height: 2-4”

Width: 10-15”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. This green variety has narrow petals in tight rosettes.

Sempervivum Moss Rose

Plant in:

Sun

Hens and Chicks, Common Houseleek

Green with Burgundy Centers

Height: 2-4”

Width: 12”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. Large round compact rosettes with shiny silver and deep red leaves edges with fine hairs.

Sempervivum pilosium

Plant in:

Sun

Hens and Chicks, Common Houseleek

Bright Green

Height: 3"

Width: 12"

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. This variety has striking medium green foliage on vigorous, small to medium plants with loose rosettes.

Sempervivum Purple Beauty

Plant in:

Sun

Hens and Chicks, Common Houseleek

Green to Burgundy Foliage

Height: 3-4”

Width: 10-15”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. Purple Beauty's pointy leaves emerge burgundy in spring, turning deep purple in color with red undersides and centers of grayish green throughout the season. It features unusual clusters of pink star-shaped flowers with dark red bracts rising above the foliage in mid summer.

Sempervivum Red Heart

Plant in:

Sun

Hens and Chicks, Common Houseleek

Green-grey with Burgundy Centers

Height: 2-4”

Width: 12”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. Red Heart's pointy leaves emerge grayish green in spring, turning light green in color with prominent red tips throughout the season. It features unusual clusters of pink star-shaped flowers with burgundy bracts rising above the foliage in mid summer.

Sempervivum Red Rubin

Plant in:

Sun

Hens and Chicks, Common Houseleek

Green with Burgundy Centers

Height: 2-4”

Width: 12”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. Large burgundy-red petals form rosettes around emerging green centers.

Sempervivum Sanford Hybrid

Plant in:

Sun

Hens and Chicks, Common Houseleek

Burgundy foliage

Height: 3-4”

Width: 10-15”

Flower
Months:

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. Sanford's Hybrid 's pointy leaves emerge brick red in spring, turning dark green in color with prominent dark red tips. As an added bonus, the foliage turns a gorgeous dark red in the fall. It features unusual clusters of pink star-shaped flowers with dark red bracts rising above the foliage in mid summer

Sempervivum Silverine

Plant in:

Sun

Hens and Chicks, Common Houseleek

Green with Reddish-Silver Cast

Height: 3-4”

Width: 10-15”

Flower

Months:6-7

Zone:

Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. Rosettes of evergreen foliage with a reddish-silver cast. Star-shaped, reddish-purple flowers are held in flat cymes on the terminal ends of hairy, upright stems

Sempervivum Spring Beauty

Plant in:

Sun

Hens and Chicks, Common Houseleek

Grey-Green foliage

Height: 2-4”

Width: 12”

Flower
Months:6-7

Zone:

This selection has medium-sized rosettes of grey-green, flushed with plum in the colder months. Short spikes of pastel flowers appear in summer. Hen-and-chicks tolerate heat, drought and neglect with style. They form a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the middle. After flowering, the mother rosette dies to leave room for the chicks.

Silene pendula Triumph Rose

Plant in:

Sun

Rock Campion, Catchfly

Green foliage, Fuchsia Flowers

Height: 6"

Width: 6"

Flower
Months:6-8

Zone:

Charming and whimsical with its dark fuchsia-pink flowers, this catchfly makes a showy addition to summer gardens. The leaves are mid-green, hairy and oval. This bushy plant sends up short stems in late spring to late summer bearing loose clusters of deep fuchsia-pink blossoms. The flowers often hang downward and reveal striped and toothed undersides.

Silene uniflora Druett's Variegated

Sun

Rock Campion, Catchfly

Variegated Foliage, White Flowers

Height: 2-4"

Width: 8-12"

Flower
Months:6

Zone:

Forming a low cushion of fleshy green leaves, smartly edged in creamy-white. Curiously ballooned white flowers appear in early summer. An excellent addition to the sunny rock garden, rock wall or alpine trough, planted where it can drape and cascade, and adding some color interest well into late summer and fall. Remove any all-green shoots that might appear or they will take over the clump after a few seasons.

Solidago hybrida Little Lemon

Plant in:
Sun Part Sun

Golden Rod

Green foliage, Yellow Flowers

Height: 10”

Width: 12”

Flower
Months:8-9

Zone:

Abundant bright lemon yellow panicles atop finely textured green leaves late summer into early fall. An excellent companion to Agastache or purple Asters. Cut back when flowering slows. Not the cause of hayfever which is ragweed that blooms at the same time.

Stachys byzantina Silky Fleece

Plant in:

Sun

Lamb's Ear

Silvery Foliage, Purple Flowers

Height: 10”

Width: 12”

Flower

Months:6-7

Zone:

This new cultivar of a treasured favorite is as cute as a button. With leaves about the size of a dime, 'Silky Fleece' has the same great soft, silky texture and silver color as other lambs' ears, just in a smaller package, growing to about 10 inches tall and wide. Lilac-plum flower spikes rise above the foliage from mid- to late summer. Grow it as edging, in containers, or in rock gardens.

Stachys byzantina Helene Von Stein

Plant in:

Sun

Lamb's Ear, Big Ears

Silvery Foliage, Purple Flowers

Height: 18-24"

Width: 24"

Flower

Months:6-7

Zone:

This form of Stachys is much more tolerant of heat and humidity giving it a wider range of climates in which it will grow. The velvety, woolly, gray-green leaves are nearly twice the size of other forms of Lamb's Ear. A very popular perennial among rose gardeners who often use it to edge rose beds. Beautiful fuzzy leaves are topped by purple flower spikes mid-summer. Good drainage is essential.

Stachys byzantina lanata

Plant in:

Sun

Lamb's Ear

Silvery Foliage, Pink Flowers

Height: 12-15”

Width: 12”

Flower

Months:6-7

Zone:

Mats of velvety soft, grayish-white leaves are topped by lavender flower stalks mid-summer. Remove the flowers for best foliage effect. Good drainage is essential.

Stachys monieri Hummelo

Plant in:

Sun Part Sun

Lamb's Ear

Green foliage, Purple Flowers

Height: 18-20"

Width: 12"

Flower

Months:6-7

Zone:

A very distinctively different form of Stachys, with no noticeable resemblance's to its cousin, Lamb's Ear. Vivid rose-lavender flowers in dense sage-like spikes well above large clumping foliage in mid summer. Glossy, heavily textured, dark green leaves in basal rosettes. Does best in full sun, may tolerate light partial shade. Good drainage is essential.

Limonium, Statice

Green foliage, White Flowers

Height: 12-18”

Width: 18”

Flower

Months:6-7

Zone:

A cloud of tiny, papery, white flowers appear from July to August over the leathery, basal foliage of this drought tolerant and long blooming plant. Excellent as a cut flower or for drying.

Stoke's Aster

Green foliage, Silver-blue Flowers

Height: 18-24”

Width: 18-24”

Flower

Months:6-7

Zone:

This heat and drought tolerant plant forms lovely clumps with silver blue glimmering flowers with a fluffy tuft in the center. These plants make excellent cut flowers.

Stokesia laevis Blue

Plant in:

Sun

Stoke's Aster

Green foliage, Blue Flowers

Height: 12-18"

Width: 12-18"

Flower

Months:6-7

Zone:

Forms neat mounds of deep green foliage with large, 3-4" sky-blue fringed flowers resembling cornflowers. Spectacular plants when in bloom mid-summer. Use as edging or near the front of the border.

Stokesia laevis Klaus Jelitto

Plant in:

Sun

Stoke's Aster

Green foliage, Blue Flowers

Height: 18-24"

Width: 15"

Flower

Months:6-7

Zone:

Forms neat mounds of deep green foliage with large, 3-4" powder-blue fringed flowers. Spectacular plants when in bloom mid-summer. Use as edging or near the front of the border.

Thalictrum aquilegifolium Meadow Rue

Plant in:

Sun Part Sun

Meadow Rue

Green foliage, Pink Flowers

Height: 24-40"

Width: 18-24"

Flower
Months:6

Zone:

This variety features wispy, cloud-like, rose and white flowers that emerge on slender, graceful stems during June. Lobed, gray-green, columbine-like leaves set the stage for the blooms. Excellent for the back of the border or a woodland setting. Best in moist, humus rich soil and partial shade.

Tiareella wherryi

Plant in:

Sun Part Sun

Foam Flower

Green foliage, Light Pink Flowers

Height: 6-10"

Width: 15"

Flower

Months:5-6

Zone:

Dainty 6-8" flower spikes of creamy pink appear in early spring and are breathtaking when viewed en masse as a sea of white foam. This native groundcover has evergreen, heart-shaped leaves that turn rose-burgundy during the winter. Prefers semi-shade and good drainage. Slow spreading.

Tradescantia andersoniana Osprey

Plant in:

Sun Part Sun

Spiderwort

Green foliage, White Flowers with Blue Centers

Height: 12-18"

Width: 12-18"

Flower

Months:5-7

Zone:

Clumps of grassy, strap-like leaves grow to 2 to 3 feet and are topped by clusters of large white flowers with feathery blue stamens during early- to mid-summer. The 1-inch, 3-petaled, triangular flowers open in the morning and dissolve away in the afternoon leaving no mess. Spiderwort can take full sun or partial shade in average soil. Cut back hard after blooming for repeat flowering.

Tradescantia virginiana Purple

Plant in:

Sun Part Sun

Spiderwort

Green foliage, Purple Flowers

Height: 24"

Width: 36"

Flower

Months: 5-7

Zone:

Prolific blooms of purple, 3-petaled flowers atop green, grassy foliage. Great for naturalizing and as a cut flower. Flowers last for only one day, but tons of buds ensure a long bloom time. Cut back hard after blooming for repeat flowering.

Tradescantia andersoniana Red Cloud

Plant in:

Sun Part Sun

Spiderwort

Green foliage, Purple Flowers

Height: 12-18"

Width: 12-15"

Flower

Months: 5-7

Zone:

Prolific blooms of rosy-red, 3-petaled flowers atop purple veined, grassy foliage. Great for naturalizing and as a cut flower. Flowers last for only one day, but tons of buds ensure a long bloom time. Cut back hard after blooming for repeat flowering.

Tradescantia andersoniana Snow Cap

Plant in:

Sun Part Sun

Spiderwort

Green foliage, White Flowers

Height: 15-18"

Width: 18"

Flower

Months: 5-7

Zone:

Pure white triangular shaped blooms with sulfur yellow stamens blooms for up to 8 weeks from late May through most of July. Plants form dense, spreading clumps of erect narrow strap like leaves. A very nice selection for adding color to less than ideal sun light situations in the garden. Plants can be sheared completely down after they have finished flowering and will return in fall for another round of flowering. Plants bloom better if given some afternoon shade.

Tricyrtis formosana Samurai

Plant in:

Part Sun Shade

Toad Lily

Variegated Foliage, Purple spotted flowers

Height: 45"

Width: 24"

Flower

Months:7-8

Zone:

Toad-lilies are unique and easy perennials for growing in shady areas. Leafy, purple colored arching stems produce a fall display of unique lily-shaped flowers, excellent for cutting. They deserve a special place where they can be appreciated up close. This variety features purple flowers with darker spotting, above green leaves edged in golden yellow.

Trifolium rubens Red Feathers

Plant in:
Sun Part Sun

Clover

Green foliage, Crimson Flowers

Height: 24”

Width: 18-24”

Flower

Months:7-8

Zone:

The most ornamental of all Clovers and definitely worthy of a place in the garden. Huge, bright crimson candles of blooms are silver when in bud and are borne on long stems. Silvery, hairy leaves too. Fantastic for attracting butterflies and hummingbirds.

Trollius chinensis Golden Queen

Plant in:

Sun Part Sun

Globeflower

Green foliage, Yellow Flowers

Height: 24-36"

Width: 24"

Flower
Months:

Zone:

A sterling addition to bouquets, the golden-orange Buttercup-like blossoms perch on straight stems above handsome, deeply divided glossy leaves and promise a long summer fling with regular deadheading. Globeflowers are undemanding perennials that are the perfect choice for the waters edge, a boggy spot, or the border, given a moisture retentive, organic-rich soil and shelter from hot sun.

Mullein

Silvery Foliage, Yellow Flowers

Height: 4-5'

Width: 18-24"

Flower

Months:6-8

Zone:

'Arctic Summer' has beautiful flower spikes that soar above its white felted leaves. Attractive in both formal or informal flower gardens and for cutting. Allow the seeds to sow freely, or cut back the stems to promote the large silvery leaves.

Verbascum phoenicium Benary Hybrid Mix

Plant in:

Sun

Mullein

Green foliage, Multi-colored Flowers

Height: 30-40"

Width: 30"

Flower

Months:6-8

Zone:

Attractive gray-green leaves and towering flower spikes make this a stand-out for the back of your beds. In summer they bear candle-like clusters of many small purple, violet-blue, rose, pink, or white flowers on thigh-high stems. The gray green, lance-shaped foliage turns golden yellow to yellow green in fall.

Mullein

Green foliage, Peach Flowers

Height: 24”

Width: 18-24”

Flower

Months:6-8

Zone:

It flowers first in spring, then goes dormant during the hot summer months and returns when the weather cools down in fall. How convenient is that? The soft, silvery foliage supports the flowers whose colors are fantastic -- a soft blend of creamy golden, peachy rose, and softest lavender, starred by a fuzzy purple center. This variety does not self-sow.

Mullein

Green foliage, Purple Flowers

Height: 18-24”

Width: 18-24”

Flower

Months:6-8

Zone:

This super-compact biennial Verbascum is great for containers as well as the garden, its brilliant grape-soda purple blooms visible from far away. Prepared to bloom heavily all summer and even to self-sow where it's happy, it is a charming plant any gardener will appreciate.

Hungarian Speedwell

Green foliage, Blue Flowers

Height: 15”

Width: 12-15”

Flower

Months:6-8

Zone:

This selection forms a low clump of bright-green leaves, loaded with short spikes of flowers in the most intense shade of gentian-blue. Clumps should be cut back hard after blooming, to maintain a low habit for the summer. Stems are just long enough to be useful for cutting. Plants may be easily divided in early spring or fall.

Veronica rupestris Heavenly Blue

Plant in:

Sun Part Sun

Prostrate Speedwell

Green foliage, Blue Flowers

Height: 3-4”

Width: 12-24”

Flower

Months:5-6

Zone:

This very vigorous prostrate grower is one of our best ground covers with its deep green glossy foliage and dependable display of wonderfully blue flowers. Find room in your garden for this beauty!

Veronica longifolia Eveline

Plant in:

Sun Part Sun

Veronica, Speedwell

Green foliage, Purple Flowers

Height: 12-24"

Width: 18-24"

Flower

Months:6-8

Zone:

This easy to grow perennial has tons of purplish-pink flower spikes that bloom throughout June and into September. This Veronica is deer resistant and attracts hummingbirds and butterflies. This is not one to be missed.

Veronica peduncularis Georgia Blue

Plant in:

Sun Part Sun

Creeping Speedwell

Green foliage, Blue Flowers

Height: 3-5"

Width: 18"

Flower

Months: 5-6

Zone:

This creeping Speedwell has proven to be an outstanding selection for a bright display in the spring garden. Plants form a low creeping mat of deep green leaves, evergreen but turning bronze in the colder months. Small sapphire-blue flowers are studded all over during the spring, and sometimes again in late summer. To keep tidy plants, shear back by 1/2 after flowering.

Veronica repens Sunshine

Plant in:
Sun Part Sun

Creeping Speedwell

Golden foliage, white flowers

Height: 6"

Width: 12"

Flower

Months:6-8

Zone:

This plant forms a flat carpet of tiny golden-yellow leaves, with small near-white flowers appearing briefly in late spring. Nice as a contrast to blue or purple flowering companions. Wonderful between flagstones, also in pots or alpine troughs.

Veronica repens

Plant in:

Sun Part Sun

Creeping Speedwell

Green foliage, Blue Flowers

Height: 2-4”

Width: 12”

Flower

Months:6-8

Zone:

An evergreen carpeting plant, this ground-hugger is studded by tiny white flowers during late spring. Ideal for growing between flagstones or massing as a groundcover over a small area. A good cover for early spring-blooming bulbs. Easily divided by ripping apart into small pieces in spring or early fall. Tolerates moderate foot traffic

Veronica spicata Royal Candles

Plant in:
Sun Part Sun

Veronica, Speedwell

Green foliage, Blue Flowers

Height: 15-18”

Width: 12-15”

Flower

Months:6-8

Zone:

'Royal Candles produces wonderful dark blue, candle flowers from June till September. With its dark glossy green foliage and compact form, it fits perfectly into almost any bed. Excellent for cutting. Clumps may be pruned hard if they get floppy. Flowers are attractive to butterflies.

Veronica spicata Blue

Plant in:

Sun Part Sun

Veronica, Speedwell

Green foliage, light blue flowers

Height: 12-20"

Width: 12-15"

Flower

Months:5-6

Zone:

'Royal Candles forms a bushy clump of dark-green leaves, bearing upright spikes of blue flowers through the summer months. It needs a full sun area with well-drained soil. Deadhead the flowers after the first bloom to prolong its bloom time. Excellent for cutting. Clumps may be pruned hard if they get floppy. Flowers are attractive to butterflies.

Veronica spicata Blue Charm

Plant in:

Sun Part Sun

Veronica, Speedwell

Green foliage, light blue flowers

Height: 18-24”

Width: 16”

Flower

Months:6-8

Zone:

A hard to find cultivar sought after for its long blooming habit and attractive, mildew resistant glossy green leaves. Its blue flower spikes begin in early summer and continue for months when deadheaded. Uniform mounds have lavender-blue flowers all summer. Heat and drought tolerant.

Veronica spicata Icicle

Plant in:
Sun Part Sun

Veronica, Speedwell

Green foliage, White Flowers

Height: 18-20”

Width: 12-18”

Flower

Months:6-8

Zone:

This selection forms a bushy clump of dark-green leaves, bearing upright spikes of white flowers through the summer months. Removing faded spikes will keep plants in flower for much longer. Excellent for cutting. Clumps may be pruned hard if they get floppy. Flowers are attractive to butterflies.

Veronica spicata Red Fox

Plant in:
Sun Part Sun

Veronica, Speedwell

Green foliage, Red Flowers

Height: 15-18”

Width: 1-2'

Flower

Months:6-8

Zone:

Deep rosy-red spikes of flowers appear during July and August on erect stems that rise up from dark green, glossy foliage. Removing faded spikes will keep plants in flower for much longer. Excellent for cutting. Clumps may be pruned hard if they get floppy. Flowers are attractive to butterflies.

Veronica spicata Rose

Plant in:

Sun Part Sun

Veronica, Speedwell

Green foliage, Rose Flowers

Height: 15-18”

Width: 18-24”

Flower

Months:6-9

Zone:

Blushing pink spikes of flowers appear during July and August on erect stems that rise up from dark green, glossy foliage. Removing faded spikes will keep plants in flower for much longer. Excellent for cutting. Clumps may be pruned hard if they get floppy. Flowers are attractive to butterflies.

Veronica spicata Waterperry Blue

Plant in:
Sun Part Sun

Creeping Speedwell

Green foliage, Violet-blue Flowers

Height: 6"

Width: 24"

Flower

Months:6-7

Zone:

'Waterperry' features small, glossy, deep green leaves that are accented by dainty, light violet-blue flowers during late May and June. The foliage takes on a beautiful copper-burgundy hue in the cooler weather. A great low-maintenance groundcover.

Veronica Sunnyborder Blue

Plant in:

Sun

Veronica, Speedwell

Green foliage, Blue Flowers

Height: 18-24"

Width: 24"

Flower

Months:5-9

Zone:

'Sunny Border Blue' produces erect sturdy spikes of tubular, dark violet-blue flowers from early summer to late autumn. This is a clump growing perennial with lance-shaped, crinkled, toothed, glossy dark green leaves. This species needs good drainage, moisture and full sun, good for sunny borders and rock gardens. Keep dead flowerheads removed to prolong the bloom time

Rhubarb

Green with Red Stems

Height: 2-3'

Width: 3-4'

Flower

Months:N/A

Zone:

The best cooking rhubarb, bar none-noticeably sweeter and milder the all others. Stalks are slender and very tender and don't require peeling, so it's quick and easy to fix for the pot. Plants are prolific; stalks green with red blush

Vinca minor atropurpurea

Plant in:

Sun Part Sun Shade

Common Periwinkle, Creeping Myrtle

Green foliage, periwinkle flowers

Height: 3-6”

Width: 18”

Flower

Months:5-6

Zone:

An excellent, weed-smothering, evergreen groundcover with small, solid dark green leaves. From mid to late spring, lovely lavender-blue flowers about the size of a nickle appear just above the foliage, creating a tranquil effect. Additional flowers may appear sporadically in summer and fall. Vinca spreads by creeping across the ground and rooting at each node that touches the surface. This makes it an excellent plant to use for erosion control on slopes.

Viola cornuta Angel Tiger Eye

Plant in:
Sun Part Sun

Viola

Green foliage, yellow flowers with black veins

Height: 4-6”

Width: 6-8”

Flower

Months:4-7

Zone:

Angel Tiger Eye will catch your eye from across the garden when its neat golden blooms with their dramatic spiderweb of black burst forth in summer! Ideal for overwintering and quite weather-resistant, this variety blooms weeks before other violas.

Viola cornuta Black Magic

Plant in:

Sun Part Sun

Viola

Green foliage, black flowers

Height: 6-8"

Width: 6-8"

Flower

Months: 5-6

Zone:

'Black Magic', true to its name, has 1" wide, solid matte black flowers with a tiny bright yellow eye. 'Black Magic' has one of the darkest flowers in existence! In mid-spring, this clump forming viola is blanketed in flowers and will rebloom again in the fall if deadheaded

Viola cornuta Etain

Plant in:

Sun Part Sun

English Viola

Green foliage, yellow and lavender flowers

Height: 6-8"

Width: 8-10"

Flower

Months:5-6

Zone:

Etain' is a sweetly scented, evergreen, clump-forming perennial that is often grown as an annual. It has small, green leaves and yellow and orange flowers with lavender edges that are present from spring until autumn.

Viola labradorica purpurea

Plant in:

Sun Part Sun

Labrador, Alpine Violets

Purple foliage, lavender flowers

Height: 1-3"

Width: 4-6"

Flower

Months:5-6

Zone:

Massed groundcover under and around other perennials and shrubs this is a great and easy native plant for its flowers and foliage, especially in shady areas. The purple-tinged foliage is a backdrop for the heart shaped 1" across lavender flowers appear in late May or early June
